FOREWORD FROM THE LEADER OF THE COUNCIL

The end of this financial year has obviously proved to be far more challenging than anyone could have possibly imagined, due to the significant lockdown resulting from the Covid-19 pandemic.

The Council had already been facing unprecedented financial challenges as a result of the stark inequities for outer London Boroughs contained within the Government's local government funding arrangements. The ongoing fall-out from the COVID crisis, the full extent of which has still to be determined, has self-evidently made that already difficult task, significantly harder.

If there is one small positive to be gained from a bleak situation, it is that this Council's diligent forward planning and financially astute setting aside of sufficient reserves to deal with an unforeseeable crisis, have saved us from the ignominy of considering having to serve a s114 notice, which other less prepared Boroughs are now reportedly being forced to consider.

Looking back over the year, our Council has continued its usual prudent approach to managing the budget, whilst embarking on an ambitious transformation programme working alongside our partner agencies and this will continue.

Although this work has been delayed for several months to enable everybody to rightly prioritise their full attention towards tackling the pandemic, the Transformation programme will, national circumstances permitting, begin in earnest over the course of coming months as the 'new normal' settles down and becomes clearer to us all.

I believe it is fair to say, given the current financial outlook for local Government, that never will 'working smarter' either internally, or in conjunction with our partner agencies, have been more critically needed, and our evolving programme will face those challenges head on.

As part of this task, I have also charged officers to review how we face the challenges ahead to engage the skills, hard work and talent of our workforce to the full, in strategic partnership with other agencies to ensure this critical change happens.

It will unquestionably involve striking a new relationship between ourselves as public service providers and our residents, communities and businesses in order to meet their needs and priorities both now and moving further towards the future.

With these challenges will come learning and new ways of working that will become tried and tested and serve to enhance our future performance.

Our efficient approach and commitment to sustainable Council finances means we have a balanced budget at a time when an increasing number of other Councils struggle to do so.

We will continue with our approach to responsible budgeting in a sustainable manner, as we work our way through the integration stages of this challenging agenda.

We will:

- Adopt new working practices in line with the Council's transformation agenda and build on the positive lessons from the period of pandemic.
- Look for innovative ways to provide services, generate income and mitigate rising demand for services.
- Continue to seek efficiencies in the way we procure and supply services, transforming the way we provide services into the future.
- Continue to lobby Central Government for a better deal for Bromley, especially in the wake of Covid-19.

We have continued our commitment to Building a Better Bromley and will be launching a re-fresh of our ambitions over coming months.

We will also continue to enhance our Borough as a great place to live, learn, do business, work, and relax as life gets back to as close as possible to normal.

Some of our achievements include:

Covid-19 Pandemic

- Managing the early stages of the Covid-19 pandemic, planning for more delivery of services online and by phone as well as gearing up for staff to work from home.
- Developing a volunteer hub to support residents shielding during the Covid-19 emergency.
- Ensuring mechanisms are in place for the continuation of the democratic process during lockdown.

Resources

- Ensuring the best returns are sought on investments to support services.
- Continuing to scrutinise all spending and managing contracts well.

Adult Care Services

- Working with health partners to further integrate health and care and support residents to be as independent as possible.
- Continuing to work with the voluntary sector which provides early support and advice to members of our communities, helping people remain independent and reducing demand for more formal interventions.
- Ensuring the provision of high quality local information and advice about care and support to enable choice and control.
- Ensuring people with care and support needs, and those whose circumstances make them vulnerable, live their lives to the full, protected from avoidable harm.
- Ensuring Bromley remains the best performing in London for hospital discharge, exceeding targets for keeping residents safe and well at home.

Children and Families

- Bromley is ambitious for all its children and continues to strive for excellence.
- Working with Bromley Safeguarding Children Partnership to keep children safe.
- Ensuring our Children Looked After are safe and have ambitious outcomes.
- Training and growing our own skilled workforce.
- More than 99 per cent of local children received an offer in one of their chosen primary schools with more than 96 per cent for secondary school places.
- Network Champions launched to enhance Special Educational Needs expertise across the local area.

Healthy Bromley

- Working with health partners to encourage healthy choices at each life stage.
- Improving health for those with long term health conditions: cancer, diabetes, dementia.
- Supporting the Council's strategies including homelessness and adults with learning disabilities.
- Delivering disease prevention services such as NHS Health Checks and the Diabetes Prevention Programme.

Housing

- Focussing on early intervention, supporting vulnerable households and preventing homelessness.

- Launched a new housing strategy; setting ambitious targets to increase the number of affordable homes and reduce the number of households in temporary accommodation.
- Working with partners to provide sustainable and innovative housing solutions for our residents.

Public Protection - Safer Bromley

- Working with partners to keep Bromley a safe place.
- Taking enforcement action where necessary to reduce environmental crime.
- Cracking down on fly-tipping and blue badge misuse.
- Tackling rogue traders and scams to protect vulnerable residents.
- Progressing Food Safety service plan.
- Developing and delivering our Air Quality Action Plan.

Quality Environment

- Working towards zero waste to landfill by implementing strategies for waste reduction, improving recycling rates and expanding the successful green garden waste service.
- Continuing to engage with Bromley's Friends Initiative for parks, streets and snow.
- Continually working towards keeping our roads well maintained and as safe as possible.
- Investing in well-managed, quality parking schemes.
- Establishing a target to have net zero Council carbon emissions by 2029.

Regeneration

- Completed Crystal Palace Park improvement scheme and opened new park café. Outline Planning Application submitted for the Regeneration Plan and funding secured for the restoration of the Grade II listed Crystal Palace subway.
- Progressing plans to develop the Chipperfield Road and Bromley Valley site.
- Progressing Plans for a new West Wickham leisure centre.
- Completed Norman Park Running Track works.
- Completed refurbishment of Central Library.
- Taking forward new housing developments across the Borough.
- Biggin Hill Memorial Museum formally opened by Randolph Churchill.
- Taking forward improvements to the Borough's digital infrastructure.
- Delivered Public Realm works in Beckenham, Orpington and Bromley.
- Developing a markets strategy to boost visitors to our town centres.

We have clearly faced some extremely difficult times in recent months, not just as a Council. All residents have had to make significant changes to their own lifestyles too. The fallout from the Covid-19 pandemic is adding significant pressure to an already difficult task.

These are unprecedented times and there will undoubtedly be greater challenges ahead, but once again we have presented a stable, balanced budget despite our adverse funding constraints.

I am pleased to present our Annual Statement of Accounts for 2019-20.

Colin Smith
Leader
Bromley Council

APPROVAL OF THE COUNCIL STATEMENT OF ACCOUNTS

I hereby confirm that the Council Statement of Accounts for the year ending 31st March 2020, as signed by the Director of Finance on the 2nd May 2023, has been approved by the Chairman of the Audit and Risk Management Committee of the London Borough of Bromley on 2nd May 2023.

Councillor Michael Tickner
Chairman of the Audit and Risk Management Committee
2nd May 2023

This report was written at the time of the initial preparation of the 2019/20 statement of accounts in 2020. The content of the written narrative remains correct for that time, although at the time of signing off the accounts (April 2023) some of the text has been superseded. In order to best ensure the narrative correctly reflects the position and key factors at the time of the closing of the 2019/20 accounts, we have not updated the text, but it should be read recognising the timing of its initial composition.

Introduction to the London Borough of Bromley

Bromley is the largest of the London Boroughs, occupying 58 square miles (15,014 hectares). The borough shares its borders with the London Boroughs of Bexley, Croydon and Lewisham and the Royal Borough of Greenwich.

Our population (ONS estimate – mid 2019) is 332,336 and there are 243,179 people on the electoral roll. In 2019/20 the total number of ‘Band D equivalent’ properties was estimated at 131,428 and the number of business properties at 7,276.

The Council has an agreed framework to improve the life of all those that live, visit, study or work in the borough. This vision is called ‘Building a Better Bromley’ and has seven key priority areas:

- A Quality Environment
- Regeneration
- Vibrant Thriving Town Centres
- Supporting our Children and Young People
- Supporting Independence
- Safe Bromley
- Healthy Bromley.

Our officer and political structures are all aligned to deliver this vision through our portfolio plans. Looking ahead, we will continue to build on this framework and our future plans will be supported by our Transformational Review.

Council Structure

The Council has adopted a Leader and Cabinet model and has 60 Councillors representing 22 wards. There are currently 50 Conservative, 8 Labour and 2 Independent Councillors.

Management Structure

Supporting the work of Councillors is the organisational structure of the Council led by the Chief Executive. Chief Officers have a strategic role, advising Councillors on their areas of particular expertise and contributing to the overall leadership of the Council. They also have a managerial role, ensuring that the services they are responsible for focus on delivering excellent customer service and making the most effective use of departmental resources to achieve that goal.

During 2019 a review of the corporate leadership structure was undertaken to better enable and support the successful delivery of the Transforming Bromley Programme. This resulted in a reconfigured management structure which is shown on the following page:

Bromley Workforce

As at 1 April 2020, the Council employed 1,566 people on full and part-time contracts equating to a full-time equivalent of 1,353.

The make-up of the workforce is as follows:

Key Services

The Council is responsible for providing a range of key services including:

- Adult Social Care
- Education
- Children's Social Care
- Waste and Recycling
- Street Cleansing
- Highways and Transport
- Public Protection
- Parks and Green Spaces
- Libraries
- Town Centre Management and Regeneration
- Planning Services
- Housing, including Homelessness and Housing Needs
- Public Health.

Explanation of the Financial Statements

The Accounts and Audit Regulations 2015 require the Council to produce a Statement of Accounts for each financial year. This sets out the Council's income and expenditure for the year and its financial position at 31st March. The format and content is prescribed in the Code of Practice on Local Authority Accounting in the United Kingdom 2019/20 and comprises core and supplementary statements together with supporting disclosure notes.

These statements are supported by the Council's Statement of Accounting Policies and a Glossary of key terms is also provided.

The Statement of Accounts is accompanied by an Annual Governance Statement which sets out the Council's governance framework and the key elements of the systems and processes that comprise the Council's governance arrangements.

Core Financial Statements:

Comprehensive Income and Expenditure Statement – this statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Taxation is raised to cover expenditure in accordance with statutory requirements and this may be different from the accounting cost. The taxation position is shown in both the Expenditure and Funding Analysis and the Movement in Reserves Statement.

Movement in Reserves Statement – this statement shows the movement from the start of the year to the end on the different reserves held by the Authority, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and other 'unusable' reserves. The statement shows how the movements in year of the Authority's reserves are broken down between gains and losses incurred in accordance with generally accepted accounting practices and the statutory adjustments required to return to the amounts chargeable to council tax for the year. The Net Increase/Decrease line shows the statutory General Fund Balance movements in the year following those adjustments.

Balance Sheet – this statement shows the value as at the Balance Sheet date of the assets and liabilities recognised by the Authority. The net assets (assets less liabilities) are matched by the reserves held. Reserves are reported in two categories. The first category of reserves is usable reserves (i.e. those that the Authority may use to provide services, subject to the need to maintain a prudent level of reserves

and any statutory limitations on their use). The second category of reserves is those that the Authority is not able to use to provide services. This category includes reserves that hold unrealised gains and losses, where amounts would only become available to provide services if the assets are sold, and reserves that hold timing differences shown in the Movement in Reserves Statement line ‘Adjustments between accounting basis and funding basis under regulations’.

Cash Flow Statement – this statement shows the changes in cash and cash equivalents during the reporting period. The statement shows how the Authority generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Authority are funded by way of taxation and grant income or from the recipients of services. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Authority’s future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital to the Authority.

Supplementary Statements:

The Collection Fund – this statement reflects the statutory obligation for billing authorities to maintain a separate Collection Fund. The statement shows the transactions of the Authority (as billing authority) in relation to the collection from taxpayers and distribution to the Greater London Authority (GLA) and Central Government of Council Tax and non-domestic rates.

Former LRB Fund - summarises movement on the Fund during the year and the financial position at the year end. The Fund relates to property and other residual functions transferred from the London Residuary Body which wound up the affairs of the Greater London Council (GLC) and Inner London Education Authority (ILEA).

Pension Fund – shows the contributions made to the Fund and the benefits paid to pensioners in 2019/20. The Net Asset Statement sets out the position of the Fund as at 31st March 2020. The Council’s Pension Fund is part of the Local Government Pension Scheme (LGPS).

Financial Performance in 2019/20

Revenue Expenditure

The 2019/20 outturn position is summarised in the table below:

	Budget £m	Actual £m	Variation £m
Net expenditure	212.52	212	(0.52)
Funded by:			
- Grants, Council Tax and Business Rates	(211.84)	(212)	(0.16)
- Carry forwards from 2018/19	(0.68)	-	0.68
Variation in General Reserves	-	-	-

The 2020/21 Council Tax report identified the latest financial projections and future year budget gap due to the impact of inflation, service cost pressures and ongoing significant reductions in government funding. Further details were reported in the ‘2020/21 Council Tax’ report to the Executive in February 2020.

The 2019/20 outturn identifies variations in departmental expenditure and the Council’s central contingency sum. In addition, there are higher returns from changes to the Council’s investment strategy. Underspends from the Central Contingency Sum mainly relate to ongoing action to contain

growth pressures, stringent cost controls, effective management of risk, effective use of government funding and meeting income targets. This financial position enables the Council to be ‘better placed’ to meet the future years budget gap but also provides opportunities to achieve savings from transformation, economic development and investment income which will provide a more sustainable financial outcome for the future.

The Council’s general reserves remain at £20m, whilst a future years ‘budget gap’ continues. However there is flexibility in the Council’s overall resources (including earmarked reserves) to allow this position to be revised in the future.

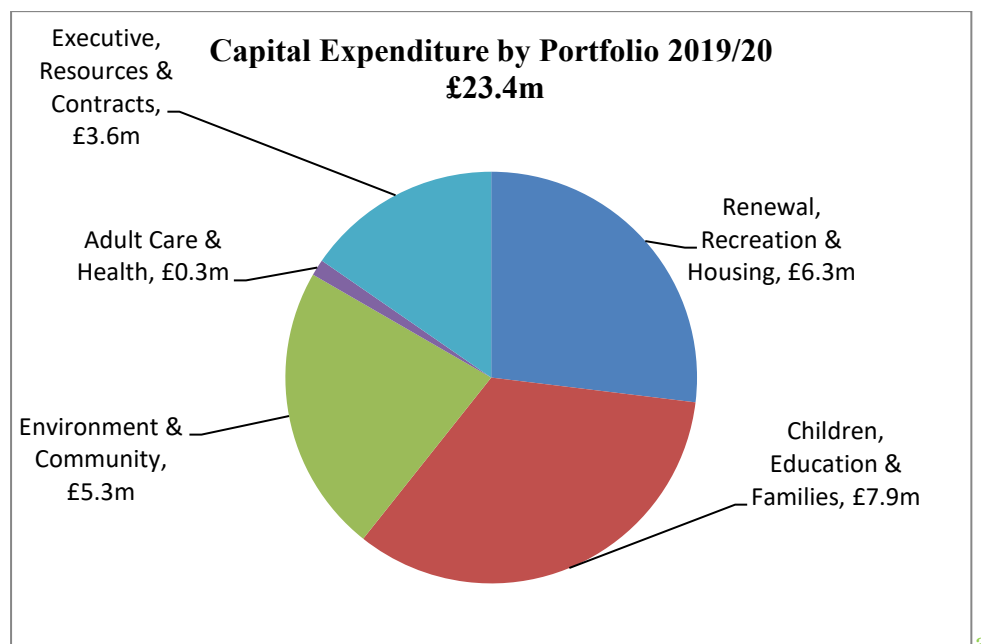

Further details of the variations in 2019/20 were reported on the 27th May 2020 and are available through: [Executive, Resources and Contract Policy Development and Scrutiny Committee 27th May 2020](#)

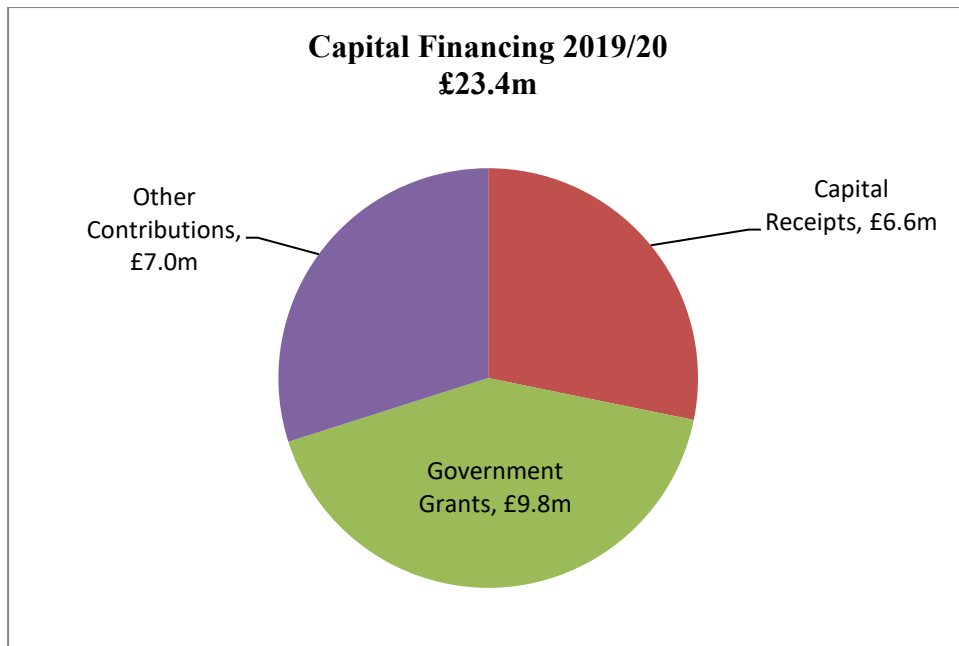

Capital Expenditure

Capital expenditure totalled £23.4m compared with the final approved estimate of £30.9m. Capital expenditure was fully financed from Government grants, other external contributions, revenue contributions and capital receipts without recourse to general reserves.

The Council generated new capital receipts of £1.7m in 2019/20 and, during the year, £6.6m of receipts were applied to finance capital expenditure.

Further information can be found in charts below and also in the Capital Programme Outturn reported on the 27th May 2020 and are available through: [Executive, Resources and Contract Policy Development and Scrutiny Committee 27th May 2020](#)

Investments

At the year end, the Council held significant investments totalling £330.9m (principal sum). These investments generated net income of £5.13m in 2019/20 to support the revenue budget. The investments represent the Council's general and earmarked reserves, provisions and net working capital.

Pension Fund

During 2019/20 the net assets of the Pension Fund decreased by £32m (3.1%). The underlying assets and liabilities of the Fund for retirement benefits earned by Bromley employees past and present are required to be recognised on the Council's Balance Sheet as a net liability. This liability has a significant negative effect on the net worth of the Council. However, the Council plans that the deficit on the scheme will be made good by increased employer contributions made over a 12 year period which started on 1st April 2017.

Strategic Risks and Governance

The overriding aim of the Risk Management Strategy is to embed a high quality risk management culture across the Council which will support better decision making. This will take account of the Council's strategic aims and support the achievement of our Corporate Policies and Objectives.

The Corporate Risk Management Group supports the Council in the effective development, implementation and review of the Strategy and assists with strategic risk assessment and development of the Risk Register.

The Council maintains a detailed departmental and corporate risk register. The key strategic risks for the coming year include:

- Failure to deliver a sustainable financial strategy which meets the Council's priorities
- Maintenance of business continuity and emergency planning arrangements
- Failure to deliver effective Children's services to fulfil statutory obligations

- Inability to effectively manage homelessness pressures
- Delay in partial implementation of Health and Social Care Integration
- Change management and maintenance of an efficient workforce
- Ineffective governance and management of contracts
- Failure to deliver the Transforming Bromley programme
- Failure to maintain and develop ICT systems to reliably support departmental service delivery
- Potential impact of Brexit upon service delivery
- Impact of Covid-19 on Service Delivery.

Further detail, including the cause, impact and controls in place to mitigate the risk are set out in the individual risk registers. The Corporate Risk Management Group also assists in the co-ordination of the review and development of the Annual Governance Statement (AGS). As a result of our annual review, three areas have been identified where further work is required to monitor how the key risks facing the Council are being managed:

- **Finance:** A potential balanced budget for next year has been achieved through identifying savings, generating income, an improved financial settlement from Government and continuing with prudent financial management, but there remains a ‘budget gap’ of £0.8m in 2021/22 rising to £16.9m per annum in 2023/24. The projections from 2021/22 have to be treated with some caution, particularly as the Government’s next Spending Review, outcome of the Fair Funding Review and Business Rate Devolution is now expected to be implemented from 2021/22 – the outcome, including the impact on individual councils, is still awaited. The impact of the Covid-19 Pandemic is yet to be fully assessed but is expected to have a significant effect on public services, including the Council’s financial forecast projections.
- **Valuation of Fixed Assets:** Issues have been identified relating to the methodology used for the valuation of fixed assets for reporting in the Council’s 2018/19 Statement of Accounts. It is clear that a revised approach is necessary which will require significant work relating to a full re-valuation of the Council’s assets.
- **Impact of Covid-19 pandemic on service delivery:** The Covid-19 pandemic has had a disruptive and unprecedented effect on individuals, businesses, governments and society. This pandemic is causing a significant impact on Local Government and the Council has had to adapt to this changing landscape. There are risks to service delivery; from for example an increase in staff absence rates amongst employees and contractors. At the same time there have been increased workloads, in key defined critical services. In common with many organisations the Council has shifted to employees working from home and adopted new operating models to continue business. It faces a possible reduction in Council funds through significant falls in income and additional costs. These bring the risk of an impact upon delivering statutory responsibilities, an impact on the delivery of the Council’s Transformation Programme 2020/23, and its ability to close the Council’s budget gap of £16.9m by 2023/24.

These areas will require attention over the next year to ensure they are operating effectively and risks are mitigated. The Annual Governance Statement is published with the Statement of Accounts.

Medium Term Financial Strategy (MTFS)

The draft 2019/20 budget and MTFS to 2022/23 was approved by Executive on 16th January 2019 and set the framework for the Council to address the significant financial challenges not only for 2019/20 but going forward into future years. It was envisioned that there would be a spending review in 2019,

resulting in a new multi-year settlement from 2020/21. Due to national priorities this has not happened and a one year spending round was announced on 4th September 2019 instead.

The Council's budget strategy has to be set within the context of a reducing resource base with Government funding reductions continuing beyond 2020. There remains an on-going need to reduce the size and shape of the organisation to secure priority outcomes within the resources available. There is also a need to build in flexibility in identifying options to bridge the budget gap which could increase further. The overall updated MTFS has to be set in the context of the national state of public finances, with austerity continuing given the level of public sector debt, and the high expectation from Government that services should be reformed and redesigned with devolution contributing to the transformation of local government.

In considering options required to address the medium term budget gap, the Council has taken action to reduce the cost base while protecting priority front-line services and providing sustainable longer term solutions. Although it has been possible to achieve a broadly balanced budget for 2020/21 through identifying savings and continuing with prudent financial management, there remains a significant budget gap by 2023/24. There will be considerable challenges as the Council is a low cost authority and the position will need to be regularly reviewed.

The Government remains committed with the aims of devolution including transforming local government and enabling it to be more self-sufficient. The Government views new flexibilities, such as future growth forecasts from business rates to be mainly devolved to local government combined with scope for the ongoing ability to increase council tax, as methods which can reduce the impact of grant reductions. However, it is not the full solution for local government given its cost pressures and service demands. The 'Fair Funding' review will set a new baseline funding allocation for local authorities based on up-to-date needs and resources, though it has been delayed due to disruption caused by the Covid-19 pandemic.

Although the devolution changes will provide significant opportunities in the future, the key question is whether such a financial model is sustainable for local government. The continuation of long-term financial planning as part of the MTFS remains essential. Some of the measures identified will enable flexibility to provide a more sustainable financial position for future years when the Council is facing an increasing budget gap as well as provide greater stability in the longer term by adopting a medium term budget planning approach.

Options Being Undertaken with a "One Council" Approach

The Council continues to face ongoing funding reductions and there remains uncertainty around future funding from 2021/22. The Government assumption remains that reductions in funding will be partly offset by an increase in taxation receipts generated by council tax (including social care precept) and business rates. There are clear benefits to explore opportunities to increase the Council's business rate base through economic development, identify invest to save opportunities as well as increase investment income as shown below:

- Community Infrastructure Levy (CIL) - potential income of up to £3m per annum could be raised but implementation is not likely to be until 2020/21 after the adoption of the Local Plan.
- Localisation of Business Rates – the London Business Rate Pilot was not extended into 2020/21, though the Council has agreed to join a pan-London Business Rates pool, with the potential opportunity for the Council to have a share of any gains made across London.
- Asset Review – seeking to grow the Council's net investment income by re-phasing the investment portfolio to improve returns and income growth prospects and adopting a more commercial approach to managing rents and service charge recoveries.
- Growth Fund - ring-fenced funding to support growth initiatives and economic development.

- Investment Fund - used primarily for property investments to enable the achievement of sustainable investment income. Further utilisation will be prioritised for housing investment at this stage.
- Investment Income - a diverse range of investments generates a higher level of income whilst managing the Council's exposure to risk.
- Review of Fees and Charges - ongoing review to determine whether charging levels remain appropriate.
- Invest to Save - to fund initiatives that deliver ongoing revenue savings.
- Procurement - identifying opportunities for contract savings.
- Commissioning Authority - identifying options for the most effective service delivery models, identifying future changes and mitigation options for addressing cost pressures and demographic pressures.
- Managing Rising Demand - ensuring there is a focus on outcomes rather than service delivery, including more collaborative working with other public agencies.
- Health and Social Care - integration will help protect social care and provide more effective services to people in the community. Opportunities will be explored including the pooling of resources if it enables better opportunities for value for money, economies of scale and streamlining processes.
- Identifying Further Savings - including baseline reviews, identification of statutory and non-statutory functions and opportunities for further savings and income opportunities.
- Core Statutory Minimum Requirements – to determine what the Council can afford within its overall budget envelope. There may also be opportunities to reduce costs through ensuring value for money is realised and the best method of service delivery and outcomes are achieved.
- Transformational Review – including opportunities for partnership working, collaboration, reviewing the approach to managing risks, use of technology and community based place shaping.

Further Information

Further Information about the accounts is available from:

Head of Corporate Finance and Accounting

 Stockwell Close
 Bromley, BR1 3UH

Members of the public also have a statutory right to inspect the accounts each year. The date and times of these inspections are advertised on the Council's website.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF THE LONDON BOROUGH OF BROMLEY

Opinion

We have audited the financial statements of the London Borough of Bromley ('the Council') for the year ended 31 March 2020 under the Local Audit and Accountability Act 2014. The financial statements comprise the:

- Movement in Reserves Statement,
- Comprehensive Income and Expenditure Statement,
- Balance Sheet,
- Cash Flow Statement;
- and the related notes 1 to 48 and the Expenditure and Funding Analysis.
- Collection Fund and the related notes 1 to 3

The financial reporting framework that has been applied in their preparation is applicable law and the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2019/20 as amended by the Update to the Code and Specifications for Future Codes for Infrastructure Assets (November 2022).

In our opinion the financial statements:

- give a true and fair view of the financial position of the London Borough of Bromley as at 31 March 2020 and of its expenditure and income for the year then ended; and
- have been prepared properly in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2019/20 as amended by the Update to the Code and Specifications for Future Codes for Infrastructure Assets (November 2022).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report below. We are independent of the Council in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard and the Comptroller and Auditor General's AGN01, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the Director of Finance's use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the Director of Finance has not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Authority's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

Other information

The other information comprises the information included in the 2019/20 Statement of Accounts, other than the financial statements and our auditor's report thereon. The Director of Finance is responsible for the other information.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

Matters on which we report by exception

We report to you if:

- in our opinion the annual governance statement is misleading or inconsistent with other information forthcoming from the audit or our knowledge of the Council;
- we issue a report in the public interest under section 24 of the Local Audit and Accountability Act 2014
- we make written recommendations to the audited body under Section 24 of the Local Audit and Accountability Act 2014
- we make an application to the court for a declaration that an item of account is contrary to law under Section 28 of the Local Audit and Accountability Act 2014
- we issue an advisory notice under Section 29 of the Local Audit and Accountability Act 2014; or
- we make an application for judicial review under Section 31 of the Local Audit and Accountability Act 2014.

We have nothing to report in these respects.

Responsibility of the Director of Finance

As explained more fully in the Statement of Responsibilities for the Statement of Accounts set out on page 22, the Director of Finance is responsible for the preparation of the Statement of Accounts, which includes the financial statements, in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2019/20 as amended by the Update to the Code and Specifications for Future Codes for Infrastructure Assets (November 2022), and for being satisfied that they give a true and fair view.

In preparing the financial statements, the Director of Finance is responsible for assessing the Council's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Council either intends to cease operations, or have no realistic alternative but to do so.

The authority is responsible for putting in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources, to ensure proper stewardship and governance, and to review regularly the adequacy and effectiveness of these arrangements.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at <https://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

Scope of the review of arrangements for securing economy, efficiency and effectiveness in the use of resources

We have undertaken our review in accordance with the Code of Audit Practice, having regard to the guidance on the specified criterion issued by the Comptroller and Auditor General in April 2020, as to whether the London Borough of Bromley had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people. The Comptroller and Auditor General determined this criterion as that necessary for us to consider under the Code of Audit Practice 2015 in satisfying ourselves whether the London Borough of Bromley put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2020.

We planned our work in accordance with the Code of Audit Practice 2015. Based on our risk assessment, we undertook such work as we considered necessary to form a view on whether, in all significant respects, the London Borough of Bromley had put

in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources.

We are required under Section 20(1)(c) of the Local Audit and Accountability Act 2014 to satisfy ourselves that the Authority has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources. The Code of Audit Practice issued by the National Audit Office (NAO) requires us to report to you our conclusion relating to proper arrangements.

We report if significant matters have come to our attention which prevent us from concluding that the Authority has put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources. We are not required to consider, nor have we considered, whether all aspects of the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

Delay in certification of completion of the audit

We cannot formally conclude the audit and issue an audit certificate as we have not yet completed the work necessary to conclude the objection to the Council's 2018/19 Statement of Accounts. It is our view that even if the objection were resolved in the objector's favour, this would not materially affect the Statement of Accounts. We are unable to form a conclusion on whether we are satisfied that, in all significant respects, the London Borough of Bromley put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2020 until we complete the work necessary to conclude the objection.

Until we have completed these procedures, we are unable to certify that we have completed the audit of the accounts in accordance with the requirements of the Local Audit and Accountability Act 2014 and the Code of Audit Practice issued by the National Audit Office.

Use of our report

This report is made solely to the members of the London Borough of Bromley as a body, in accordance with Part 5 of the Local Audit and Accountability Act 2014 and for no other purpose, as set out in paragraph 43 of the Statement of Responsibilities of Auditors and Audited Bodies published by Public Sector Audit Appointments Limited. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Council and the Council's members as a body, for our audit work, for this report, or for the opinions we have formed.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF LONDON BOROUGH OF BROMLEY

Opinion

We have audited the pension fund financial statements for the year ended 31 March 2020 under the Local Audit and Accountability Act 2014. The pension fund financial statements comprise the Fund Account, the Net Assets Statement and the related notes 1 to 21. The financial reporting framework that has been applied in their preparation is applicable law and the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2019/20.

In our opinion the pension fund financial statements:

- give a true and fair view of the financial transactions of the pension fund during the year ended 31 March 2020 and the amount and disposition of the fund's assets and liabilities as at 31 March 2020; and
- have been properly prepared in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2019/20.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report below. We are independent of the pension fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard and the Comptroller and Auditor General's (C&AG) AGN01, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the Director of Finance's use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the Director of Finance has not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the pension fund's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

Other information

The other information comprises the information included in the London Borough of Bromley Statement of Accounts 2019/20, other than the financial statements and our auditor's report thereon. The Director of Finance is responsible for the other information.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

Matters on which we report by exception

We report to you if:

- we issue a report in the public interest under section 24 of the Local Audit and Accountability Act 2014;
- we make written recommendations to the audited body under Section 24 of the Local Audit and Accountability Act 2014;
- we make an application to the court for a declaration that an item of account is contrary to law under Section 28 of the Local Audit and Accountability Act 2014;
- we issue an advisory notice under Section 29 of the Local Audit and Accountability Act 2014; or
- we make an application for judicial review under Section 31 of the Local Audit and Accountability Act 2014.

We have nothing to report in these respects.

Responsibility of the Director of Finance

As explained more fully in the Statement of the Director of Finance's Responsibilities set out on page 22, the Director of Finance is responsible for the preparation of the Authority's Statement of Accounts, which includes the pension fund financial statements, in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2019/20, and for being satisfied that they give a true and fair view.

In preparing the financial statements, the Director of Finance is responsible for assessing the Pension Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Pension Fund either intends to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement

when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at <https://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

Use of our report

This report is made solely to the members of the London Borough of Bromley, as a body, in accordance with Part 5 of the Local Audit and Accountability Act 2014 and for no other purpose, as set out in paragraph 43 of the Statement of Responsibilities of Auditors and Audited Bodies published by Public Sector Audit Appointments Limited. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the London Borough of Bromley and London Borough of Bromley's members as a body, for our audit work, for this report, or for the opinions we have formed.

STATEMENT OF RESPONSIBILITIES FOR THE STATEMENT OF ACCOUNTS

The Authority's Responsibilities

The Authority is required:

- * to make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In this Authority, that officer is the Director of Finance.
- * to manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets.
- * to approve the Statement of Accounts.

The Director of Finance Responsibilities

The Director of Finance is responsible for the preparation of the Authority's Statement of Accounts and its Pension Fund accounts in accordance with proper practices as set out in the CIPFA/LASAAC Code of *Practice on Local Authority Accounting in the United Kingdom (the Code)*.

In preparing this Statement of Accounts, the Director of Finance has:

- * selected suitable accounting policies and then applied them consistently;
- * made judgments and estimates that were reasonable and prudent; and
- * complied with the local authority Code.

The Director of Finance has also:

- * kept proper accounting records which were up to date;
- * taken reasonable steps for the prevention and detection of fraud and other irregularities.

Director of Finance

I certify that the accounts set out on pages 23 to 141 give a true and fair view of the financial position of the Authority as at 31st March 2020 and of its income and expenditure for the year ended 31st March 2020.

Peter Turner
Director of Finance
2nd May 2023

EXPENDITURE AND FUNDING ANALYSIS

The Expenditure and Funding Analysis shows how annual expenditure is used and funded from resources (government grants, council tax and business rates) by local authorities in comparison with those resources consumed or earned by authorities in accordance with generally accepted accounting practices. It also shows how this expenditure is allocated for decision making purposes between the Council's Portfolios and Services. Income and expenditure accounted for under generally accepted accounting Comprehensive Income and Expenditure Statement. This is not a Primary Statement to the 2019/20 Statement of Accounts

COMPREHENSIVE INCOME AND EXPENDITURE STATEMENT

This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with statutory requirements and this may be different from the accounting cost. The taxation position is shown in both the Expenditure and Funding Analysis and the Movement in Reserves Statement.

It has been necessary to restate the previous year's figures as there have been correcting adjustments made to the valuation of non-current assets. Corresponding adjustments have also been made to the Comprehensive Income and Expenditure Statement, Expenditure and Funding Analysis and all supporting notes.

CASH FLOW STATEMENT

The Cash Flow Statement shows the changes in cash and cash equivalents of the Council during the reporting period. The statement shows how the Authority generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Authority are funded by way of taxation and grant income or from the recipients of services provided by the Authority. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Authority's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the Authority.

Notes to the Core Financial Statements

1 Statement of Accounting Policies

1 General Principles

The Statement of Accounts summarises the Council's transactions for the 2019/20 financial year and its position at the year-end of 31st March 2020. The Council is required to prepare an annual Statement of Accounts by the Accounts and Audit Regulations 2015 which those Regulations require to be prepared in accordance with proper accounting practices. It has been prepared in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2019/20 and is based on International Financial Reporting Standards. The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

The Statement of Accounts has been prepared with reference to:

- The objective of providing information about the financial position, performance and cash flows in a way that meets the common needs of most users.
- The objective of showing the results of the stewardship and accountability of elected members and management for the resources entrusted to them.

2 Accruals of Income and Expenditure

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Revenue from contracts with service recipients, whether for services or the provision of goods, is recognised when (or as) the goods or services are transferred to the service recipient in accordance with the performance obligations in the contract.
- Supplies are recorded as expenditure when they are consumed - where there is a gap between the date supplies are received and their consumption, they are carried as inventories on the Balance Sheet.
- Expenses in relation to services received (including those services provided by employees) are recorded as expenditure when services are received, rather than when payments are made.
- Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.
- Where income and expenditure has been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where it is doubtful that debts will be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected (see Note 19).
- Income and expenditure are credited and debited to the relevant service revenue account, unless they properly represent capital receipts or capital expenditure.

3 Cash and Cash Equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are investments that mature in three months or less from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value. As at 31st March 2020 there was a total of £34.8m of cash investments on the Balance Sheet in instant access AAA-rated Money Market Funds and other short-term accessible accounts, (£14.5m as at 31st March 2019).

In the Cash Flow statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Council's cash management.

4 Presentation of Items in Other Comprehensive Income & Expenditure

The requirements of IAS 1 require Authorities to separately group items that will be reclassified subsequently to the Surplus or Deficit on the Provision of Services when specific conditions are met and those items that will not be reclassified.

Notes to the Core Financial Statements

1 Statement of Accounting Policies continued

5 Prior Period Adjustments, Changes in Accounting Policies and Estimates and Errors

Prior period adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Council's financial position or financial performance. Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

6 Charges to Revenue for Non Current Assets

Services, support services and trading accounts are debited with the following amounts to record the cost of holding Property, Plant and Equipment during the year:

- depreciation attributable to the assets used by the relevant service
- revaluation and impairment losses used by the service where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off
- amortisation of intangible assets attributable to the service.

The Council is not required to raise council tax to fund depreciation, revaluation and impairment losses or amortisation. However, it is required to make an annual contribution from revenue (the Minimum Revenue Provision) to reduce its overall borrowing requirement (equal to an amount calculated on a prudent basis determined by the Council in accordance with statutory guidance). Depreciation, revaluation and impairment losses and amortisation are therefore replaced by the contribution in the General Fund Balance by way of an adjusting transaction with the Capital Adjustment Account and the Movement in Reserves Statement for the difference between the two.

7 Employee Benefits

Benefits Payable During Employment

Short-term benefits are those due to be wholly settled within twelve months of the year-end. They include wages and salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits (e.g. cars) for current employees and are recognised as an expense in the year in which employees render service to the Council. An accrual is made for the cost of holiday entitlements earned by employees but not taken before the year-end, which employees can carry forward into the next year. The accrual is made at the salary rates applicable in the following accounting year, being the period in which the employee takes the benefit. The accrual is charged to Surplus or Deficit on the Provision of Services, but then reversed out through the Movement in Reserves Statement so that holiday entitlements are charged to revenue in the financial year in which the holiday absence occurs.

Termination Benefits

Termination Benefits, payable as a result of a decision by the Council to terminate an officer's employment before the normal retirement date or of an officer's decision to accept voluntary redundancy, are charged on an accruals basis to the relevant service line in the Comprehensive Income and Expenditure Statement at the earlier of when the council can no longer withdraw the offer of those benefits or when the Council recognises costs for a restructuring.

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund balance to be charged with the amount payable by the Council to the Pension Fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for termination benefits related to pensions enhancements and replace them with debits for cash paid to the Pension Fund and pensioners and any such amounts payable but unpaid at the year-end.

Notes to the Core Financial Statements

1 *Statement of Accounting Policies continued*

7 *Employee Benefits continued*

Post Employment Benefits

Employees of the Council are members of three separate pension schemes:

- The Teachers' Pension Scheme, administered by the Teachers Pensions Agency on behalf of the Department for Education.
- The Local Government Pensions Scheme, administered by the Council itself under national regulations.
- The NHS Pension Scheme, administered by the Department for Health.

The schemes provide defined benefits to members (retirement lump sums and pensions), earned as employees work for the Council.

However, the arrangements for the teachers' and NHS schemes mean that liabilities for these benefits cannot be identified specifically to the Council. The schemes are accounted for as if they were defined contribution schemes and no liability for future payments of benefits is recognised in the Balance Sheet. Employer contributions payable to Teachers' Pensions and NHS Pensions in the year are charged to the relevant Service lines in the Comprehensive Income and Expenditure Statement.

Disclosures in relation to retirement benefits can be found in Note 44.

The Local Government Pension Scheme

The Local Government Scheme is accounted for as a defined benefits scheme. Employees who participate in the scheme earn benefits that will not actually be payable until retirement. However, the Council has a commitment to make these payments and the accounts have been prepared to reflect the cost of providing retirement benefits in the accounting period(s) in which they are earned. Related finance costs and any other changes in the values of assets and liabilities are recognised in the accounting periods in which they arise.

The accounts have been prepared on the basis of International Accounting Standard 19 (IAS 19) and on the advice of the Council's actuary, Mercer Limited, in accordance with Technical Accounting Standard R: Reporting Actuarial Information and Technical Accounting Standard D: Data, issued by the Institute and Faculty of Actuaries.

The liabilities of the Bromley pension scheme attributable to the Council are included in the Balance Sheet on an actuarial basis using the projected unit method - i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc., and projections of earnings for current employees.

Liabilities are discounted to their value at current prices, using a discount rate based on corporate bond yields (in Bromley's case, the discount rate was based on the yields of AA rated corporate bonds of currency and term appropriate to the currency and term of the Fund's liabilities). In 2019/20, this discount rate was 2.4% compared to 2.4% in 2018/19. The higher the discount rate, the lower the value placed on liabilities, although this will have had only a minor impact on the total movement in the overall Pension Reserve deficit during 2019/20 (an increase of £10m). Movements in the Pensions Reserve balance are explained in more detail in Note 44.

The assets of the Bromley Pension Fund attributable to the Council (all quoted or unitised securities) are included in the Balance Sheet at their fair value, which is the current bid price.

The change in the net pensions liability is analysed into the following components:

a) Service Cost comprising:

- current service cost (the increase in liabilities as a result of years of service earned in the current year) - allocated in the Comprehensive Income and Expenditure Statement to the services for which employees worked.
- past service cost (the increase in liabilities arising from a scheme amendment or curtailment whose effect relates to years of service earned in earlier years) - debited or credited as part of Non-Distributed Costs to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement.
- gains/losses on settlement (the result of actions to relieve the Council of liabilities for all or part of the employee benefits provided under the plan) - debited or credited as part of Non-Distributed Costs to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement.

Notes to the Core Financial Statements

1 Statement of Accounting Policies continued

7 Employee Benefits continued

b) Net interest cost:

- the expected increase in the present value of liabilities during the year as they move one year closer to being paid - debited to Net Operating Expenditure (Financing and Investment Income and Expenditure) in the Comprehensive Income and Expenditure Statement.

c) Remeasurements comprising:

- return on plan assets, excluding amounts included in net interest on the net defined benefit liability (asset) - charged to the Pension Fund Reserve as Other Comprehensive Income and Expenditure.
- actuarial gains/losses (changes in the net pensions liability that arise because events have not followed assumptions in the last actuarial valuation or because the actuary has changed his assumptions) - debited or credited to Other Comprehensive Income and Expenditure in the Comprehensive Income and Expenditure Statement.

d) Contributions paid to the Pension Fund (cash paid as employer contributions to the fund in settlement of liabilities not accounted for as an expense).

In relation to retirement benefits, statutory provisions require the General Fund to be charged with the amount payable by the Council to the Pension Fund or directly to pensioners in the year, not the amount calculated by the relevant accounting standards. In the Movement in Reserves Statement, this means that there are appropriations to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the Pension Fund and pensioners and any amounts payable to the fund but unpaid at the year-end. The negative balance on the Pensions Reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows and not as benefits are earned by employees.

Discretionary Benefits

The Council also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

8 Events After the Balance Sheet Date

Events after the reporting period are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the end of the reporting period - the Statement of Accounts is adjusted to reflect such events
- those that are indicative of conditions that arose after the reporting period - the Statement of Accounts is not adjusted to reflect such events, but, where a category of events would have a material effect, disclosure is made of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

9 Fair Value Measurement

The Council measures some of its non-financial assets such as surplus assets and investment properties and some of its financial instruments at fair value at each reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either:

a) in the principal market for the asset or liability, or
b) in the absence of a principal market, in the most advantageous market for the asset or liability.

The Council measures the fair value of an asset or liability using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

When measuring the fair value of a non-financial asset, the Council takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

Notes to the Core Financial Statements

1 Statement of Accounting Policies continued

9 Fair Value Measurement cont.

The Council uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Inputs to the valuation techniques in respect of assets and liabilities for which fair value is measured or disclosed in the authority's financial statements are categorised within the fair value hierarchy, as follows:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities that the Authority can access at the measurement date

Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 – unobservable inputs for the asset or liability.

10 Financial Liabilities

Financial liabilities are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and carried at amortised cost.

Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective rate of interest is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

For most of the borrowings that the Authority has, this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest); and interest charged to the Comprehensive Income and Expenditure Statement is the amount payable for the year according to the loan agreement.

In addition, the Council has identified a number of contractual arrangements that contain finance leases in respect of vehicles and plant. Details of these are provided in Note 40.

11 Financial Assets

Financial assets are classified based on a classification and measurement approach that reflects the business model for holding the financial assets and their cashflow characteristics. There are three main classes of financial assets measured at:

- amortised cost
- fair value through profit or loss (FVPL)
- fair value through other comprehensive income (FVOCI)

The Council's business model is to hold investments to collect contractual cash flows. Financial assets are therefore classified as amortised cost, except for those whose contractual payments are not solely payment of principal and interest (i.e. where the cash flows do not take the form of a basic debt instrument).

Full details are given in Note 17 to the Core Financial Statements.

Financial Assets Measured at Amortised Cost

Financial assets measured at amortised cost are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement (CIES) for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument.

For most of the financial assets held by the Council, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest) and interest credited to the CIES is the amount receivable for the year in the loan agreement.

However, the Council has made a number of loans to voluntary organisations at less than market rates (soft loans). When soft loans are made, a loss is recorded in the CIES (debited to the appropriate service) for the present value of the interest that will be foregone over the life of the instrument, resulting in a lower amortised cost than the outstanding principal.

Interest is credited to the Financing and Investment Income and Expenditure line in the CIES at a marginally higher effective rate of interest than the rate receivable from the voluntary organisations, with the difference serving to increase the amortised cost of the loan in the Balance Sheet. Statutory provisions require that the impact of soft loans on the General Fund Balance is the interest receivable for the financial year - the reconciliation of amounts debited and credited to the CIES to the net gain required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

Any gains and losses that arise on the derecognition of an asset are credited or debited to the Financing and Investment Income and Expenditure line in the CIES.

Notes to the Core Financial Statements

1 Statement of Accounting Policies continued

11 Financial Assets cont.

Expected Credit Loss Model

The Council recognises expected credit losses on all of its financial assets held at amortised cost, either on a 12-month or lifetime basis. The expected credit loss model also applies to lease receivables and contract assets. Only lifetime losses are recognised for trade receivables (debtors) held by the Council.

Impairment losses are calculated to reflect the expectation that the future cash flows might not take place because the borrower could default on their obligations. Credit risk plays a crucial part in assessing losses. Where risk has increased significantly since an instrument was initially recognised, losses are assessed on a lifetime basis. Where risk has not increased significantly or remains low, losses are assessed on the basis 12 month expected losses.

Financial Assets Measured at Fair Value through Profit of Loss

Financial assets that are measured at FVPL are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Fair value gains and losses are recognised as they arrive in the Surplus or Deficit on the Provision of Services.

The fair value measurements of the financial assets are based on the following techniques: ,

- Instruments with quoted market prices – the market price
- Other instruments with fixed and determinable payments – discounted cash flow analysis

The inputs to the measurement techniques are categorised in accordance with the following three levels:

Level 1 inputs - quoted prices (unadjusted) in active markets for identical assets that the Council can access at the measurement date.

Level 2 inputs – inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly.

Level 3 inputs – unobservable inputs for the asset

Any gains and losses that arise on the derecognition of the asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

Financial Assets measured at fair value through other comprehensive income (FVOCI)

Where the Council holds investments with the objective of collecting contractual cash flows and selling assets in order to meet long term investment requirements while ensuring the Council is not subject to a high degree of credit risk. These assets are measured at FVOCI. The Council currently does not have any assets at FVOCI.

12 Government Grants and Contributions

Whether paid on account, by instalments or in arrears, government grants and third party contributions and donations are recognised as due to the Council when there is reasonable assurance that:

- the Council will comply with the conditions attached to the payments, and
- the grants or contributions will be received.

Amounts recognised as due to the Council are not credited to the Comprehensive Income and Expenditure Statement until conditions attached to the grant or contribution have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset acquired using the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as creditors or receipts in advance. When conditions are satisfied, the grant or contribution is credited to the relevant service line or to Taxation and Non-Specific Grant Income (non-ring-fenced revenue grants and capital grants) in the Comprehensive Income and Expenditure Statement.

Notes to the Core Financial Statements

1 Statement of Accounting Policies continued

12 Government Grants and Contributions cont.

Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied Reserve. Where it has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied Reserve are transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.

13 Heritage Assets

Where an asset is primarily held for its contribution to knowledge and culture, rather than for any operational or service-related purpose, it is designated as a heritage asset.

Heritage Assets are recognised and measured in accordance with the Council's accounting policies on property, plant and equipment. However, some of the measurement rules are relaxed in relation to heritage assets as detailed below.

The Council has identified assets and valuations where possible, but, in some cases, it has not been possible to carry out or obtain valuations for a number of heritage assets. The Code permits non-disclosure of heritage assets in the financial statements where it would not be practicable to obtain a valuation for the assets at a cost that would be commensurate with the benefits to users of the financial statements. The Council has taken the view that it would not be practicable to obtain valuations of its war memorials and a number of other assets and they are not, therefore, recognised on the Balance Sheet. Further details are included in Note 48.

The Council's heritage assets included on the Balance Sheet mainly comprise civic regalia and Bromley Museum art collections and are shown in more detail in Note 48. The items have indeterminate lives and are not, therefore, depreciated. They are also valued infrequently, due to their relatively low value in relation to the Council's overall asset base and the high cost of valuing a diverse set of assets without comparative values.

The carrying amounts of heritage assets are reviewed where there is evidence of impairment and any impairment is recognised and measured in accordance with the Council's general policy on impairment (see accounting policy 18). The proceeds of any disposals are accounted for in accordance with the Council's general provisions relating to the disposal of property, plant and equipment and disposal proceeds are disclosed separately in the notes to the financial statements (see accounting policy 18).

14 Inventories

The Code states that Inventories should be included in the Balance Sheet at the lower of cost and net realisable value. The Council values Inventories at latest cost, but this has no material effect on the accounts.

15 Investment properties

Investment properties are those that are held solely to earn rentals and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.

Investment properties are measured initially at cost and subsequently at fair value, based on the amount for which the asset could be exchanged between knowledgeable parties at arms-length. Investment properties are not depreciated but properties of material value are revalued annually. Net gains and losses on revaluation and on disposal are posted to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. Revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund Balance and they are, therefore, reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.

Rentals received in relation to investment properties are credited to Financing and Investment Income and result in gains for the General Fund Balance.

Notes to the Core Financial Statements

1 Statement of Accounting Policies continued

16 Leases

Leases are classified as finance leases where the terms of the lease transfer substantially from the lessor to the lessee all the risks and rewards incidental to ownership of the property, plant or equipment. All other leases are classified as operating leases.

Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification.

Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

The Authority as Lessee

Finance Leases

Property, plant and equipment held under finance leases is recognised on the Balance Sheet at the commencement of the lease at its fair value measured at the lease's inception (or the present value of the minimum lease payments, if lower). The asset recognised is matched by a liability for the obligation to pay the lessor. Initial direct costs of the Council are added to the carrying amount of the asset. Premiums paid on entry into a lease are applied to writing down the lease liability. Contingent rents are charged as expenses in the years in which they are incurred.

Lease payments are apportioned between:

- a charge for the acquisition of the interest in the property, plant or equipment - applied to write down the lease liability, and
- a finance charge (debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement)

Property, Plant and Equipment recognised under finance leases is accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life (where ownership of the asset does not transfer to the Council at the end of the lease period).

The Council is not required to raise council tax to cover depreciation or revaluation and impairment losses arising on leased assets. Instead, a prudent annual contribution is made from revenue funds towards the deemed capital investment in accordance with statutory requirements. Depreciation and revaluation and impairment losses are therefore substituted by a revenue contribution in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

Operating Leases

Rentals paid under operating leases are charged to the Comprehensive Income & Expenditure Statement as an expense of the services benefitting from the use of the leased property, plant or equipment. Charges are made on a straight line basis over the life of the lease, even if this does not match the pattern of payments (e.g. there is a rent-free period at the commencement of the lease).

The Council as Lessor

Finance Leases

As at 31st March 2020, the Council holds no finance leases as lessor.

Operating Leases

Where the Council grants an operating lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet. Rental income is credited to Other Operating Expenditure in the Comprehensive Income and Expenditure Statement. Credits are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (e.g. there is a premium paid at the commencement of the lease). Initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the relevant asset and charged as an expense over the lease term on the same basis as rental income.

Notes to the Core Financial Statements

1 Statement of Accounting Policies continued

17 Overheads and Support Services

The costs of overheads and support services are charged to those that benefit from the supply or service in accordance with the costing principles of the CIPFA Service Reporting Code of Practice 2019/20 (SeRCOP). The total absorption costing principle is used - the full cost of overheads and support services are shared between users in proportion to the benefits received, with the exception of:

- Corporate and Democratic Core - costs relating to the Council's status as a multi-functional, democratic organisation.
- Non Distributed Costs - the cost of discretionary benefits awarded to employees retiring early and impairment losses chargeable on Assets Held for Sale.

These two cost categories are defined in SeRCOP and accounted for as separate headings in the Comprehensive Income and Expenditure Statement, as part of the Cost of Services.

18 Property, Plant and Equipment

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and that are expected to be used during more than one financial year, are classified as Property, Plant and Equipment.

Recognition

Expenditure on the acquisition, creation or enhancement of Property, Plant and Equipment is capitalised on an accruals basis in the accounts, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the Council and the cost of the item can be measured reliably. Expenditure that maintains but does not add to an asset's potential to deliver future economic benefits or service potential (i.e. repairs and maintenance) is charged to the Comprehensive Income and Expenditure Statement when it is incurred.

Measurement

The freehold and leasehold properties that comprise the Council's property portfolio are revalued on the basis required by the Code (i.e. at least every five years) and in accordance with the Statements of Asset Valuation Principles and Guidance Notes issued by The Royal Institution of Chartered Surveyors (RICS). Further revaluations are also carried out where there are known to have been material changes. The most recent set of re-valuations were carried out as at 31st March 2020 under the responsibility of Michael Watkins BSc MRICS, Assistant Director, Strategic Property.

Assets are initially measured at cost, comprising:

- the purchase price
- any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management
- the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located

The cost of assets acquired other than by purchase is deemed to be at fair value, unless the acquisition does not have commercial substance (i.e. it will not lead to a variation in the cash flows of the Council). In the latter case, where an asset is acquired via an exchange, the cost of the acquisition is the carrying amount of the asset given up by the Council.

Assets are then carried in the Balance Sheet using the following measurement bases:

- infrastructure, community assets and assets under construction - depreciated historical cost
- all other assets - current value, determined as the amount that would be paid for the asset in its existing use (existing use value - EUV).

Notes to the Core Financial Statements

1 Statement of Accounting Policies continued

18 Property, Plant and Equipment continued

Where non-property assets have short useful lives or low values (or both), depreciated historical cost basis is used as a proxy for fair value.

Where there is no market-based evidence of fair value because of the specialist nature of the asset, depreciated replacement cost (DRC) is used as an estimate of fair value.

Assets included in the Balance Sheet at fair value are revalued sufficiently regularly to ensure that their carrying amount is not materially different from their fair value at the year-end, but as a minimum every five years. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains.

Where decreases in value are identified, they are accounted for by:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains).
- where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Impairment

Assets are assessed at each year-end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for by:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains).
- where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

Where an impairment loss is subsequently reversed, the reversal is credited to the relevant service line(s) in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

Depreciation

Depreciation is provided for on all Property, Plant and Equipment assets by the systematic allocation of their depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life (i.e. freehold land and certain Community Assets) and assets that are not yet available for use (i.e. assets under construction).

Depreciation is calculated on the following basis:

- depreciation is charged on all Property, Plant and Equipment on a straight-line basis over the remaining useful life of the assets as estimated by the valuer;
- depreciation is not charged on freehold land and investment properties;
- newly acquired assets are depreciated from the mid-point of the year, although assets under construction are not depreciated until they are brought into use.

Notes to the Core Financial Statements

1 Statement of Accounting Policies continued

18 Property, Plant and Equipment continued

Where an item of Property, Plant and Equipment has major components whose cost is significant in relation to the total cost of the item, the components are depreciated separately.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on the historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

Disposals

When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continuing use and when that sale is likely to be completed within one year of the Balance Sheet date, it is reclassified as an Asset held for Sale.

The asset is revalued immediately before reclassification and then carried at the lower of this amount and fair value less costs to sell. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Gains in fair value are recognised in the Surplus or Deficit on Provision of Services up to the amount of any previously recognised losses. Depreciation is not charged on Assets Held for Sale.

If assets no longer meet the criteria to be classified as Assets Held for Sale, they are reclassified back to non-current assets (Property, Plant & Equipment) and valued at the lower of their carrying amount before they were classified as held for sale; adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been classified as Held for Sale, and their recoverable amount at the date of the decision not to sell.

Assets that are to be abandoned or scrapped are not reclassified as Assets Held for Sale. When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals (if any) are credited to the same line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any valuation gains accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Amounts received for disposals in excess of £10,000 are categorised as capital receipts. A proportion of housing capital receipts (75% of the proportion of Council House sales received every three years from Broomleigh Housing Association) is payable to the Government.

A capital receipt received on the sale of an asset is required to be credited to the Usable Capital Receipts Reserve, and can then only be used for new capital investment or set aside to reduce the Council's underlying need to borrow (the Capital Financing Requirement). Receipts are appropriated to the Reserve from the General Fund Balance in the Movement in Reserves Statement.

The written-off value of disposals is not a charge against council tax, as the cost of Property, Plant and Equipment is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

Assets held for sale that are expected to be sold within 1 year are shown on the Balance Sheet as Current Assets. Assets expected to be sold more than 1 year after the Balance Sheet date are shown as Surplus Assets under Property, Plant and Equipment.

Notes to the Core Financial Statements

1 Statement of Accounting Policies continued

19 Private Finance Initiative and Similar Contracts

PFI and similar contracts are agreements to receive services, where the responsibility for making available the property, plant and equipment needed to provide services passes to the PFI contractor. As the Council is deemed to control the services that are provided under such schemes and as the ownership of the property, plant and equipment will pass to the Council at the end of the contracts for no additional charge, the Council carries the assets used under the contracts on its Balance Sheet as part of Property, Plant and Equipment.

The Council has not entered into any PFI schemes but it has entered into service concession arrangements, which grants to another company or organisation the right to provide services on behalf of the Council, using infrastructure assets owned by the Council or the contractor. Further details of this are provided in Note 41.

The original recognition of these assets at fair value (based on the cost to purchase the property, plant and equipment) is balanced by the recognition of a liability for amounts due to the scheme operator to pay for the capital investment.

Non current assets recognised on the Balance Sheet are revalued and depreciated in the same way as property, plant and equipment owned by the Council.

20 Provisions

Provisions are made where an event has taken place that gives the Council a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation.

Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement in the year that the Council becomes aware of the obligation, and are measured at the best estimate at the balance sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year – where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service. Where some or all of the payment required to settle a provision is expected to be recovered from another party (e.g. from an insurance claim), this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received if the Council settles the obligation.

Details of all provisions are set out in Note 25.

21 Contingent Liabilities

A contingent liability arises where an event has taken place that gives the Council a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the Balance Sheet but disclosed in a note to the accounts.

22 Contingent Assets

A contingent asset arises where an event has taken place that gives the Council a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council.

Contingent assets are not recognised in the Balance Sheet but disclosed in a note to the accounts (Note 46) where it is probable that there will be an inflow of economic benefits or service potential.

Notes to the Core Financial Statements

1 Statement of Accounting Policies continued

23 Reserves

The Council has set aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year against the Surplus/Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against council tax for the expenditure.

Certain reserves are kept to manage the accounting processes for non-current assets, financial instruments, retirement and employee benefits and do not represent usable resources for the Council. These reserves are explained in the relevant policies.

Details of Bromley's revenue reserves are set out in the Movement in Reserves Statement and in Note 9.

Reserves are reported in two categories - Usable and Unusable.

Usable Reserves

Those reserves that the Council may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use (for example the Capital Receipts Reserve may only be used to fund capital expenditure or repay debt).

Unusable Reserves

Those reserves that the Council is not able to use to provide services. This category of reserves includes those that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets were sold; and the reserves that hold timing differences shown in the Movement in Reserves Statement line 'Adjustments between accounting basis and funding basis under regulations'.

24 Revenue Expenditure Funded from Capital under Statute

Expenditure incurred during the year that may be capitalised under statutory provisions but that does not result in the creation of a non-current asset has been charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. Where the Council has determined to meet the cost of this expenditure from existing capital resources or by borrowing (the former in Bromley's case), a transfer in the Movement in Reserves Statement from the General Fund Balance to the Capital Adjustment Account then reverses out the amounts charged so that there is no impact on the level of council tax.

25 Value Added Tax

VAT payable is included as an expense only to the extent that it is not recoverable from Her Majesty's Revenue and Customs. VAT receivable is excluded from income.

26 Council Tax and Non-Domestic Rates

Billing authorities act as agents, collecting council tax and non-domestic rates (NDR) on behalf of the major preceptors (including government for NDR) and, as principals, collecting council tax and NDR for themselves. Billing authorities are required by statute to maintain a separate fund (i.e. the Collection Fund) for the collection and distribution of amounts due in respect of council tax and NDR. Under the legislative framework for the Collection Fund, other authorities, major preceptors and central government share proportionately the risks and rewards that the amount of council tax and NDR collected could be less or more than predicted.

Notes to the Core Financial Statements

1 Statement of Accounting Policies continued

27 Accounting for Council Tax and NDR

The council tax and NDR income included in the Comprehensive Income and Expenditure Statement is the Council's share of accrued income for the year. However, regulations determine the amount of council tax and NDR that must be included in the Council's General Fund. Therefore, the difference between the income included in the Comprehensive Income and Expenditure Statement and the amount required by regulation to be credited to the General Fund is taken to the Collection Fund Adjustment Account and included as a reconciling item in the Movement in Reserves Statement.

The Balance Sheet includes the Council's share of the end of year balances in respect of council tax and NDR relating to arrears, impairment allowances for doubtful debts, overpayments and prepayments and appeals.

28 Local Authority Schools

The Code of Practice on Local Authority Accounting in the United Kingdom confirms that the balance of control for local authority maintained schools lies with the local authority. The code also stipulates that those schools' assets, liabilities, reserves and cash flows are recognised in the local authority financial statements. Therefore the transactions, cash flows and balances of 7 local authority controlled schools are recognised in each of the financial statements of the authority as if they were transactions, cash flows and balances of the authority.

29 Interest in Companies and Other Entities

The Council has an interest in a jointly controlled entity. An assessment of the nature and financial modelling of this arrangement is undertaken annually. The financial relationship does not result in material adjustment between single entity and group accounts. The Council has concluded that the transactions are not material and that the preparation of group accounts is therefore not required.

30 Revenue from Contracts with Customers

The adopted standard is IFRS 15 (Revenue from Contracts with Customers). This standard requires authorities to recognise only the revenue it expects to receive and only when all outstanding performance obligations associated with the income has been satisfied. In reality it is not expected that this will change when and how income is recognised; however, it does come with increased disclosures in the Financial Statements. The Council has determined that IFRS 15 does not have any material impact on the accounts.

31 Going Concern Basis continued

The Statement of Accounts has been prepared on a 'Going Concern' basis. This assumption implicitly underpins local authority accounts which are drawn up in accordance with the Code of Practice on Local Authority Accounting, published by CIPFA. This reflects the economic and statutory environment in which local authorities operate.

The Covid-19 global pandemic, which led to a UK wide lockdown starting on 23 March 2020, has placed local government at the forefront of the national response, creating significant issues for many residents and businesses. The financial and social outcomes of this are not yet fully understood, however, it is anticipated that the condition will exist for the short to medium future and a substantial financial impact is expected to materialise during 2020/21. Although it is not possible to accurately predict the financial impact, an initial estimate of the total net cost including income losses is expected to significantly exceed the current level of Government funding provided of £16.6m (as at May 2020). The main element of financial loss relates to income reductions ranging from car parking to collection of council tax and business rates. Without any further funding there would be significant costs that would need to be met by the Council and alternative funding would need to be identified.

Notes to the Core Financial Statements

1 Statement of Accounting Policies continued

31 Going Concern Basis continued

In light of the financial challenges presented by Covid-19, the Council considers that by maintaining a sustainable and prudent approach to financial management it is well-placed to offset and mitigate both current and emerging risks. In support of this, it is noted that:

- The Council is debt free and its balances remain healthy. A prudent and sustainable approach to financial management has meant that the General Fund (monies set aside to enhance financial resilience, offset the effect of adverse events and address the structural budget deficit) has been maintained at a minimum level of £20m (set by the Council's Director of Finance) since 31st March 2013. Earmarked Reserves, which currently exceed £100m, serve a similar purpose, mainly being amounts set aside to meet known or predicted liabilities.
- The Council's balance sheet as at 31st March 2020 shows a net worth of £669.5m and this is significantly reduced by the inclusion of a pension liability of £92m. There are statutory arrangements for funding the pension deficit through increasing contributions over the remaining working life of the employees, as assessed by an independent actuary; based on the most recent triennial valuation the fund was 115% funded.
- The Council's medium term financial strategy (MTFS) will be revisited in light of the Covid-19 pandemic. □ An update on the Council's finances, along with an analysis of the financial impact on the Council of Covid-19 will be provided to Members during the year. A new medium term financial strategy will then be submitted to Executive for approval in January 2021, alongside the budget for 2021/22.
- The Council is subject to a statutory framework governing its service provision, its duties & responsibilities, and its financial framework. This includes the statutory posts of the Head Paid of Service (Chief Executive), Section 151 Officer (Director of Finance) and Monitoring Officer (Director of Corporate Services). Despite the Council's funding gap and structural budget deficit, it has continued to meet the legal requirement of setting a balanced budget combined with the additional requirement of having regard to consideration of such matters as the robustness of budget estimates and the adequacy of reserves.
- The Council has a well-established and robust corporate governance framework to ensure compliance with laws and regulations. This coupled with political stability has provided a strong control environment at the operational and strategic level in the Council, enabling sound and balanced decision-making recognising the importance of financial prudence and sustainability.
- As part of the necessary review of the Council's forecasts and projections, particularly in light of the Covid-19 pandemic, and in order to confirm the appropriateness of continuing to adopt the going concern basis in preparing its consolidated financial statements, Officers have assessed the strength of the Council's asset position and liquidity and this has been shared with Members to ensure that they are kept informed and can perform their oversight role. Members have reviewed the analysis and estimates (of additional expenditure and lost income) in light of Covid-19; this is considered alongside the balances that the Council holds, the MTFS and Covid-19 related grant funding.
- The Council has undertaken an assessment of the impact of Covid-19 and do not believe there is a material uncertainty relating to the Council's ability to be a going concern. Therefore, it is appropriate to prepare the financial statements as a going concern and state that the Council will be a going concern 12 months from the date of approval of the financial statements.

Notes to the Core Financial Statements

2 Accounting Standards that have been Issued but have not yet been Adopted

The Code requires the disclosure of information relating to the impact of an accounting change that will be required by a new accounting standard, but one which has not yet been implemented. At the balance sheet date, the following new standards and amendments to existing standards have been published, but not yet adopted by the Code.

i) Standards IAS 28 Investment in Associates and Joint Ventures - Long Term Interests in Associates and Joint Ventures:

Clarification that IFRS 9 Financial Instruments applies to an entity's long-term interests in an associate or joint venture to which the equity method is not applied but that form part of the entity's net investment in the investee. Such long-term interests would typically comprise long-term loans for which settlement is neither planned nor likely to occur in the foreseeable future. These interests will need to be considered under IFRS 9, particularly its impairment requirements.

ii) IFRS 16 Leases will require local authorities that are lessees to recognise most leases on their balance sheets as right-of-use assets with corresponding lease liabilities (there is recognition for low-value and short-term leases). CIPFA/LASAAC have deferred implementation of IFRS 16 for Local Government to 1st April 2024.

iii) IAS 19 Employee Benefits will require the remeasurement of net pension asset/liability following plan amendments, curtailments or settlements to be used to determine current service cost and net interest for the remainder of the year after the change to the plan. The updating of these assumptions only applies to changes from 1st April 2020 and, since this could result in positive, negative or no movement in the net pension liability, no prediction can be made of the possible accounting impact.

iv) Annual Improvements to IFRS Standards 2015-2017 Cycle contains amendments to the following three Standards:

IFRS 3 Business Combinations and IFRS 11 Joint Arrangements - Previously Held Interest in a Joint Operation - Clarification of how an entity is to account for an increase in its interest in a joint operation that is a business.

IAS 12 Income Taxes - Income Tax Consequences of Payments on Financial Instruments Classified as Equity - Clarification that the requirements to recognise the income tax consequences of dividends where the transactions or events that generated distributable profits are recognised apply to all income tax consequences of dividends, not just situations where there are different tax rates for distributed and undistributed profits. This is likely only to be relevant where there are group members operating in territories that have differential tax rates.

IAS 23 Borrowing Costs - Borrowing Costs Eligible for Capitalisation - Clarification that if any specific borrowing remains outstanding after the related asset is ready for its intended use or sale, it becomes part of the funds that an entity borrows generally, it will be taken into account in calculating the borrowing costs for other assets for which funds are not borrowed specifically. This is only relevant where the authority or a group member has a policy of capitalising borrowing costs and mixes specific and general borrowing approaches.

None of the above amendments are expected to have a material impact on the information in the Financial Statements 2019/20.

3 Critical Judgements in Applying Accounting Policies

In applying the accounting policies set out in note 1, the Authority has had to make certain judgements about complex transactions or those involving uncertainty about future events.

The critical judgements made in the Statement of Accounts are:

- a) There is a high degree of uncertainty about future levels of funding for local government. However, the Authority has determined that this uncertainty is not yet sufficient to provide an indication that the assets of the Authority might be impaired as a result of a need to close facilities or reduce levels of service provision.

3 Critical Judgements in Applying Accounting Policies continued

- b) A review in 2010/11 of significant contractual arrangements identified finance leases embedded within some of those contracts. This resulted in some Vehicles and Plant being brought on Balance Sheet from 1st April 2009 (restated in the 2010/11 financial statements). The most significant of these was on the contract for Refuse Collection, which was identified as a Service Concession. The vehicles used by the contractor were included on the Balance Sheet under Property, Plant and Equipment. A new contract began in April 2019 and the value of these finance leases at 31st March 2020 was £9,577k.
- c) In October 2008, the Icelandic banks Landsbanki, Kaupthing and Glitnir collapsed and the UK subsidiaries of the banks, Heritable and Kaupthing Singer and Friedlander, went into administration. The authority had £5m deposited with Heritable at the time, which had been placed for two years on 28th June 2007 at a rate of 6.42%. Heritable Bank is a UK registered bank under English law and was placed in administration on 7th October 2008. As at 31st March 2018, a total of £4,985k had been received from the administrator (98% of the Council's total claim of £5,087k). In accordance with CIPFA advice, impairment losses have previously been made in the accounts and, as estimates of recovery have improved, part-reversals of those impairment losses have been made, including £199k in 2015/16. This reduced the balance of the provision for potential loss to £102k (2% of the Council's total claim).
- d) Group boundaries have been estimated using the criteria set out in the CIPFA Code of Practice. The Council has identified one jointly controlled entity and consideration has been given as to whether the arrangement falls within the group boundary. The Council has determined that the level of retained profit is not quantitatively material for group accounts to be required. The Council's jointly controlled entities are reviewed on an annual basis including other arrangements which may, when combined, become material in aggregate.
- e) Highways infrastructure assets
Highways infrastructure assets include carriageways, footways and cycle tracks, structures (e.g. bridges), street lighting, street furniture (e.g. illuminated traffic signals, bollards), traffic management systems and land which together form a single integrated network.

Recognition

Expenditure on the acquisition or replacement of components of the network is capitalised on an accrual basis, provided that it is probable that the future economic benefits associated with the item will flow to the authority and the cost of the item can be measured reliably.

Measurement

Highways infrastructure assets are generally measured at depreciated historical cost. However, this is a modified form of historical cost – opening balances for highways infrastructure assets were originally recorded in balance sheets at amounts of capital undischarged for sums borrowed as at 1 April 1994, which was deemed at that time to be historical cost.

Where impairment losses are identified, they are accounted for by the carrying amount of the asset being written down to the recoverable amount.

Depreciation

Depreciation is provided on the parts of the highways network infrastructure assets that are subject to deterioration or depletion and by the systematic allocation of their depreciable amounts over their useful lives. Depreciation is charged on a straight-line basis with six months' depreciation for the first year.

Annual depreciation is the depreciation amount allocated each year.

Useful lives of the various parts of the highways network are assessed by the Assistant Director of Highways using industry standards where applicable as follows:

Part of the highways network	Useful life
CCTV/Red light cameras	15 years
Street lighting	30 years
Sewers	40 years
Bridges/Structural maintenance	40 years
Roads: new build/ improvements	40 years
Private street works	40 years
High street pedestrianisation	40 years

Disposals and derecognition

When a component of the network is disposed of or decommissioned, the carrying amount of the component in the Balance Sheet is written off to the 'Other operating expenditure' line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals (if any) are credited to the same line in the Comprehensive Income and Expenditure Statement, also as part of the gain or loss on disposal (ie netted off against the carrying value of the asset at the time of disposal).

The written-off amounts of disposals are not a charge against council tax, as the cost of non-current assets is fully provided for under separate arrangements for capital financing. Amounts are transferred to the capital adjustment account from the General Fund Balance in the Movement in Reserves Statement.

4 Assumptions Made About the Future and Other Major Sources of Estimation Uncertainty

The Statement of Accounts contains estimated figures that are based on assumptions made by the Authority about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be different from the assumptions and estimates.

The items in the Authority's Balance Sheet at 31st March 2020 for which there is a risk of adjustment in the forthcoming financial year are as follows:

Property, Plant and Equipment

Uncertainties

Assets are depreciated over useful lives that are dependent on assumptions about the level of repairs and maintenance that will be incurred in relation to individual assets. The current economic climate makes it uncertain that the Authority will be able to sustain its current spending on repairs and maintenance, bringing into doubt the useful lives assigned to the asset. In any event, useful lives are reviewed regularly.

The outbreak of the Novel Coronavirus (COVID-19), has impacted global financial markets. Travel restrictions have been implemented by many countries and market activity is being impacted in many sectors. As at the valuation date, less weight can be attached to previous market evidence for comparison purposes, to inform opinions of value. The current response to COVID-19 means that there is an unprecedented set of circumstances on which to base a judgement. The valuations are therefore reported on the basis of 'material valuation uncertainty' per the RICS Red Book Global. Consequently, less certainty, and a higher degree of caution, should be attached to the valuations than would normally be the case.

Effect if Actual Results Differ

If the useful life of the assets is reduced, depreciation increases and the carrying amount of the asset falls.

A reduction in the estimated valuations would result in reductions to the Revaluation Reserve and/or a loss recorded as appropriate in the Comprehensive Income and Expenditure Statement. An increase in the estimated valuations would result in increases to the Revaluation Reserve and/or reversals of previous negative revaluations to the Comprehensive Income and Expenditure Statement and/or gains being recorded as appropriate in the Comprehensive Income and Expenditure Statement.

Notes to the Core Financial Statements

4 Assumptions Made About the Future and Other Major Sources of Estimation Uncertainty (cont)

Business Rates

Following the introduction on 1st April 2013 of the Business Rates Retention scheme, Local Authorities are liable for their proportionate share of successful appeals against business rates charged to businesses in 2012/13 and earlier financial years. A provision based on the best available information including Valuation Office (VOA) ratings list of appeals has been recognised for this liability.

Pensions Liability

Uncertainties

Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the Authority with expert advice about the assumptions to be applied.

Effect if Actual Results Differ

The effects on the net pensions liability of changes in individual assumptions can be significant. For instance, In 2013/14, the net liability fell by some £120m (from £260m to £140m). This was mainly due to positive experience since the 2010 valuation. Other positive factors included favourable investment returns during the year and improved market conditions, which reduced the value placed on the liabilities. In 2014/15, the net liability rose slightly from £140m to £148m, mainly due to interest on liabilities being higher than interest on assets, and in 2015/16 and 2016/17, the net liability reduced slightly to £145m and £143m respectively, mainly due to remeasurement gains on liabilities being higher than the losses on assets.

In 2017/18, the net liability reduced by £75m, to £68m, mainly due to the net investment return of 9.6% being significantly higher than the actuary's assumption of 2.7%.

In 2018/19, the net liability increased by £15m, to £83m, mainly due to the impact of the McCloud judgement on past service costs and interest on liabilities being higher than interest on assets.

In 2019/20 the net liability increased by £8m to £93m, mainly due to the the fair value of plan assets not increasing to the same extent as the defined benefit obligation.

The impact in future years will be assessed by the Council's actuary in subsequent IAS 19 reports.

Arrears

Uncertainties

At 31st March 2020, the Authority had a balance of sundry debtors of £11,184k. A review of the category, age and status of these debts suggested that an impairment of doubtful debts of 16% (£1,807k) was appropriate. The economic impact of the Covid-19 pandemic has made the estimation of debt impairment more difficult as there is more uncertainty about the economic viability of debtors and hence their ability to settle their debts.

Effect if Actual Results Differ

If collection rates were to deteriorate, the impairment of doubtful debts would need to increase resulting in an additional sum being set aside as an allowance.

Fair Value Measurements

Uncertainties

When the fair values of financial assets and financial liabilities cannot be measured based on quoted prices in active markets (i.e. Level 1 inputs), their fair value is measured using valuation techniques. Where possible, the inputs to these valuation techniques are based on observable data, but where this is not possible judgement is required in establishing fair values. These judgements typically include considerations such as uncertainty and risk. However, changes in the assumptions used could affect the fair value of the authority's assets and liabilities.

Where Level 1 inputs are not available, the Authority employs relevant experts to identify the most appropriate valuation techniques to determine fair value.

Notes to the Core Financial Statements

4 Assumptions Made About the Future and Other Major Sources of Estimation Uncertainty (cont)

Effect if Actual Results Differ

The Authority uses the discounted cash flow (DCF) model to measure the fair value of some of its investment properties and financial assets. The significant unobservable inputs used in the fair value measurement include management assumptions regarding rent growth, vacancy levels (for investment properties) and discount rates – adjusted for regional factors (investment properties). Significant changes in any of the unobservable inputs would result in a significantly lower or higher fair value measurement for the investment properties and other financial assets.

Britain Leaving the European Union

There is still uncertainty about the implications of Britain's departure from the European Union. At the current time it is not possible to predict the agreement that will be reached at the end of the transition period. The assumption has been made that this will not significantly impair the value of the council's assets. However, this assumption will be revisited and reviewed regularly.

5 Exceptional Items

There are no exceptional items to be reported for the 2019/20 financial year.

6 Events after the Balance Sheet Date

The Statement of Accounts was authorised for issue by the Director of Finance on 2nd May 2023. The existence of events after the Balance Sheet date has been considered up to this date and there are none to disclose. Events taking place after this date are not reflected in the financial statements or notes.

Notes to the Core Financial Statements

6A Prior Period Adjustment

(i) Background

The Code of Practice on Local Authority Accounting requires that the Authority must restate material prior period errors. The value of the Authority's fixed assets represent a significant value in the balance. The Code's adoption of IFRS 16 requires that the carrying amount of non-current assets in Local Authority balance sheets are materially accurate at 31st March. The Code requires that when an Authority corrects for a prior period error, it should also present an additional balance sheet at the beginning of the preceding period. An error was identified in respect of the accounting treatment of Furniture and Equipment which meant the Council was unable to verify the existence of the Furniture and Equipment balance as at 31 March 2020. To correct the error the Council also needed to write out balances for Furniture and Equipment as at 31 March 2018 and 2019. The total balances written out as 01 April 2018; 31 March 2019 and 31 March 2020 respectively were: £9.625 million; £9.643 million; and £8.772 million.

Another error was identified in respect of the incorrect treatment of depreciation on revalued assets. To correct the error depreciation was added to revalued assets in 2018/19 and also 2019/20. The correcting entries for these adjustments in 2018/19 and 2019/20 respectively were: £4.298 million and £4.396 million.

The following table provides a summary of the required adjustments.

Notes to the Core Financial Statements

6A Prior Period Adjustment continued

(ii) Summary of Changes

A summary of changes to the 2018/19 Comprehensive Income and Expenditure Statement is shown below:

	CI&E Statement 2018/19 Net Published £000	Adjustments £000	CI&E Statement 2018/19 Net Restated £000
Adult Care and Health	67,826	80	67,906
Education, Children & Families	59,513	1,421	60,934
Environment and Community	34,354	304	34,658
Public Protection & Enforcement	3,010	-	3,010
Renewal, Recreation and Housing	26,745	607	27,352
Resources, Commissioning and Contracts Management	30,434	100	30,534
Cost of Services	221,882	2,512	224,394
Other Operating Expenditure	(5,196)	-	(5,196)
Financing and Investment Income and Expenditure	(4,685)	-	(4,685)
Taxation and Non-Specific Grant Income	(216,282)	-	(216,282)
(Surplus) / Deficit on Provision of Services	(4,281)	2,512	(1,769)
(Surplus) / Deficit on Revaluation of Property, Plant & Equipment Assets	(4,699)	(1,593)	(6,292)
Impairment Losses on Non-Current Assets	4,770	(901)	3,869
	-	-	-
(Surplus) / Deficit on Revaluation of Available for Sale Financial Assets	652	-	652
Remeasurements of the Net Defined Benefit Liability	723	(2,494)	(1,771)
Other Comprehensive Income and Expenditure	723	(2,494)	(1,771)
Total Comprehensive Income and Expenditure	(3,558)	18	(3,540)

Notes to the Core Financial Statements

7A Note to the Expenditure and Funding Analysis continued

Adjustments for Capital Purposes

- (i) Adjustments for capital purposes - this column adds in depreciation and impairment and revaluation gains and losses in the services line, and for:
 - i) **Other operating expenditure** – adjusts for capital disposals with a transfer of income on disposal of assets and the amounts written off for those assets.
 - ii) **Financing and investment income and expenditure** - the statutory charges for capital financing i.e. Minimum Revenue Provision and other revenue contributions are deducted from other income and expenditure as these are not chargeable under generally accepted accounting practices.
 - iii) **Taxation and Non Specific Grant Income and Expenditure** – Capital grants are adjusted for income not chargeable under generally accepted accounting practices. Revenue grants are adjusted from those receivable in the year to those receivable without conditions or for which conditions were satisfied throughout the year. The Taxation and Non Specific Grant Income and expenditure line is credited with capital grants receivable in the year without conditions or for which conditions were satisfied in the year.

Net change for the Pensions Adjustments

- (ii) Net change for the removal of pension contributions and the addition of IAS 19 Employee Benefits pensions related expenditure and income:
 - i) **For services** this represents the removal of the employer pension contributions made by the authority as allowed by statute and the replacement with current service costs and past service costs.
 - ii) **For Financing and investment income and expenditure** - the net interest on the defined benefit liability is charged to the Comprehensive Income and Expenditure Statement.

Other Statutory Adjustments

- (iii) Other statutory adjustments between amounts debited/credited to the Comprehensive Income and Expenditure Statement and amounts payable/receivable to be recognised under statute:
 - i) **For Financing and investment income and expenditure** the other statutory adjustments column recognises adjustments to the General Fund for the timing differences for premiums and discounts.
 - ii) The charge under **Taxation and non-specific grant income and expenditure** represents the difference between what is chargeable under statutory regulations for Council Tax and NDR that was projected to be received at the start of the year and the income recognised under generally accepted accounting practices in the Code. This is a timing difference as any difference will be brought forward in future Surpluses or Deficits on the Collection Fund.

Other Non-Statutory Adjustments

- (iv) Other Non-Statutory Adjustments represent amounts debited/credited to service segments which need to be adjusted against the 'Other income and expenditure from the Expenditure and Funding Analysis' line to comply with the presentational requirements in the Comprehensive Income and Expenditure Statement.
 - i) **For Financing and investment income and expenditure** the other non-statutory adjustments column recognises adjustments to service segments, e.g. for interest income and expenditure and changes in the fair values of investment properties.
 - ii) For **Taxation and non-specific grant income and expenditure** the other non-statutory adjustments column recognises adjustments to service segments, e.g. for unringfences government grants.

Notes to the Core Financial Statements

7B Segmental Income

Income received on a segmental basis is analysed below:

Services	2018/19	2019/20
	Income from Services	Income from Services
	£000	£000
Adult Care and Health	(41,456)	(45,260)
Education, Children & Families	(8,520)	(9,893)
Environment and Community	(20,532)	(22,710)
Public Protection & Enforcement	(765)	(887)
Renewal, Recreation and Housing	(16,004)	(14,874)
Resources, Commissioning and Contracts Management	(1,762)	(1,949)
Total income analysed on a segmental basis	(89,039)	(95,573)

8 Adjustments between Accounting Basis and Funding Basis under Regulations

This note details the adjustments that are made to the total comprehensive income and expenditure recognised by the Authority in the year in accordance with proper accounting practice to arrive at the resources that are specified by statutory provisions as being available to the Authority to meet future capital and revenue expenditure.

The following sets out a description of the reserves that the adjustments are made against.

General Fund Balance

The General Fund is the statutory fund into which all the receipts of an authority are required to be paid and out of which all liabilities of the authority are to be met, except to the extent that statutory rules might provide otherwise. These rules can also specify the financial year in which liabilities and payments should impact on the General Fund Balance, which is not necessarily in accordance with proper accounting practice. The General Fund Balance therefore summarises the resources that the Council is statutorily empowered to spend on its services or on capital investment (or the deficit of resources that the Council is required to recover) at the end of the financial year.

Capital Receipts Reserve

The Capital Receipts Reserve holds the proceeds from the disposal of land or other assets, which are restricted by statute from being used other than to fund new capital expenditure or to be set aside to finance historical capital expenditure. The balance on the reserve shows the resources that have yet to be applied for these purposes at the year-end.

Capital Grants Unapplied

The Capital Grants Unapplied Reserve holds the grants and contributions received towards capital projects for which the Council has met the conditions that would otherwise require repayment of the monies but which have yet to be applied to meet expenditure. The balance is restricted by grant terms as to the capital expenditure against which it can be applied and/or the financial year in which this can take place.

Notes to the Core Financial Statements

9 Transfers to/from Earmarked Reserves continued

- Balances Held by Schools (under a Scheme of Delegation) - school balances represent sums delegated to schools in accordance with the Education Reform Act 1988 which had not been spent at 31st March. Any underspending on the budget of the school remains at the disposal of the school to spend in future financial years.
- Insurance Fund - provides for the self-insurance of all losses up to a maximum in any year of £750k for material damage claims and £1,750k for Employers and Public Liability claims. External insurers are used to provide for losses in excess of these sums.
- Local Public Service Agreement (LPSA) Reward Grant - relates to Reward Grant received in 2005/06 and 2006/07 as a result of achievement of performance targets in LPSA1.
- LAA Reward Grant - relates to reward grant received from the Government as a result of the achievement of performance targets in our Local Area Agreement.
- Technology Fund - exists to provide resources to allow investment in ICT within the Borough to help improve the efficiency of departments and provide more comprehensive information and communication systems for Members, officers and the public.
- Reserve for Potential Redundancy Costs - provision set aside to meet potential redundancy implications in future years.
- Public Halls Fund - used for property/access works to facilitate greater participation at charity and community halls.
- Town Centre Improvement Fund - the Council has received funding through the Local Authority Business Growth Incentive Scheme which has been set aside to provide a contribution to the Town Centre Development Fund. A sum of £1,022k was ring fenced to contribute towards the costs associated with the relocation of Orpington Library. The balance is available for expenditure related to the development and sustainability of town centres.
- Ex Glaxo Land Maintenance - an endowment has been received for future maintenance of land conveyed to the London Borough of Bromley.
- Planning Services Charging Account - to account for surpluses and funding of deficits to be offset against future charges in accordance with Bromley's Building Regulations Charging Scheme.
- Grant Related Expenditure - established to account for the carry forward of underspends of grant related expenditure where there are no conditions attached to the associated grant income.
- Investment to Community Fund - set up in 2009/10 to provide investment to the community and voluntary sector as determined by Members.
- Works to Property - a fund set aside to meet potential unrecoverable costs associated with works to a property.
- Investment Fund - a fund established to maximise economic growth which will include investment opportunities and undertaking key infrastructure improvements. A key strand of the Council's financial strategy relates to economic development and generating income. The fund will provide key regeneration opportunities whilst also being utilised to provide a long term alternative income stream. In 2014/15, £10m was transferred to the Growth Fund.
- Invest to Save - a fund established in 2011/12 to support invest to save initiatives with any savings taking into account an element for repaying the fund whilst generating further savings that can be factored into future years' budgets.
- Bromley Welcare - set aside to commission a time limited, step up/step down service as part of a managed funding strategy.
- One-off Member Initiatives - a fund set aside to be earmarked against Member priority initiatives to be delivered by the Executive or Portfolio Holders as appropriate.

Notes to the Core Financial Statements

9 Transfers to/from Earmarked Reserves continued

- Infrastructure Investment Fund - funding set aside to partly reduce the risk of reducing levels of property and equipment maintenance which could result in more costly longer term costs being incurred.
- Commissioning Authority Programme - monies set aside to finance work associated with transforming LBB into a commissioning-based organisation.
- Health & Social Care 'Promise Programme' - monies set aside of funding from the PCT (now CCG) for investment in further integration of health and social care initiatives and the 'Promise Programme'.
- Housing Strategy Trading Account - to account for surpluses and funding of deficits to be offset against future affordable housing charges.
- Community Right to Bid and Challenge - funding set aside to specifically meet the costs arising from administering the scheme and to nominate officers to assess the asset of the community value nominations and any compensation claims from owners.
- Winter Pressures (Social Care & Health) - monies set aside of funding from the PCT (now CCG) to invest in social care services to benefit health and improve overall health gain.
- Refurbishment of War Memorials - monies set aside for the refurbishment of war memorials.
- Key Health and Social Care Initiatives - funding set aside as part of the wider integration of health and social care to support future integration and investment initiatives.
- Integration of Health and Social Care Initiatives - funding set aside as part of the wider integration of health and social care to support future integration and investment initiatives.
- Cheyne Woods & Cypher's Gate - funding received to enable future land maintenance costs of these sites.
- Healthy Bromley Fund - monies set aside as a cross-Council fund to support key initiatives that will help improve the wellbeing of Bromley residents.
- Transformation Fund - funding set aside to meet potential severance costs arising from a need for significant budget savings to be achieved over the next few years, and additional costs arising from a need to support staff in a changing organisation.
- Future Repairs of High Street Properties - funding set aside from annual rental income to deal with required repairs and structural work on High Street properties, acquired as part of the Council's investment property portfolio.
- Collection Fund Surplus Set Aside - monies set aside towards meeting the 'budget gap' in future years.
- Parallel Fund - a reserve set up in 2014/15 with the aim of providing for the potential future impact of actuarial reviews of the Council's Pension Fund.
- Growth Fund - an allocation of £10m from the Investment Fund was set aside in 2014/15 as a reserve for investments that support growth initiatives in Biggin Hill, the Cray Valley and Bromley Town Centre.
- Health and Social Care Integrated Commissioning - a reserve set up from one off funding from the Bromley Clinical Commissioning Group, to deliver the investment required by Health working with the Council to deliver integrated 'out of hospital' services across the whole health and care system.
- Financial Planning & Risk Reserve - funding set aside in 2014/15 to deal with the impact of the ongoing budget gap and possible utilisation of the reserve to support future years budgets.
- Bromley Welfare Fund - a fund for a 'White Goods and Furniture Scheme' to help with the impact of Welfare reforms on the discretionary housing payments budget.

Notes to the Core Financial Statements

9 Transfers to/from Earmarked Reserves continued

- Payments in Lieu (PIL) Reserve for Temporary Accommodation - a reserve set up for surplus rental income from properties purchased with Payment in Lieu Funds for Temporary Accommodation. The reserve will be used for repairs and maintenance costs of the properties, and for the provision of further affordable housing.
- Business Rates Risk Reserve - a fund established to manage the impact of any unexpected reductions in retained business rate income during 2015/16 and future years.
- One Off Expenditure in 2016/17 (inc TFM Contract) - one off funding of £461k was set aside in an earmarked reserve to support the following initiatives in 2016/17:
 - Youth Offending Services - £97k for continued additional staffing resources required for the YOS in preparation for a re-inspection of the service in 2016/17.
 - Bromley Safeguarding Children's Board (BSCB) - £55k to support the continuation of the boards safeguarding activities in 2016/17.
 - Total Facilities Management Contract (TFM) - an amount of £309k was set aside in an earmarked reserve to carry out the 'due diligence' work for the TFM contract prior to any final contract agreement.
- Crystal Palace Park Improvements - £240k was set aside in an earmarked reserve as a Community Project Fund. It will be used to award grants for the completion of small capital and revenue projects submitted by community groups over a period of three years.
- Various Joint Schemes and Pump Priming Investments in Health & Social Care - funding set aside to allow for the continuation of agreed joint schemes and pump priming investment for more cost effective models of delivery across Health & Social Care in Bromley.
- Transition Fund - a reserve set up to provide funding for pump-priming and other transitional arrangements in key service provision.
- Children Social Care Transition Fund - funding set aside to cover the cost of 15 additional social workers and reduce the average caseload of a social worker.
- Environmental Initiatives - £500k was set aside in an earmarked reserve to enhance the wide range of Environmental services in the street environment, parks countryside and trees.
- Planning/Planning Enforcement - funding set aside to provide a dedicated senior planning resource to assist in the development of sites that the Council intends to sell, provide advice on major development sites in the borough and additional resources to undertake planning enforcement action.
- Apprenticeship Scheme - funding set aside to support the implementation of a two year Apprenticeship Programme in light of the Apprenticeship Levy.
- Civic Centre Development Strategy - funding set aside for additional consultancy services for the development of the Civic Centre site.
- CSC Recruitment and Retention - a fund established to support recruitment and retention initiatives in Childrens Social care.
- Future Professional Advice for Commissioning - funding set aside to meet external professional advice in support of future schemes as required.
- Utilisation of New Homes Bonus - established to set aside income received to support the revenue budget.
- Future Pensions Risk in Outsourcing - monies set aside to meet potential future pension liabilities for staff transferred to outsourced services.
- West Wickham Leisure Centre & Library Redevelopment - monies set aside to undertake initial consultancy and survey works for the redevelopment of West Wickham Leisure centre and Libraries.

Notes to the Core Financial Statements

9 Transfers to/from Earmarked Reserves continued

- Income Equalisation reserve - to mitigate any potential loss in the capital value of pooled funds within treasury management investments, the Council has set aside interest/dividend earnings on these funds above 2.5%.
- Capital Funding for Property Disposals/Feasibility Works - £250k was set aside to allow for feasibility works to be commissioned against specific sites.
- Biggin Hill Airport Project funding has been set aside for any potential future monitoring cost in relation to the revised operating hours of Biggin Hill Airport.
- Transformation Programme, resources set aside to meet any additional resource requirements and the use of specialised advice, in relation to the transformation reviews that will be undertaken across the Council.
- Housing Investment Fund established to fund investment choices identified through the Council's Transformation programme to reduce homelessness costs in the local area.
- High Street & Parks Improvement Fund, external funding received for High Street and Town Centre cleansing works, and improvement works in Parks and Greenspaces.
- Contribution to YES Funding for 2019/20 set aside to provide funding to the Bromley Education Business Partnership (BEBP) to continue the successful delivery of the Youth Employment Scheme (YES) that helps support the generation of employment opportunities and tackle local youth unemployment.
- Day Centre Rent Relief monies set aside for short term assistance to Day Centres.
- Housing Invest to Save established to fund investment choices identified through the Council's Transformation programme to reduce homelessness costs in the local area.
- Health Facilities Fund - funding of £993k from Bromley Clinical Commissioning Group has been set aside in 2019/20 for investment in health facilities
- Health & Social Care Transformation Fund - a reserve set up using one off funding from Bromley Clinical Commissioning Group to develop new transformation opportunities which provide a benefit to health care with a positive impact on social care.
- Housing Feasibility and Viability - £250k has been set aside in a Housing Feasibility and Viability earmarked reserve. This will enable the Council to effectively and efficiently assess the viability of potential capital schemes, ensuring that opportunities are rigorously tested to inform wider decision making.

Notes to the Core Financial Statements

14 Property, Plant and Equipment continued

(i) Depreciation

The following useful lives and depreciation rates have been used in the calculation of depreciation:

Land is not depreciated.

Buildings – straight-line depreciation on remaining useful lives ranging from 5 to 55 years.

Community Assets – straight-line depreciation over 30 years.

Surplus Assets are not depreciated.

Vehicles, Plant, Furniture & Equipment – straight-line depreciation over 1 to 15 years down to residual value.

Infrastructure – straight-line depreciation over 15 to 40 years.

(ii) Capital Commitments

At 31st March 2020, the Authority had entered into a number of contracts for the construction or enhancement of Property, Plant and Equipment in 2020/21 and future years budgeted to cost £19.8m. This mainly comprised commitments relating to works at schools funded by Basic Need grant (£12.6m), the Highways Investment Scheme (£1.4m), LIP Formula Funding (£1.7m), and West Wickham Leisure Centre (£0.6m). Commitments at 31st March 2019 totalled £19.3m.

(iii) Revaluations

The Authority carries out a rolling programme that ensures that all Property, Plant and Equipment required to be measured at fair value is revalued at least every 5 years. In 2019/20, all valuations were carried out by Montagu Evans, except for the Glades which was valued by Knight Frank. Up to and including 2011/12, all valuations were carried out internally. Valuations of land and buildings were carried out in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors. Valuations of vehicles, plant, furniture and equipment are based on current prices where there is an active second-hand market or latest list prices adjusted for the condition of the asset.

The methodology for estimating the fair values of Property, Plant and Equipment is set out in the Statement of Accounting Policies (policy 18).

	Land & Buildings £000	vehicles, Plant, Furniture & Equipment £000	Community Assets £000	Surplus Assets £000	Assets Under Construction £000	Total Property, Plant, & Equipment £000

Notes to the Core Financial Statements

14 Property, Plant and Equipment continued

(iv) *Infrastructure*

In accordance with the temporary relief offered by the Update to the Code on infrastructure assets, this note does not include disclosure of gross cost and accumulated depreciation for infrastructure assets because historical reporting practices and resultant information deficits mean that this would not faithfully represent the asset position to the users of the financial statements. The authority has chosen not to disclose this information as the previously reported practices and resultant information deficits mean that gross cost and accumulated depreciation are not measured accurately and would not provide the basis for the users of the financial statements to take economic or other decisions relating to infrastructure assets.

Net book value (modified historical cost)	2018/19	2019/20
As at 1 April	103,251	108,396
Additions	9,080	6,626
Derecognition	0	0
Depreciation Impairment	-3,935	-4,124
Other movements in cost	0	0
	0	0
As at 31 March	108,396	110,898

The authority has determined in accordance with Regulation 30M of the Local Authorities Capital Finance and Accounting (England) Regulations 2022 that the carrying amounts to be derecognised for infrastructure assets when there is replacement expenditure is nil.

Notes to the Core Financial Statements

15 Heritage Assets

Net Book Value 31st March 2019	<u>673</u>	<u>344</u>	<u>1,017</u>
Cost or Valuation			
1st April 2019	673	344	1,017
Movement during year	-	-	-
Net Book Value 31st March 2020	<u>673</u>	<u>344</u>	<u>1,017</u>

Further details of Heritage Assets are provided in Note 48 and details of the accounting arrangements are provided in the Statement of Accounting Policies (policy 13).

16 Investment Property

The following items of income and expenditure have been accounted for in the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement:

2018/19 £000	2019/20 £000
(9,892) Rental Income from Investment Property	(9,358)
1,494 Direct Operating Expenses arising from Investment Property	979
<u>(8,398) Net gain</u>	<u>(8,379)</u>

There are no restrictions on the Authority's ability to realise the value inherent in its investment property or on the Authority's right to the remittance of income and the proceeds of disposal. The Authority has no contractual obligations to purchase, construct or develop investment property. The Authority does, however, have a contractual obligation to contribute 15% to the cost of any major refurbishment of The Glades Shopping Centre. As is usual commercial practice, repairing and maintenance obligations are defined in the individual leases.

The following table summarises the movement in fair value of investment properties over the year:

2018/19 £000	2019/20 £000
136,008 Balance at Start of Year	130,598
Purchases	-
Disposals	-
- Reclassified from Property, Plant and Equipment	2,185
- Reclassified from Surplus Properties	-
(5,410) Net Gains/(Losses) from Fair Value Adjustments	(15,030)
<u>130,598 Balance at End of Year</u>	<u>117,753</u>

Gains or losses arising from changes in the fair value of the investment property are recognised in Surplus or Deficit on the Provision of Services – Financing and Investment Income and Expenditure line.

Lessee disclosures for investment properties held under operating leases are included in Note 40.

Notes to the Core Financial Statements

16 Investment Property continued

Details of the authority's investment properties as at 31st March 2020 and 2019 are as follows:

2018/19	2019/20
£000	£000
14,266 Office units	13,806
4,800 Airport	5,649
17,844 Industrial	17,656
92,057 Commercial units	77,334
1,631 Other	3,308
130,598 Balance at End of Year	117,753

The fair value for all classes of investment properties has been based on the income approach using rental value, lease term, and an estimated yield appropriate to the class of property and other relevant information as inputs for fair value measurement.

There has been no change in the valuation techniques used during the year for investment properties, and all measurements have been categorised at Level 2 in the fair value hierarchy. There were no transfers between levels during 2019/20.

In estimating the fair value of the authority's investment properties, the highest and best use of the properties is their current use.

Notes to the Core Financial Statements

17 Financial Instruments

(a) Categories of Financial Instruments

The following categories of financial instruments are carried in the balance sheet:

	Non-Current		Current	
	31 March 2020 £000	1st April 2019 £000	31 March 2020 £000	1st April 2019 £000
Financial Assets				
Amortised Cost				
Investments	46,308	42,307	176,510	186,237
Debtors *	861	236	31,517	25,144
Cash and Cash Equivalents	-	-	34,812	14,514
	<u>47,169</u>	<u>42,543</u>	<u>242,839</u>	<u>225,895</u>
Fair Value through Profit or Loss				
Investments	74,811	70,221	647	1,314
Total Financial Assets	<u>121,980</u>	<u>112,764</u>	<u>243,486</u>	<u>227,209</u>
Financial Liabilities				
Amortised Cost				
Creditors *	-	-	53,157	50,834
Total Financial Liabilities	<u>-</u>	<u>-</u>	<u>53,157</u>	<u>50,834</u>

* The value of debtors and creditors reported in the table above are solely those amounts meeting the definition of a financial instrument. The balances of debtors and creditors reported in the balance sheet also include balances which do not meet the definition of a financial instrument such as tax-based debtors and creditors.

In accordance with the requirements of the Code, accruals for investment interest income due during the year but not received as at 31st March are included in short term investments in the Balance Sheet. The balances as at 31st March 2020 include a total principal of £330,919k and total accrued interest of £2,168k (£311,828k and total accrued interest of £2,765k as at 31st March 2019).

Notes to the Core Financial Statements

17 Financial Instruments continued

(b) <i>Income, Expense, Gains and Losses</i>	Other Comprehensive Income and Expenditure	Surplus or Deficit on the Provision of Services	
	2018/19 £'000	2018/19 £'000	2019/20 £'000
	Net (Gains)/Losses on:		
Available for Sale Financial Assets	-	-	-
Financial Assets Measured at Fair Value through Profit or Loss	-	(618)	5,410
Total Net (Gains)/Losses	-	(618)	5,410
Interest Income		(7,189)	(6,919)
Interest Expense		4	16
Net Interest		(7,185)	(6,903)

The net loss on Financial Assets Measured at Fair Value through Profit or Loss relates to the downward revaluation of two investments (£40m in a Property Fund and £40m in a Multi Asset Income Fund).

(c) *Fair Value of Financial Assets and Liabilities*

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Except for the financial assets and financial liabilities carried in the Balance Sheet at fair value, all other financial liabilities and financial assets held by the authority are carried in the Balance Sheet at amortised cost. Fair value can be assessed by calculating the net present value of cash flows that are expected to take place over the remaining life of the instruments.

Valuation of fixed term deposits is made by comparison of the fixed term investment with a comparable investment with the same/similar lender for the remaining period of the deposit. This will be the rate applicable in the market on the date of valuation for an instrument with the same duration (i.e. from valuation date to maturity). The structure and terms of the comparable instrument should also be the same. The rates used in the valuation were obtained from the market on 31st March 2020, using bid prices where applicable.

Where an investment has a maturity of less than 12 months, the fair value is taken to be the total of principal outstanding and accrued interest.

The fair values calculated are as follows:

	1st April 2019		31st March 2020	
	Carrying Amount £000	Fair Value £000	Carrying Amount £000	Fair Value £000
Financial Assets held at Amortised Cost				
Investments	228,544	229,124	222,817	223,787
Long Term Debtors	236	236	861	861
Cash and Cash Equivalents	14,514	14,514	34,812	34,812
Total Financial Assets	243,294	243,874	258,490	259,460

For investments with less than 1 year to maturity, the carrying amount is the same as the fair value (i.e. principal plus interest). For investments with more than 1 year to maturity, the fair value is higher or lower than the carrying value depending on whether the relevant interest rate is higher or lower than rates available for similar loans at the Balance Sheet date.

All investments have been categorised as fair value hierarchy level 2, and there has been no change in valuation technique or hierarchy level during the year for the financial instruments.

Short term debtors and creditors are carried on the balance sheet at cost as this is a fair approximation of their value.

Notes to the Core Financial Statements

17 Financial Instruments continued

(d) Long Term Debtors (due after one year) at 31st March

Included as Financial Assets are Long-Term Debtors, which comprise amounts owed to the Authority by various bodies that are not expected to be repaid within one year of the Balance Sheet date and do not, therefore, meet the definition of current assets.

2019 £000	2020 £000
Clarion Housing Group (formerly Broomleigh Housing Association)	
Property Transfer	
- - Sale of Council Houses *	352
- - Deferred Interest Earnings *	1
169 Loans for Miscellaneous Advances	477
40 Loans to Schools	-
27 Loans to Private Street Work Frontagers	31
236	861

* Under the Housing Stock Transfer agreement concluded with Clarion Housing Group (formerly Broomleigh Housing Association) in 1992, the Council receives a proportion of the income from the sale of Council Houses every three years. A debtor is included in the accounts until the money is actually received; a long-term debtor in the first two years and a short-term debtor in the final year. The sum of £2,985k was due in 2019/20 in respect of sales in the three years 2016/17 to 2018/19. There was one sale in 2019/20 and a long-term debtor of £353k (including accrued interest) is carried on the Balance Sheet as at 31st March 2020. The next receipt is due in 2022/23.

20 Cash and Cash Equivalents

The balance of Cash and Cash Equivalents is made up of the following elements:

2018/19 £000		2019/20 £000
14	Cash held by the Authority	13
2,013	Bank Current Accounts	(265)
14,514	Short-term Deposits with Money Market Funds*	34,812
16,541	Total Cash and Cash Equivalents	34,560

* Short-term investments that meet the Code's definition of cash equivalents are also referred to in Note 17 (a).

21 Assets Held for sale

Assets Held for Sale are items of Property, Plant and Equipment whose carrying amount is to be recovered through a sale rather than its continued use by the Authority. They are measured at the lower of the value they had when it was agreed they would be sold and fair value less costs to sell. Assets Held for Sale that are expected to be sold within 1 year of the Balance Sheet date are shown on the Balance Sheet as Current Assets.

2018/19 £000		2019/20 £000
5,856	Balance outstanding at start of year	4,057
	Assets newly classified/(declassified) as held for sale:

25 Provisions

	Outstanding Legal Cases (a) £000	Injury & Damage Compensation Claims (b) £000	Other Provisions (c) £000	Total £000
Balance at 1 April 2019	167	1,391	15,415	16,973
Additional Provisions made in year	95	889	1,911	2,895
Amounts used in year		(66)	(814)	(880)
Unused amounts reversed in year	(110)	(412)	(2,668)	(3,190)
Balance at 31st March 2020	152	1,802	13,844	15,798

(a) Outstanding Legal Cases: the Council made provision for the financial implications arising from a number of legal cases totalling £152k.

(b) Injury and Damage Compensation Claims: this provision represents the estimated potential cost of insurance claims received but not settled by the Council as at 31st March 2020 (411 claims with a total estimate of £1,802k).

(c) Other Provisions include the following:

Provision has been made which represents the potential need to reimburse clients falling under Section 117 of the Mental Health Act who had previously been charged for residential care. A sum of £200k has been carried forward into 2020/21.

Provision of £6,781k has been made to reflect potential losses in business rates income as a result of changes to the rating list arising from successful appeals.

There are uncertainties regarding potential funding streams and liabilities for Learning Disabilities and Mental Health clients and a provision of £1,027k has been made.

A provision of £408k has been made for the potential repayment of housing benefit subsidy, mainly arising from uncertainty relating to government subsidy for overpayments generated from L.A. errors.

All other provisions are individually insignificant.

26 Usable Reserves

Movements in the Authority's usable reserves are detailed in the Movement in Reserves Statement and in Note 9.

Notes to the Core Financial Statements

27 Unusable Reserves

31st March 2019 £000	31st March 2020 £000
80,110 Revaluation Reserve	82,718
221 Pooled Investment Funds Adjustment Account	(5,189)
449,994 Capital Adjustment Account	431,910
(82,847) Pensions Reserve	(92,735)
3,093 Deferred Capital Receipts Reserve	3,365
11,320 Collection Fund Adjustment Account	10,194
(1,460) Accumulated Absences Account	(1,867)
460,431 Total Unusable Reserves	428,396

Revaluation Reserve

The Revaluation Reserve contains the gains made by the Authority arising from increases in the value of its Property, Plant and Equipment. The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost;
- used in the provision of services and the gains are consumed through depreciation; or;
- disposed of and the gains are realised.

The Reserve contains only revaluation gains accumulated since 1st April 2007, the date that the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

Restated 2018/19 £000		Restated 2019/20 £000
79,105 Balance as at 1st April		80,110
6,279 Upward revaluation of assets	18,844	
(3,869) Downward revaluation of assets and impairment losses not charged to Surplus/Deficit on Provision of Services	(10,487)	
2,410 Surplus/Deficit on revaluation of non-current assets not posted to Surplus/Deficit on Provision of Services		8,357
(1,405) Accumulated losses on assets sold or scrapped	(5,749)	
(1,405) Amount written off to Capital Adjustment Account		(5,749)
80,110 Balance as at 31st March		82,718

Available for Sale Financial Instruments Reserve (AFS Reserve)

The Available for Sale Financial Instruments Reserve contains the gains and losses made by the Authority arising from movements in the value of its investments that have quoted market prices or otherwise do not have fixed or determinable payments. The balance of (£397k) as at 31st March 2018 was transferred to the Pooled Investment Funds Adjustment Account on 1st April 2018 following the adoption of IFRS 9 Financial Instruments.

Pooled Investment Funds Adjustment Account (PIFAA)

The Pooled Investment Funds Adjustment Account contains the gains and losses made by the Authority arising from increases and decreases in the value of its investments that are measured at fair value through profit or loss. The balance is written out to the Comprehensive Income and Expenditure Statement when investments are disposed of and the gain or loss is realised.

Notes to the Core Financial Statements

27 Unusable Reserves continued

PIFAA 2018/19 £000	PIFAA 2019/20 £000

- Downward revaluation of investments and impairment losses	5,410
1,045	(5,410)
(427) Accumulated gains on assets sold and maturing assets written out to the Comprehensive Income and Expenditure Statement	
221 Balance as at 31st March	(5,189)

Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different accounting arrangements for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement (with reconciling postings from the Revaluation Reserve to convert fair value figures to a historical cost basis). The account is credited with the amounts set aside by the Authority as finance for the costs of acquisition, construction and enhancement.

The Account contains accumulated gains and losses on Investment Properties and revaluation gains accumulated on Property, Plant and Equipment before 1st April 2007, the date on which the Revaluation Reserve was created to hold such gains.

Note 8 provides details of the source of all the transactions posted to the Account, apart from those involving the Revaluation Reserve.

Restated 2018/19 £000	Restated 2019/20 £000
456,171 Balance as at 1st April	449,994
<i>Reversal of items relating to capital expenditure debited or credited to the Comprehensive Income & Expenditure Statement:</i>	
(9,150) Charges for depreciation and impairment of non-current assets	(10,635)
(17,388) Revenue expenditure funded from capital under statute	(11,166)
(5,053) Non-current assets written off on disposal or sale as part of the gain/loss on disposal to CI&E Statement	(5,336)
(31,591) Net written out amount of the cost of non-current assets consumed in the year	(27,137)
<i>Capital financing applied in the year:</i>	
8,905 Use of Capital Receipts Reserve to finance new capital expenditure	6,602
16,374 Capital grants and contributions credited to CI&E Statement that have been applied to capital financing	15,256
2,333 Application of grants to capital financing from the Capital Grants Unapplied Account	1,644
657 Statutory provision for capital financing charged against the General Fund	639
2,555 Capital expenditure charged against the General Fund balance	(58)
30,824	24,083

449,994 Balance as at 31st March	431,910

Notes to the Core Financial Statements

27 Unusable Reserves continued

Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different accounting arrangements for post-employment benefits and for funding benefits in accordance with statutory provisions. The Authority accounts for post-retirement benefits in the Comprehensive Income & Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the Authority makes employer contributions to the Pension Fund or eventually pays any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and present employees and the resources the Authority has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

2018/19	2019/20
£000	£000
(68,025) Balance as at 1st April	(82,847)
(652) Actuarial gains or (losses) on pensions assets and liabilities	1,168
(24,744) Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services in the CI&E Statement	(22,188)
10,574 Employer's pension contributions and direct payments to pensioners payable in the year	11,132
(82,847) Balance as at 31st March	(92,735)

Deferred Capital Receipts Reserve

The Deferred Capital Receipts Reserve holds the gains recognised on the disposal of non-current assets but for which cash settlement has yet to take place. Under statutory arrangements, the Authority does not treat these gains as usable for financing new capital expenditure until they are backed by cash receipts. When the deferred cash settlement eventually takes place, amounts are transferred to the Capital Receipts Reserve.

2018/19	2019/20
£000	£000
2,695 Balance as at 1st April	3,093
478 New advances	352
(80) Transfer to the Capital Receipts Reserve upon receipt of cash	(80)
3,093 Balance as at 31st March	3,365

Notes to the Core Financial Statements

27 Unusable Reserves continued

Collection Fund Adjustment Account

The Collection Fund Adjustment Account manages the differences arising from the recognition of council tax and non-domestic rates income in the Comprehensive Income and Expenditure Statement as it falls due from council tax payers and business rate payers compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund.

2018/19	2019/20
£000	£000
13,807 Balance as at 1st April	11,320
(2,487) Amount by which council tax and non-domestic rate income credited to the Comprehensive Income and Expenditure Statement is different from council tax and non-domestic rate income calculated for the year in accordance with statutory requirements	(1,126)
11,320 Balance as at 31st March	10,194

Accumulated Absences Account

The Accumulated Absences Account absorbs the differences that would otherwise arise on the General Fund Balance from accruing for compensated absences earned but not taken in the year (e.g. annual leave entitlement carried forward at 31st March). Statutory arrangements require that the impact on the General Fund Balance is neutralised by transfers to or from the Account.

2018/19	2019/20
£000	£000
(1,571) Balance as at 1st April	(1,460)
1,571 Settlement or cancellation of accrual made at the end of the preceding year	1,460
(1,460) Amounts accrued at the end of the current year	(1,867)
111 Amount by which officer remuneration charged to the CI&E Statement on an accruals basis differs from remuneration chargeable in the year in accordance with statutory requirements	(407)
(1,460) Balance as at 31st March	(1,867)

Notes to the Core Financial Statements

28 Cash Flow Statement - Operating Activities

The cash flows for operating activities include the following items:

2018/19	2019/20
£000	£000
(6,172) Interest Received	(7,515)
<u>(6,172)</u> Net Interest Received	<u>(7,515)</u>

The surplus or deficit on the provision of services has been adjusted for the following non-cash movements:

2018/19	2019/20
£000	£000
(9,120) Depreciation	(9,362)
(30) Impairment/Reversals and Downward Valuations	(1,274)
(8,207) Increase/Decrease in Creditors	(8,760)
(601) Increase/Decrease in Debtors (net of bad debts)	3,058
36 Increase/Decrease in Inventories	(16)
(14,170) Movement in Pension Liability	(11,056)
618 Movement in Fair Value of Pooled Investment Funds	(5,410)
(6,472) Carrying Amount of Non-Current Assets and Non-Current Assets Held-for-Sale, Sold or De-Recognised	(11,086)
(8,355) Other Non-Cash Items Charged to the Net Surplus or Deficit on the Provision of Services	(11,856)
<u>(46,301)</u>	<u>(55,762)</u>

The surplus or deficit on the provision of services has been adjusted for the following items that are investing and financing activities:

2018/19	2019/20
£000	£000
12,199 Proceeds from the Sale of Property, Plant and Equipment and Investment Property	-
16,387 Other Items for which the Cash Effects are Investing or Financing Cash Flows	15,256

<u>3,053</u> Net Cash Flows from Financing Activities	<u>(14,594)</u>

Notes to the Core Financial Statements

31 Pooled Budgets

The Authority has entered into a pooled budget arrangement with Bromley CCG which operates under Section 75 of the NHS Act 2006 for the provision of integrated community equipment services. The transactions of the pooled budget are summarised below.

2018/19 Integrated Community Equipment Services £000		2019/20 Integrated Community Equipment Services £000
	Income	
717	Bromley CCG contribution	842
<u>1,254</u>	London Borough of Bromley contribution	<u>1,204</u>
1,971	Gross Income	2,046
	Expenditure	
<u>1,971</u>	Integrated Community Equipment Service	<u>2,046</u>
1,971	Gross Expenditure	2,046
<u>-</u>	Deficit / (Surplus) for the Year	<u>-</u>

There is also a pooled budget for the provision of Mental Health functions in the borough which is hosted by Oxleas NHS Foundation Trust. The transactions of this pooled budget are summarised below.

2018/19 Mental Health Services £000		2019/20 Mental Health Services £000
	Income	
21,373	Oxleas NHS Foundation Trust contribution	23,194
<u>1,406</u>	London Borough of Bromley contribution	<u>1,532</u>
22,779	Gross Income	24,726
	Expenditure	
<u>23,996</u>	Mental Health Functions	<u>24,991</u>
23,996	Gross Expenditure	24,991
<u>1,217</u>	Deficit / (Surplus) for the Year	<u>265</u>

The parties agreed that half the underspend on LBB funded expenditure (£9k) would be retained within pooled funds for future years. The deficit on Oxleas expenditure (£274k) remains within their accounts.

Notes to the Core Financial Statements

31 Pooled Budgets continued

The Better Care Fund has been set up to enable local authorities and local health services to develop and implement new approaches to service delivery based on a more integrated approach. The Authority has entered in to a pooled budget arrangement with Bromley CCG under Section 75 of the NHS Act 2006 (as amended by the Health and Social Care Act 2012) to work in partnership to deliver better integrated health and social care services in Bromley. The transactions of the pooled budget are summarised below:

2018/19		2019/20
Better Care Fund		Better Care Fund
£000		£000
	Income	
20,672	Bromley CCG revenue funding	21,701
1,995	Disabled Facilities capital grant	2,153
1,238	Carry Forward from 2018/19 - Capital	1,986
36	Carry Forward from 2018/19 - Revenue	58
23,941	Gross Income	25,898
	Expenditure	
20,650	Revenue expenditure	21,689
1,247	Capital expenditure	1,578
21,897	Gross Expenditure	23,267
	Deficit / (Surplus) for the Year	
(58)	Revenue	(70)
(1,986)	Capital	(2,561)
(2,044)		(2,631)

The Improved Better Care Fund (IBCF) is a grant to local authorities for spending on adult social care, including services that reduce pressures on the NHS. Spending decisions rest with the Council, however a key requirement of the grant conditions is that this is done in conjunction with wider health and social care partners. The Council is required to pool the funding into the local Better Care Fund. In addition, funding allocated to councils to spend on adult social care services to help councils alleviate winter pressures on the NHS is pooled into the Better Care Fund via the Improved Better Care Fund for the first time in 2019/20.

2018/19		2019/20
Improved Better Care Fund		Improved Better Care Fund
£000		£000
	Income	
2,013	Revenue grant funding - recurrent	4,636
3,363	Revenue grant funding - additional	1,677
-	*Winter Pressures Grant	1,191
3,172	Carry Forward from 2018/19	3,967
8,548	Gross Income	11,471
	Expenditure	
4,581	Revenue expenditure	8,705
4,581	Gross Expenditure	8,705
(3,967)	Deficit / (Surplus) for the Year	(2,766)

* Winter Pressures Grant funding is required to be pooled into the Better Care Fund via the Improved Better Care Fund from 2019/20.

The surplus on both BCF and IBCF has been carried forward to meet agreed priorities in 2020/21.

Notes to the Core Financial Statements

32 Members Allowances

The authority paid the following amounts to Members of the Council during the year:

2018/19		2019/20
£000		£000
997	Allowances	1,020
8	Expenses	11
<u>1,005</u>	Total	<u>1,031</u>

33 Non Distributed Costs

As required by the Service Reporting Code of Practice, these costs comprise pension costs, as defined by IAS 19, as follows:

- Past Service Costs - the increase in liabilities arising from current year decisions whose effect relates to years of service earned in earlier years. This is debited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income & Expenditure Statement as part of Non Distributed Costs. In the IAS 19 valuation as at 31st March 2020, the actuary estimated the past service cost in 2019/20 to be £3,820k, (£7,891k in 2018/19).
- Gains or losses on settlements and curtailments - the result of actions to relieve the Authority of liabilities or events that reduce the expected future service or accrual of employee benefits. These are debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income & Expenditure Statement as part of Non Distributed Costs. Losses on curtailments (£nil in both 2019/20 and 2018/19) arise when the Authority allows employees to retire on unreduced benefits before they would normally have been able to do so. There was no gain or loss on settlements in 2019/20 (also £nil in 2018/19).

The following charges have been posted to Non Distributed Costs:

2018/19		2019/20
£000		£000
7,891	Past Service Costs	3,820
290	Other Pension Costs	293
<u>8,181</u>		<u>4,113</u>

Notes to the Core Financial Statements

34 Officers Remuneration

The remuneration paid to the Council's senior employees is as follows:

-	-	-	£190,000-£194,999	-	-	-
-	-	-	£195,000-£199,999	1	-	1

In order to comply with amendments to the Accounts and Audit Regulations 2015, remuneration bandings are required to be disclosed in brackets of £5,000.

The amended Regulations also require the Council to disclose individual remuneration details for senior employees. In addition, these are also included in the table above.

A senior employee is an employee whose salary is more than £150,000 per year, or one whose salary is at least £50,000 per year and who is the authority's Chief Executive (or equivalent), their direct reports (other than administration staff), statutory chief officers and potentially any employee that the authority considers having responsibilities and powers to direct or control the major activities of the Council.

Notes to the Core Financial Statements

34 Officers Remuneration continued

The number of Exit packages with total cost per band and the total cost of the compulsory and other redundancies are set out in the table below:

Exit Package Cost Band (including special payments)	Number of Compulsory Redundancies		Number of Other Departures Agreed		Total Number of Exit Packages by Cost Band		Total Cost of Exit Packages in each Band	
	2018/19	2019/20	2018/19	2019/20	2018/19	2019/20	2018/19 £000s	2019/20 £000s

Notes to the Core Financial Statements

36 Dedicated Schools Grant

The Council's expenditure on schools is funded primarily by grant monies provided by the Education and Skills Funding Agency, the Dedicated Schools Grant (DSG). DSG is ring fenced and can only be applied to meet expenditure properly included in the Schools Budget, as defined in the Schools Finance and Early Years (England) Regulations 2018. The Schools Budget includes elements for a range of educational services provided on an Authority-wide basis and for the Individual Schools Budget, which is divided into a budget share for each maintained school.

Details of the deployment of DSG receivable for 2019/20 are as follows:

	Central Expenditure	Individual Schools Budget	Total	Notes
	£000	£000	£000	
Final DSG for 2019/20 before Academy and high needs recoupment			281,772	(a)
Academy and high needs figure recouped for 2019/20			(207,139)	(b)
Total DSG after Academy and high needs recoupment for 2019/20			74,633	(c)
Plus: Brought forward from 2018/19			2,495	(d)
Less: Carry forward to 2020/21 agreed in advance			-	(e)
Agreed initial budgeted distribution in 2019/20	41,222	35,906	77,128	(f)
In year adjustments	-	869	869	(g)
Final budgeted distribution for 2019/20	41,222	36,775	77,997	(h)
Less Actual central expenditure	44,950	-	44,950	(i)
Less Actual ISB deployed to schools	-	33,690	33,690	(j)
Plus Local Authority contribution for 2019/20	2,376	-	2,376	(k)
Carry forward to 2020/21	(1,352)	3,085	1,733	(l)

- (a) Final DSG figure before any amount has been recouped from the Authority excluding the January 2020 early years block adjustment.
- (b) Figure recouped from the Authority in 2019/20 by the DfE for the conversion of maintained schools into Academies and for high needs payments made by ESFA. Also included is the recoupment adjustments that relate to 2018/19 and were recouped by DfE in 2019/20.
- (c) Total DSG figure after Academy and high needs recoupment for 2019/20.
- (d) Figure brought forward from 2018/19 as agreed with the Department.
- (e) Any amount which the Authority decided after consultation with the schools forum to carry forward to 2020/21 rather than distribute in 2019/20.
- (f) Budgeted distribution of DSG, adjusted for carry forward, as agreed with the schools forum.
- (g) Changes to the initial distribution.
- (h) Budgeted distribution of DSG as at the end of the financial year.
- (i) Actual amount of central expenditure items in 2019/20.
- (j) Amount of ISB actually distributed to schools.
- (k) Any contribution from the Local Authority in 2019/20 which will have the effect of substituting for DSG in funding the Schools Budget.
- (l) Carry forward to 2020/21.

Notes to the Core Financial Statements

37 Grant Income

The Authority credited the following grants, contributions and donations to the Comprehensive Income and Expenditure Statement in 2018/19 and 2019/20.

<i>Credited to Taxation and Non Specific Grant Income</i>	2018/19	2019/20
	£000	£000

Total Receipts in Advance	<u>16,591</u>	<u>25,165</u>

Notes to the Core Financial Statements

38 Related Party Transactions

The Council is required to disclose material transactions with related parties - bodies or individuals that have the potential to control or influence the Council or to be controlled or influenced by the Council. Disclosure of these transactions allows readers to assess the extent to which the Council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Council.

Central government has significant influence over the general operations of the Council - it is responsible for providing the statutory framework within which the Council operates, provides the majority of its funding in the form of grants and prescribes the terms of many of the transactions that the Council has with other parties (e.g. council tax bills, housing benefits). Grants received and outstanding from UK government departments as at 31st March 2020 are shown in the grant income Note 37.

Members

Members of the Council have direct control over the Council's financial and operating policies. The total of Members' allowances paid in 2019/20 is shown in Note 32. During 2019/20, there are no declarable related party transactions with the exception of the following:-

- a) Councillor P. Fortune was Director of Clarion Housing (formerly Affinity Sutton Homes) until July 2019, to which the Council paid £293k in 2019/20.
- b) Councillor McIlveen was employed by the Royal Mail Group until May 2019, to which the Council paid £189k in 2019/20.

Officers

- i) During 2019/20 £10.8m was paid to Liberata in payment for services in relation to the Council's exchequer services contract. Liberata employs a family member of the Director of Finance, in a role that is not specifically related to the Bromley contract.
- ii) During 2019/20 a family member of the Executive Director of Environment & Community Services, undertook freelance design work across the Council at a cost of £6k. The Executive Director left the employment of the Council in November 2019.

Other Public Bodies

The Authority has 2 pooled budget arrangement with Bromley Clinical Commissioning Group for the provision of Integrated Stores and the Better Care Fund. There is a further pooled budget arrangement with Oxleas NHS Foundation Trust for the provision of mental health functions. Transactions relating to these arrangements are detailed in Note 31.

Pension Fund

During the financial year, the average monthly cash balance of the Pension Fund was negative and as a result, interest of £14k was charged to the Fund (£68k was paid in 2018/19). In 2019/20, £672k was charged to the Fund for expenses incurred in administering the Fund (£662k in 2018/19).

Entities Controlled or Significantly Influenced by the Authority

The Council has entered into a joint venture (JV) agreement with Mears Group PLC for the acquisition of properties to meet demand for temporary accommodation. The JV, More Homes Bromley LLP, will raise its own funds to purchase the properties and the Council will have nomination rights and will also underwrite voids.

Notes to the Core Financial Statements

39 Capital Expenditure and Capital Financing

The total amount of capital expenditure incurred in the year is shown in the table below (including the value of assets acquired under finance leases), together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Authority, the expenditure results in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred historically by the Authority that has yet to be financed. The CFR is analysed in the second part of this note.

	2018/19	2019/20
	£000	£000
Opening Capital Financing Requirement	2,254	1,215
<i>Capital investment</i>		
Property, Plant and Equipment	12,780	22,493
Investment Properties	-	-

Notes to the Core Financial Statements

40 Leases

Finance Leases - Authority as Lessee

The Authority has entered into a number of contractual arrangements that include embedded leases that have been classified as finance leases. The most significant of these relate to the refuse collection vehicles and plant included in the Refuse Collection contract. The useful life of these vehicles has typically been assumed to be 7 years. The arrangements for other vehicles, primarily in the gulley and street cleansing contracts, have also been classified as finance leases and 7 years has also typically been assumed as the useful life for these items.

Items of equipment leased by schools, mainly photocopiers, have also been classified as finance leases. A typical useful life of 5 years has been assumed for these.

The assets acquired under these leases are carried as Vehicles, Plant and Equipment in the Balance Sheet at the following net amounts:

	31st March 2019 £000	31st March 2020 £000
Vehicles, Plant and Equipment	1,215	9,577
	<u>1,215</u>	<u>9,577</u>

The Authority is committed to making minimum payments under these leases comprising settlement of the long-term liability for the interest in the asset acquired by the Authority and finance costs that will be payable by the Authority in future years whilst the liability remains outstanding. The minimum lease payments are made up of the following amounts:

	31st March 2019 £000	31st March 2020 £000
Finance lease liabilities (net present value of minimum lease payments)		
- current (within 1 year)	431	639
- non current (later than 1 year)	784	8,938
Finance costs payable in future years	475	1,479
Minimum lease payments	<u>1,690</u>	<u>11,056</u>

The minimum lease payments will be payable over the following periods:

	Minimum Lease Payments		Finance Lease Liabilities	
	31st March 2019 £000	31st March 2020 £000	31st March 2019 £000	31st March 2020 £000
Not later than one year	599	824	431	639
Later than one and less than five years	1,081	3,170	777	2,554
Later than five years	10	7,062	7	6,384
	<u>1,690</u>	<u>11,056</u>	<u>1,215</u>	<u>9,577</u>

None of the assets held under these finance leases have been sub-let.

Notes to the Core Financial Statements

40 Leases continued

Operating Leases - Authority as Lessee

The Authority leases various premises, which are accounted for as operating leases.
The future minimum lease payments due under non-cancellable leases in future years are:

	31st March 2019 £000	31st March 2020 £000
Not later than one year	465	210
Later than one and less than five years	392	275
Later than five years	704	758
	<u>1,561</u>	<u>1,243</u>

The expenditure charged to service areas in the Comprehensive Income & Expenditure Statement during the year in relation to these leases was:

	31st March 2019 £000	31st March 2020 £000
<i>Minimum lease payments</i>		
Resources, Commissioning & Contracts Management Portfolio	53	1
Environment & Community Portfolio	84	107
Renewal, Recreation and Housing	54	76
Education, Children & Families	236	-
Adult Care and Health Services	91	113
	<u>518</u>	<u>297</u>

Operating Leases - Schools as Lessee

Schools have entered into operating leases in the main, to acquire photocopiers and telephone systems. Typically operating leases are in place for 3 to 5 years, depending on the asset.
The minimum lease payments will be payable over the following periods.

	31st March 2019 £000	31st March 2020 £000
Not later than one year	5	1
Later than one and less than five years	8	7
	<u>13</u>	<u>8</u>

The expenditure charged to service areas in the Comprehensive Income & Expenditure Statement during the year in relation to these leases was:

	31st March 2019 £000	31st March 2020 £000
<i>Minimum lease payments</i>		
Education	5	5
	<u>5</u>	<u>5</u>

Notes to the Core Financial Statements

40 Leases continued

Finance Leases - Authority as Lessor

As at 31st March 2020, the Authority holds no finance leases.

Operating Leases - Authority as Lessor

The Authority has granted a number of lease agreements with regard to its portfolio of investment and other Council properties which are accounted for as operating leases.

The future minimum lease payments receivable under non-cancellable leases in future years are:

	31st March 2019 £000	31st March 2020 £000
Not later than one year	8,777	8,829
Later than one and less than five years	27,770	28,240
Later than five years	223,369	239,202
	<u>259,916</u>	<u>276,271</u>

The minimum lease payments receivable do not include rents that are contingent on events taking place after the lease was entered into, such as adjustments following rent reviews.

The Net Book Value of these assets was £224m as at 31st March 2020 (£203m as at 31st March 2019). Depreciation, impairment charges and impairment reversals of £0.1m, £23.5m and £21.7m respectively were made in 2019/20.

The rental income received in the Comprehensive Income & Expenditure Statement during the year in relation to these leases was:

	31st March 2019 £000	31st March 2020 £000
<i>Minimum lease payments</i>		
Resources, Commissioning & Contracts Management Portfolio	326	295
Environment & Community Portfolio	454	517
Renewal, Recreation and Housing	104	860
Education, Children & Families	22	41
Adult Care and Health Services	78	103
Financing & Investing Income & Expenditure	8,830	8,758
<i>Contingent rents</i>		
Financing & Investing Income & Expenditure	742	467
	<u>10,556</u>	<u>11,041</u>

41 Service Concessions

A service concession arrangement generally involves a local authority conveying to an operator for a defined period the right to provide services that give the public access to major economic and social facilities. The Authority controls the price charged for the service. It also controls, either by ownership or otherwise, any significant residual interest in the property at the end of the term of the arrangement. Three such arrangements have been identified within Bromley.

The Refuse Collection contract with Veolia ES (UK) Limited

The Authority transferred the contract for Waste Collection to Onyx U.K. Limited, now known as Veolia, from 4th November 2001 and the Waste Management contract from 24th February 2002, for 17 years. These contracts were re-awarded to Veolia from 1st April 2019 for a period of 8 years with the option to extend for a further 8 years.

The assets used to provide services to the residents of the borough are recognised on the Authority's Balance Sheet. Movements in the year are detailed in the analysis of the movement on the Property, Plant and Equipment balance in Note 14.

The total cost of this contract to 31st March 2020 was £90.9m (£84.1m to 31st March 2019).

Further details of the leasing arrangements are provided in Note 40.

Notes to the Core Financial Statements

41 Service Concessions continued

Bromley Mytime

The Authority transferred the responsibility for delivering its community leisure activity and services to Bromley Mytime effective from 1st February 2004 continuing 31st March 2019. The assets used to provide services to the residents of the borough are recognised on the Authority's Balance Sheet. Movements in the year are detailed in Note 14. From 1st April 2019, the contract has ended and a new leasing arrangement has been entered which is no longer considered to be a Service Concession. In return for service delivery, maintenance and enhancement of the Leisure Centres which remain in the authority's ownership, the Authority has paid a total of £18.3m to 31st March 2019. No further payments were made in 2019/20. There are two Council appointed representatives on the Board of Trustees.

Greenwich Leisure Ltd

The Authority transferred the responsibility for delivering its Library services to Greenwich Leisure Ltd effective from 1st November 2017 continuing until 31st October 2027.

The assets used to provide services to the residents of the borough are recognised on the Authority's Balance Sheet. Movements in the year are detailed in Note 14.

In return for service delivery, maintenance and enhancement of the Libraries which remain in the authority's ownership, the Authority has paid a total of £11.5m to 31st March 2020 (£7.2m to 31st March 2019).

42 Impairment Losses/(Reversals)

During 2019/20 the Authority has charged/reversed the following impairments in respect of its non-current assets to the surplus or deficit on the Provision of Services.

2018/19 £000		2019/20 £000
30	Property, Plant and Equipment	1,274
<u>30</u>		<u>1,274</u>

2018/19 £000		2019/20 £000
	(132) Adult Care and Health Services	(1,693)
	(160) Education, Children & Families	326
	345 Environment & Community Portfolio	678
	325 Renewal, Recreation and Housing	2,740
	(348) Resources, Commissioning & Contracts Management Portfolio	(777)
<u>30</u>		<u>1,274</u>

43 Termination Benefits

The Authority terminated the contracts of a number of employees in 2019/20 incurring liabilities of £479k (£1,073k in 2018/19) - see Note 34 for the number of exit packages and total cost per band. The total expenditure in 2019/20 related to 23 employees across all departments of the Authority (17 employees in 2018/19).

Notes to the Core Financial Statements

44 Disclosure of Information about Retirement Benefits

(a) Participation in Pension Schemes

As part of the terms and conditions of its officers, the Authority makes contributions towards the cost of post-employment benefits. Although these benefits will not actually be payable until employees retire, the Authority has a commitment to make the payments (for those benefits) and to disclose them at the time that employees earn their future entitlement.

The Council's Pension Fund is a funded defined benefit final salary statutory scheme operated (until 31st March 2014) under the provisions of the Local Government Pension Scheme (LGPS) Regulations 2007/08 (as amended). With effect from 1st April 2014, these regulations were revoked and replaced by the LGPS Regulations 2013. The Authority and employees pay contributions into the Fund, calculated at a level intended to ensure that pensions liabilities balance with investment assets over a period of time. The Fund provides benefits for members, including retirement pensions, lump sum retirement grants and widow's pensions.

Governance of the scheme is the responsibility of the London Borough of Bromley Pensions Investment Sub-Committee and policy is determined in accordance with the Pension Fund Regulations. The investment managers of the Fund are appointed by the Sub-Committee and, as at 31st March 2020, include Baillie Gifford, Fidelity, Schroders and MFS International.

The principal risks to the Authority of the scheme are the longevity assumptions, statutory, structural and inflation changes, bond yields and the performance of equity investments held by the scheme. These are mitigated to a certain extent by the statutory requirements to charge to the General Fund the amounts required by statute as described in the accounting policies note.

The Authority also makes arrangements for the award of discretionary post-retirement benefits upon early retirement. This is an unfunded defined benefit arrangement, under which liabilities are recognised when awards are made. There are no assets built up to meet these pension liabilities and cash has to be generated to meet actual pension payments when they eventually fall due.

(b) Transactions relating to Post-employment Benefits

The cost of retirement benefits is recognised in the Cost of Services within the Comprehensive Income & Expenditure Statement when benefits are earned by employees, rather than when they are eventually paid as pensions. However, the charge required to be made against Council Tax is based on the cash payable in the year, so the real cost of post-employment/retirement benefits is reversed out of the General Fund via the Movement in Reserves Statement. The following transactions have been made in the Comprehensive Income & Expenditure Statement and the General Fund Balance via the Movement in Reserves Statement during the year, based on figures provided in the IAS 19 reports as at 31st March 2019 and 2020, prepared by the Council's actuary, Mercer.

These figures include the estimated impact of the McCloud judgement.

	2018/19	2019/20
	£000	£000
<u>Comprehensive Income & Expenditure Statement</u>		
Current service cost	14,927	16,182

Past service costs	7,891	3,820	-	-
Curtailments	-	-	-	-
Settlements	-	-	-	-
Benefits paid	(31,658)	(27,453)	(358)	(358)
Closing Liability (Defined Benefit)	<u>909,765</u>	<u>853,487</u>	<u>3,609</u>	<u>3,548</u>

Reconciliation of the Movements in the Fair Value of Scheme (Plan) Assets:

	LGPS		Unfunded Benefits	
	2018/19	2019/20	2018/19	2019/20
	£000	£000	£000	£000
Opening fair value of scheme assets	787,028	830,527	-	-
Interest on plan assets	21,002	19,772	-	-
Remeasurements (assets)	41,057	(72,252)	-	-
Administration Expenses	(232)	(331)	-	-
Contributions by employer	10,216	10,774	358	358
Contributions by scheme members	3,114	3,263	-	-
Settlements	-	-	-	-
Benefits paid	(31,658)	(27,453)	(358)	(358)
Closing fair value of scheme assets	<u>830,527</u>	<u>764,300</u>	<u>-</u>	<u>-</u>

In 2019/20, the net liability increased by £9.9m (from £82.8m to £92.7m). This was mainly due to the fair value of plan assets not increasing to the same extent as the defined benefit obligation. The actual return on plan assets in the year was a loss of £23.3m (gain of £62.1m in 2018/19). The liabilities show the underlying commitments that the Authority has in the long run to pay post-employment (retirement) benefits. The total liability of £857m has a substantial impact on the net worth of the Authority as recorded in the Balance Sheet, resulting in a negative overall balance (deficit) of £92.7m. However, statutory arrangements for funding the deficit mean that the financial position of the Authority remains healthy. Employer contribution rates are set by the actuary with reference to the triennial valuations of the fund, last carried out at 31st March 2019.

Notes to the Core Financial Statements

44 Disclosure of Information about Retirement Benefits continued

(d) Fair Value of LGPS assets

	Fair value of scheme assets	
	As at 31st March 2019 £000	As at 31st March 2020 £000
Equities	506,622	501,916
Government bonds	58,967	49,144
Other bonds	52,323	23,770
Property Funds	39,865	32,865
Other	161,122	146,287
Cash / liquidity	11,628	10,318
	830,527	764,300

(e) Basis for Estimating Assets and Liabilities

Liabilities have been assessed on an actuarial basis using the projected unit credit method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels, etc. The scheme has been assessed by Mercer, an independent firm of actuaries, estimates for the Fund being based on the most recent full valuation as at 31st March 2019 and latest estimates for for the Fund as at 31st March 2020.

The main financial assumptions used by the actuary for the purposes of the IAS 19 calculations were:

	As at 31st March 2019	As at 31st March 2020
Longevity at 65 for pensioners retiring today (years):		
Men	23.5	22.8
Women	26.2	25.2
Longevity at 65 for pensioners retiring in 20 years (years):		
Men	26.2	24.7
Women	28.5	27.2
Rate of inflation - CPI	2.2%	2.1%
Rate of increase in salaries	3.7%	3.6%
Rate of increase in pensions	2.3%	2.2%
Rate for discounting scheme liabilities	2.4%	2.4%

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above. The sensitivity analyses below have been determined based on reasonably possible changes in assumptions occurring at the end of the reporting period and assume for each change that the assumption analysed changes while all the other assumptions remain constant. The assumptions for longevity, for example, assume that life expectancy increases or decreases for men and women. In practice, this is unlikely to occur, and changes to some of the assumptions may be inter-related. The estimations in the sensitivity analysis have followed the accounting policies for the scheme (i.e. on an actuarial basis using the projected unit credit method). The methods and types of assumptions used in preparing the sensitivity analysis below did not change from those used in the previous period.

McCloud Judgement

The Government Actuary's Department (GAD) has estimated that the impact of the McCloud judgement for the LGPS as a whole could be to increase active member liabilities by around 3.2% and a potential increase in service cost of around 3% of pensionable pay based on a given set of actuarial assumptions. These additional costs are very sensitive to the assumptions made.

Notes to the Core Financial Statements

44 Disclosure of Information about Post-employment Benefits continued

(e) Basis for Estimating Assets and Liabilities continued

Sensitivity analysis of the impact of changes in assumptions on the Defined Benefit Obligation

	Change of +/- 1% £000
IAS 19 Liability figure	857,035
+ 0.1% on rate for discounting scheme liabilities	844,186
+ 0.1% on inflation rate	870,079
+ 0.1% on pay growth	857,976
+1 year on life expectancy	880,554

(f) Impact on the Authority's Cash Flows

One of the objectives of the scheme is to keep employers' contributions at as constant a rate as possible. In the triennial fund valuation as at 31st March 2019, the Authority agreed a strategy with the scheme's actuary to recover deficits among scheme employers over the next 12 years. Funding levels are monitored and the next triennial valuation is due to be completed as at 31st March 2022. The actuary has estimated a total authority contribution of £8.7m in 2020/21.

The weighted average duration of the defined benefit obligation for scheme members is 15 years as at 31st March 2020 (16 years as at 31st March 2019).

The scheme will need to take account of the national changes to the scheme under the Public Pensions Services Act 2013. Under the Act, the Local Government Pension Scheme in England and Wales and the other main existing public service schemes may not provide benefits in relation to service after 31 March 2014 (or service after 31 March 2015 for other main existing public service pension schemes in England and Wales). The Act provides for scheme regulations to be made within a common framework, to establish new career average revalued earnings schemes to pay pensions and other benefits to certain public servants.

(g) Bromley Employees

In 2019/20, Bromley paid into the Pension Fund a total contribution of £11.1m (24.9% of total pensionable pay), including a past deficit contribution of £2.1m. This compares to £11.1m (24.9%) and £2.1m in 2018/19. The underlying contribution rate and the past deficit contribution are both determined by the Fund's Actuary based on triennial actuarial valuations. The contributions in 2019/20 incorporated the results of the full valuation as at 31st March 2016, which set contribution rates to achieve a funding level of 100% of the overall liabilities of the fund over 12 years.

(h) Teachers

Teachers employed by the Authority are members of the Teachers' Pension Scheme, administered by the Department for Education. The Scheme provides teachers with specified benefits upon their retirement and the Authority contributes towards the costs based on a percentage of members' pensionable salaries. The Scheme is technically a defined benefit scheme, but it is unfunded and the Department for Education uses a notional fund as the basis for calculating the employers' contribution rate paid by local authorities. The Authority is not able to identify its share of the underlying financial position and performance of the scheme with sufficient reliability for accounting purposes. In this Statement of Accounts, it is accounted for on the same basis as a defined contribution scheme.

In 2019/20, Bromley paid £1.6m to the Teachers' Pensions Agency in respect of teachers' retirement benefits, which represented 20.7% of teachers' pensionable pay. The figures for 2018/19 were £1.4m and 16.5%. In addition, Bromley is responsible for all pension payments relating to added years it has awarded. There were no payments relating to added years in both 2019/20 and 2018/19.

(i) NHS Staff

Former NHS public health staff who transferred to Bromley in April 2013 are members of the NHS Pension Scheme, administered by the Department for Health. This scheme is a defined benefit scheme, but, under NHS accounting arrangements, is accounted for as a defined contribution scheme.

In 2019/20, the Authority paid £0.1m (14.6% of pensionable pay) to the NHS scheme in respect of these staff (£0.1m and 14.4% in 2018/19).

Notes to the Core Financial Statements

45 Contingent Liability - not provided for in the accounts

Contingent liabilities are dependent upon the outcome of uncertain events and, consequently, cannot be quantified at the balance sheet date. For 2019/20 there are five contingent liabilities to disclose:

- 1) There have been a number of Council Tax banding appeals which, if successful, could result in refunds dating back to 1993. The claims are currently being considered by the District Valuer and could also have an impact on future Council Tax income levels. It is not possible to quantify the financial impact at this stage and the final outcome will depend on the number of appeals and the outcome of the findings from the District valuer.
- 2) There is a potential breach of contract claim from a social care contractor which has not yet led to proceedings being issued. The Council repudiates any liability. It is difficult to give a much fuller assessment unless proceedings are actually issued and the completed particulars of the claim and quantified damages are known. However, it is estimated that the maximum claim could be in the region of £1m.
- 3) The Council has made a provision for NNDR Appeals based upon its best estimates of the actual liability as at the year-end in known appeals. It is not possible to quantify appeals that have not yet been lodged with the Valuation Office so there is a risk to the Council that national and local appeals may have a future impact on the accounts.
- 4) There is a potential impact to the authority relating to the issue of NHS Trusts seeking charitable relief from Business Rates. The NHS Trusts have appealed against the High Court ruling that said they were not eligible for Business Rates relief and at this stage it is not possible to quantify the impact if any, on the authority and has therefore been disclosed as a contingent liability within the 2019/20 accounts.
- 5) The Council has entered into a joint venture (JV) agreement, More Homes Bromley LLP. Under the terms of a deed of covenant and guarantee, the Council has agreed to underwrite any shortfall in rental income and interest. Whilst the guarantee does not limit these payments to specific circumstances, or circumstances expected to be wholly under the control of the Council, the provision may appear to be genuine. Due to the long term nature of the arrangement and the nature of the financial liability, there is no directly observable evidence of the fair value. It is not possible, at this stage, to calculate the likely exposure to the Council as it is dependent on a number of factors and a realistic estimate cannot be quantified. A detailed analysis of the risks borne by the Council has been undertaken and it has been determined that the likelihood of any material settlement of the obligation is unlikely. The arrangement will be reviewed annually.

Notes to the Core Financial Statements

46 Contingent Asset - not provided for in the accounts

- 1) Contingent assets are possible assets that will only be confirmed by the occurrence of uncertain future events not wholly within the Authority's control. For 2019/20 there are two contingent assets to be disclosed:

The Council has been successful in recovering from HM Revenue and Customs separate historic VAT claims for different periods from April 1973 to December 1996. These claims related to disputed VAT liabilities on sporting services, sporting tuition, excess parking charges, special domestic waste collections, cultural services and libraries/audio visual charges. There is a further claim being pursued for VAT recovery on postal services but it is not possible to accurately predict the financial outcome of the claim at the present time nor is it certain, at this stage, whether the claim will be successful.

- 2) The Council is party to a joint venture (JV) arrangement, More Homes Bromley LLP, in partnership with Mears Group PLC. The JV will raise its own funds to acquire homes to meet demand for temporary accommodation. The properties will be refurbished to Decent Homes standard and the stock managed through the Mears registered housing association arm for 40 years after which time the properties will revert to the Council after the repayment of outstanding debt. Due to the long term nature of this arrangement, it is not possible to accurately predict the financial position at its conclusion as the extent and nature of that stock will be determined by the JV in running its business and paying off its debts.

Notes to the Core Financial Statements

47 Nature and Extent of Risk Arising from Financial Instruments

The Council's activities expose it to a variety of financial risks, including:

- Credit risk - the possibility that other parties might fail to pay amounts due to the Council;
- Liquidity risk - the possibility that the Council might not have funds available to meet its commitments to make payments;
- Refinancing and Maturity risk - the possibility that the Council might need to renew a financial instrument on maturity at disadvantageous interest rates or terms;
- Market risk - the possibility that financial loss might arise for the Council as a result of changes in such measures as interest rates and stock market movements.

The Council's overall risk management procedures focus on the unpredictability of financial markets and are structured to implement suitable controls to minimise these risks. The procedures for risk management are set out through a legal framework based on the Local Government Act 2003 and associated regulations. These require the Council to comply with the CIPFA Prudential Code, the CIPFA Code of Practice on Treasury Management in the Public Services and investment guidance issued through the Act. Risk management is carried out by a central treasury team, under policies approved by the Council in the Annual Treasury Management Strategy. The Council provides written principles for overall risk management, as well as written policies covering specific areas, including credit risk, liquidity risk and market risk, and the investment of surplus cash.

Credit Risk

Credit risk arises from deposits with banks and other financial institutions, as well as credit exposures to the Council's customers. This risk is minimised through the Annual Investment Strategy, which requires that deposits are only made with financial institutions that meet identified minimum credit rating criteria.

The Strategy for 2019/20 was approved by Full Council in February 2019 and is available on the Council's website. It imposes a maximum amount to be invested with a financial institution at any time and sets a maximum time period for investment.

The Council uses the creditworthiness service provided by Link Asset Services. This service uses a sophisticated modelling approach using credit ratings from all three ratings agencies forming the core element. It supplements this with credit watches and credit outlooks from the agencies, Credit Default Swap spreads to give early warnings of likely changes in credit ratings and sovereign ratings to select counterparties from only the most creditworthy countries.

The Authority's maximum exposure to credit risk in relation to its investments in other institutions and funds (£333.1m) cannot be assessed generally as the risk of any institution failing to make interest payments or repay the principal sum will be specific to each individual institution. Recent experience has shown that it is rare for such entities to be unable to meet their commitments. A risk of irrecoverability applies to all of the Authority's deposits, but there was no evidence at 31st March 2020 that this was likely to materialise.

No breaches of the Council's counterparty criteria occurred during 2019/20 and the authority does not expect any losses from non-performance by any of its counterparties in relation to treasury deposits.

Notes to the Core Financial Statements

47 Nature and Extent of Risk Arising from Financial Instruments continued

Credit Risk (cont)

Amounts Arising from Expected Credit Losses

The changes in the loss allowance for financial assets during the year are as follows:

Debtors held at Amortised Cost	Lifetime Expected Credit Loss - Simplified Approach	
	2018/19 £000	2019/20 £000
Opening Balance as at 1st April	20,369	22,368
Amounts Written Off	(1,862)	(2,069)
Changes in Models / Risk Parameters	3,861	4,451
Balance as at 31st March	22,368	24,750

Credit Risk Exposure

A summary of the credit risk ratings (Fitch) of the Council's investments as at 31/03/20 are shown below. At the time that the investments were agreed they were in line with the credit ratings in the Treasury Management Strategy

	Credit Risk Rating	Gross Carrying Amount £000
Investments Measured at Amortised Cost	AAA	34,812
	A+	75,516
	A	30,183
	A-	50,436
	BBB	10,078
	N/A	56,604
		257,629
Investments Measured at Fair Value through Profit or Loss	N/A	75,458
Total Investments		333,087

The credit quality of debtors is reflected in the level of expected credit loss allowance shown above. The Council does not generally allow credit for customers, requiring immediate payment of invoices raised. Customers for goods and services are assessed, taking into account their financial position, past experience and other factors, with individual credit limits being set in accordance with parameters set by the Council. Outstanding debt at year end is analysed by age below.

	As at 31st March 2019 £000	As at 31st March 2020 £000
Less than three months	5,601	9,351
Three to six months	1,062	879
Six months to one year	997	800
More than one year	4,676	5,586
	12,336	16,616

Notes to the Core Financial Statements

47 Nature and Extent of Risk Arising from Financial Instruments continued

Liquidity Risk

The Council has a comprehensive cash flow management system that seeks to ensure that cash is available as needed. If unexpected movements happen, the Council has ready access to borrowings from the money markets and the Public Works Loans Board. There is no significant risk that it will be unable to meet its commitments under financial instruments.

Currently the Council does not borrow externally. The Council is also required to provide a balanced budget through the Local Government Finance Act 1992, which ensures sufficient monies are raised to cover annual expenditure.

The maturity analysis of financial assets (investments), excluding sums due from customers, is as follows:

Principal Sum Invested as at 31st March 2019 £000		Principal Sum Invested as at 31st March 2020 £000
199,300	Less than one year	209,800
42,307	Between one and two years	46,308
70,221	More than two years	74,811
<u>311,828</u>		<u>330,919</u>

Refinancing and Maturity Risk

The Council maintains a significant investment portfolio, but has no long term borrowing. Whilst the cash flow procedures above are considered against the refinancing risk procedures, longer term risk to the Council relates to managing the exposure to replacing financial instruments as they mature. This risk relates to the maturing of longer term financial assets.

The approved treasury indicator limits on investments placed for greater than one year in duration are the key parameters used to address this risk. The Council approved treasury and investment strategies address the main risks and the central treasury team address the operational risks within the approved parameters. This includes monitoring the maturity profile of investments to ensure sufficient liquidity is available for the Council's day to day cash flow needs, and the spread of longer term investments provide stability of maturities and returns in relation to the longer term cash flow needs.

Notes to the Core Financial Statements

47 Nature and Extent of Risk Arising from Financial Instruments continued

Market Risk

Interest rate risk

The Authority is exposed to risk in terms of interest rate movements on its investments. Movements in interest rates have a complex impact on the Authority depending on how variable and fixed interest rates move across differing financial instrument periods. For instance, a rise in variable and fixed interest rates would have the following effects:

- investments at variable rates - the interest income credited to the Surplus or Deficit on the Provision of Services will rise;
- investments at fixed rates - the fair value of the assets will fall.

The Council has a number of strategies for managing interest rate risk. The Annual Treasury Management Strategy draws together the Council's prudential and treasury indicators and its expected treasury operations, including an expectation of interest rate movements. From this Strategy, a prudential indicator is set which provides maximum and minimum limits for fixed and variable interest rate exposure. The central treasury team monitors the market and forecast interest rates within the year to adjust exposures appropriately. For instance, during periods of falling interest rates, and where economic circumstances make it favourable, fixed rate investments may be taken for longer periods to secure better long term returns, subject to counterparties meeting the approved eligibility criteria.

All of the Council's term deposits placed during 2019/20 were fixed interest investments with banks, building societies, local authorities or housing associations. In addition to fixed interest deposits, the Council also has investments with a Property Fund (£40m) and a Multi-Asset Income Fund (£40m). Both were placed after consultation with Link Asset Services and neither are subject to interest rate movements.

Price Risk

Market risk is the risk of loss from fluctuations in equity and commodity prices, interest and foreign exchange rates and credit spreads. The Council is exposed to market risk from its investment activities, particularly through equity and property holdings within pooled fund investments. The level of risk exposure depends on market conditions, expectations of future price and yield movements and the asset mix. In general, excessive volatility in market risk is managed through the diversification of the funds in terms of geographical and industry sector and individual securities.

Foreign Exchange Risk

The Council has no financial assets or liabilities denominated in foreign currencies and thus has no exposure to loss arising from movements in exchange rates.

Financial Liabilities

As part of a joint venture agreement, the Council has entered into a contract to underwrite income shortfalls under the terms of a deed of covenant and guarantee. The Council has reviewed the arrangement in detail and, based on current information, has determined that the guarantee will not be called. A contingent liability is disclosed in note 45.

Icelandic Bank Defaults

In October 2008, the Icelandic banks Landsbanki, Kaupthing and Glitnir collapsed and the UK subsidiaries of the banks, Heritable and Kaupthing Singer and Friedlander, went into administration. The authority had £5m deposited with Heritable at the time, which had been placed for two years on 28th June 2007 at a rate of 6.42%. Heritable Bank is a UK registered bank under English law and was placed in administration on 7th October 2008. As at 31st March 2020, a total of £4,985k had been received from the administrator (98% of the Council's total claim of £5,087k). In accordance with CIPFA advice, impairment losses have previously been made in the accounts and, as estimates of recovery have improved, part-reversals of those impairment losses have been made, including £199k in 2015/16. This reduced the balance of the provision for potential loss to £102k (2% of the Council's total claim).

48 *Heritage Assets: Further Information*

Heritage Assets

The 2011/12 Code of Practice introduced a change to the accounting treatment for heritage assets and, from 2011/12, the Authority is required to show them on the face of the Balance Sheet at valuation or cost. The Authority's accounting policies for the recognition and measurement of heritage assets are set out in the Authority's summary of significant accounting policies (see accounting policy 13).

General

Heritage Assets are defined by the Code as assets with historical, artistic, scientific, technological, geophysical or environmental qualities that are held and maintained principally for their contribution to knowledge and culture.

Five Year Summary of Transactions

The Code requires a 5 year summary of transactions to be provided, but states that the information need not be given for any period before 1st April 2010 where it is not practicable to do so. The Council's Heritage Assets were valued during 2011 and no values were held or known before then, so it is not practicable to show transactions over the last five years. Accordingly, the accounts only record information back to 1st April 2010 (estimated values restated as at 1st April 2010 and 31st March 2011). The carrying values are shown in Note 15.

Heritage Assets disclosed in the accounts include the following:

Mayoral Regalia and Insignia

The Council owns a number of items of official insignia (Mayoral and other), comprising various badges and chains of office and a few items of civic silverware, including spoons, cups and maces. The whole collection has been valued by an independent jewellery appraiser and evaluation specialist at a total of £673k and are deemed to have indeterminate lives and are, therefore, treated as non-depreciable.

Art Works

The Bromley Museum Group has a number of works of art, including:

Fine Art and Ethnographic Collection comprising fine art and valuables, antique ceramic and glass, paintings, prints and drawings, sculpture and works of art. The collection has been independently valued at £162k;

Contemporary Art Work Collection (valued at £172k);

Mural at Orpington Hospital (valued at £10k).

The total value of these works of art is estimated at £344k and all are deemed to have indeterminate lives and are, therefore, treated as non-depreciable.

Heritage Assets not disclosed in the accounts include the following:

War Memorials and Memorial Plaques

There are 19 war memorials, most of which include commemorative plaques, located in the borough and these are a key focal point for local communities and are maintained and enhanced as necessary for the benefit of residents of the borough.

Metrology Equipment

The Council owns various items of measuring equipment, such as scales and balances, that are estimated to have a total value of between £5k and £7k. They are considered de minimis and are not included on the Balance Sheet.

Other Items

The Council owns a number of other heritage assets, including coal tax posts, listed milestones, listed water troughs and drinking fountains, other fountains, stone figures and archaeological artefacts.

The Council does not consider that reliable cost or valuation information can be obtained for these items because of their unique nature and lack of comparable market values. In the Council's opinion, it would not be practicable to obtain a valuation for these assets at a cost that would be commensurate with the benefits to users of the financial statements and they are not, therefore, recognised on the Balance Sheet.

THE COLLECTION FUND

The Collection Fund is an agent's statement that reflects the statutory obligation for the London Borough of Bromley as a billing authority to maintain a separate Collection Fund. The statement shows the transactions of the London Borough of Bromley in relation to the collection from taxpayers and distribution to local authorities and the Government of council tax and non-domestic rates. The Collection Fund is consolidated with other accounts of the Authority.

Balance at 31st March - Deficit / (Surplus)		<u>(12,948)</u>	<u>(12,351)</u>

THE COLLECTION FUND

In accordance with the statutory provisions for Collection Fund accounting, any surplus or deficit on the Fund can be transferred only in the financial year for which the budgetary provision was made. Any balance must remain on the Collection Fund and be repaid in the following year.

Council Tax Balance split into its attributable parts:

	Surplus as at 31st March 2019 £000	Distribution of Surplus in 2019/20 £000	Surplus for 2019/20 £000	Surplus as at 31st March 2020 £000
London Borough of Bromley	(12,625)	6,753	(5,153)	(11,025)
Greater London Authority	(3,263)	1,715	(1,353)	(2,901)
	<u>(15,888)</u>	<u>8,468</u>	<u>(6,506)</u>	<u>(13,926)</u>

The balance of the surplus held at 31st March 2019 will be distributed in 2020/21 and the 2019/20 surplus will be distributed in 2021/22.

Business Rates Balance split into its attributable parts:

	Deficit for 31st March 2019 £000	Distribution of estimated Deficit in 2019/20 £000	Deficit for 2019/20 £000	Deficit as at 31st March 2020 £000
London Borough of Bromley	1,305	1,003	529	831
Greater London Authority	1,076	906	298	468
Central Government	559	559	276	276
	<u>2,940</u>	<u>2,468</u>	<u>1,103</u>	<u>1,575</u>

The deficit held at 31st March 2020 of £1,575k will be distributed in 2020/21 and 2021/22.

Council Tax and Business Rates Net Deficit / (Surplus)	<u><u>(12,351)</u></u>

			136,613
			<hr/>
Allowance for MOD properties, changes in exemptions, discounts and number of properties			(2,022)
			<hr/>
			134,591
			<hr/>
Estimated Collection Rate			97.65%
			<hr/>
Council Tax Base 2019/20			131,428

2 Business Rates

Under the arrangements for uniform business rates, the Council collects non-domestic rates for its area which are based on local rateable values multiplied by a uniform rate (set by Government). The Council is responsible for collecting rates due from ratepayers in its area but until 31st March 2013 it paid the proceeds into an NNDR pool administered by the Government. The Government redistributed the sums paid into the pool back to local authorities' General Funds on the basis of a fixed amount per head of the population. On 1 April 2014 the Government introduced a new local government funding regime, the Business Rates Retention Scheme. This removed the national pool and instead allows councils to retain a set proportion of business rates collected subject to set baselines and limits. The remainder of business rates collected are paid as precepts to the Government (CLG) and the Greater London Authority (GLA).

The total non-domestic rateable value at 31st March 2020 was assessed by the Government's District Valuer as £243,511,120. The national non-domestic multiplier for the year was 50.4p. The income collectable for the year of £93.0m is net of revaluations, allowance for empty properties, provision for non collection, transitional and mandatory relief's as well as the part year effect of properties falling out / brought into rating during the year.

3 Business Rate Supplements

Business Rate Supplements (BRS) were introduced by the Business Rate Supplements Act 2009 and related regulations and statutory guidance. The Act confers powers on relevant local authorities "to impose a levy on non-domestic ratepayers to raise money for expenditure on projects expected to promote economic development". The BRS only applies to businesses with a rateable value of more than £70,000. The BRS multiplier for the year was 2 pence in the pound. The income collectable for the year was £2.3m net of reliefs on the same basis and same percentage rate as for NNDR.

FORMER LRB FUND

Since 30th March 1990 Bromley has taken responsibility for the management and disposal of a number of ex-GLC properties previously administered by the London Residuary Body. Bromley is also responsible for any residual functions following the winding up of the LRB. Monies were transferred to Bromley in order to meet management, administration and disposal costs. Surpluses arising from property transactions are apportioned between the London Boroughs and distributed on 31st March each year.

Notes to accounts

1) *2019/20 Distribution*

In 2019/20 revenue receipts of £1,010,351 were received and distributed between the London Boroughs in accordance with the regulations of the transfer.

2) *Fund 2*

As at 31st March 2020 an invoice of £429,640 for the London Eye remained unpaid and accounts for the high debtors.

3) *Fund 1*

Initial Fund set up in 1990 with a contribution of £2m from the LRB for properties transferred from LRB. Any surpluses arising from the disposal is distributed each year to all London Boroughs on the basis of population.

Fund 2

Set up in 1992 with a further contribution of £1m from the LRB for the administration of any remaining properties following the final winding up of the LRB. Any surplus arising from disposal of these properties is distributed to the London Boroughs on the basis of population.

Winding up Order 1996 incorporated the South Bank properties. Any surplus arising from disposal of these properties is distributed to the London Boroughs on the basis of council tax base.

PENSION FUND

Notes to the Accounts

1 Description of Fund

The following description of the Fund is a summary only. For more detail, reference should be made to the London Borough of Bromley Pension Fund Annual Report 2019/20 and the underlying statutory powers underpinning the scheme, which are listed below.

(a) General

The London Borough of Bromley Pension Fund is part of the LGPS and is administered by the London Borough of Bromley. It is a contributory defined benefit pension scheme to provide pensions and other benefits for pensionable employees of the Council and of other organisations with scheduled or admitted body status within the Fund. Teachers are not included as they are members of the Teachers' Pension Scheme, administered by the Department for Education. Former NHS public health staff who transferred to Bromley in April 2013 are also not included as they remain members of the NHS Pension Fund, administered by the Department for Health.

The Fund is governed by the Public Services Pensions Act 2013 and is administered in accordance with the following legislation:

- The LGPS (Transitional Provisions, Savings and Amendment) Regulations 2014 (as amended)
- The LGPS (Management and Investment of Funds) Regulations 2016.
- The LGPS Regulations 2013 (as amended).

The Fund is overseen by the London Borough of Bromley Pensions Investment Committee.

(b) Membership

Membership of the Fund is voluntary and employees are free to choose whether to join the scheme, remain in the scheme or make their own personal pension arrangements outside the scheme.

Organisations participating in the Fund include:

- Administering Authority: The London Borough of Bromley
- Scheduled Bodies: Academies, Colleges and Foundation Schools whose staff are automatically entitled to be members of the Fund
- Admitted Bodies: Other organisations that participate in the Fund under admission agreements with the Fund. These may include voluntary, charitable and similar bodies or private contractors carrying out local authority functions after outsourcing to the private sector.

The following table shows the total membership of the Fund as at 31st March 2020 and 2019. Please note membership data excludes undecided leavers and frozen refunds.

	2020	2019
Number of employers	122	113
Number of employees in scheme		
London Borough of Bromley	1,833	1,747
Other employers	4,420	4,569
	<u>6,253</u>	<u>6,316</u>
Number of pensioners		
London Borough of Bromley	4,590	4,511
Other employers	1,002	859
	<u>5,592</u>	<u>5,370</u>
Deferred pensioners		
London Borough of Bromley	3,758	3,748
Other employers	2,187	1,998
	<u>5,945</u>	<u>5,746</u>
Total number of members in pension scheme	<u><u>17,790</u></u>	<u><u>17,432</u></u>

PENSION FUND

Notes to the Accounts

1 Description of Fund continued

(c) Funding

Benefits are funded by contributions and investment earnings. Contributions are made by active scheme members in accordance with the LGPS Regulations 2013 and, in 2019/20, ranged from 2.75% to 12.5% of pensionable pay. Contributions are also made by employers and these are set based on triennial actuarial valuations.

A secondary contribution rate (previously known as deficit amount or past service adjustment) may also be charged. This rate is either paid as a monetary value or as an additional percentage of pensionable pay. In 2019/20, total employer rates ranged from 12.5% to 35.8% of pensionable pay

(d) Benefits

Pension benefits accrued prior to 1st April 2014 are based on final pensionable pay and length of pensionable service and are calculated as follows:

Service pre 1st April 2008:

- Pension: each year worked is worth $1/80$ x final pensionable salary
- Lump sum : automatic lump sum of $3/80$ for each year worked x final pensionable salary. A proportion of the accrued pension may be exchanged for a one-off tax free cash payment (£1 pension equates to a £12 lump sum).

Service post 31st March 2008:

- Pension: each year worked is worth $1/60$ x final pensionable salary
- Lump sum : no automatic lump sum, but a proportion of the accrued pension may be exchanged for a one-off tax free cash payment (£1 pension equates to a £12 lump sum)

With effect from 1st April 2014, the LGPS became a career average scheme and pension benefits accrued after 31st March 2014 are calculated as follows:

- Pension: for each year of scheme membership, a pension equal to $1/49$ of pensionable pay for that year will be added to an employee's pension account. Annual additions are then made to ensure the accrued pension keeps pace with inflation.
- Lump sum : no automatic lump sum, but a proportion of the accrued pension may be exchanged for a one-off tax free cash payment (£1 pension equates to a £12 lump sum)

As well as a change to the way in which benefits are calculated, the scheme normal retirement age for benefits accrued after 31st March 2014 changed to State Pension Age or 65, whichever is later.

There is a range of additional benefits for members of the scheme including, but not limited to, early retirement, ill health retirement and death benefits

2 Basis of Preparation

The Statement of Accounts summarises the Fund's transactions for the 2019/20 financial year and its position as at 31st March 2020. The accounts have been prepared in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2019/20, which is based on International Financial Reporting Standards (IFRS), as amended for the UK public sector, as well as guidance on Investment Valuations issued by the Pensions Research Accountants Group (PRAG).

The accounts report on the net assets available to pay pension benefits. They do not take account of obligations to pay pensions and benefits which fall due after the end of the financial year nor do they take into account the actuarial present value of promised retirement benefits. The Code gives administering authorities the option to disclose this information in the net assets statement, in the note to the accounts or by appending an actuarial report prepared for this purpose. The pension fund has opted to disclose this information in Note 16.

The accounts have been prepared on a going concern basis. The London Borough of Bromley Pension Fund is an open scheme with a strong covenant from the participating employers and is therefore able to take a long-term outlook when considering the general funding implications of external events. The Fund was 110% funded at the 31 March 2019 valuation and funding had improved to 115% funded at the 31 March 2022 valuation.

PENSION FUND

Notes to the Accounts

2 Basis of Preparation continued

Cash flow in the fund is generally provided by the ongoing excess of contributions over payments. Additionally, a portion of investment income generated by the fund is also retained as cash to provide additional liquidity. The Fund held cash of £13 million at the Balance Sheet date, equivalent to 1.3% of the Fund Assets. In addition, the Fund held £955 million in Level 1 and Level 2 investment assets which could be realised within 3 months if required. The overall cash flow position is subject to periodic monitoring and review to ensure that there is sufficient liquidity in fund assets to meet any commitments. The fund can disinvest to ensure that it is able to remain liquid for a period of at least 12 months from the date the financial statements are authorised for issue. As such the accounts have been prepared on a going concern basis.

3 Summary of Significant Accounting Policies

(a) Contribution income

Normal contributions, both from members and employers, are accounted for on an accruals basis at the percentage rate recommended by the scheme actuary in the payroll period to which they relate

Employers' augmentation contributions and pension strain contributions are accounted for in the period in which the liability arises. Any amount due in the year but unpaid is classified as a current financial asset. Employer deficit contributions are accounted for in accordance with the agreement under which they are paid or, in the absence of an agreement, on a receipts basis.

(b) Transfers to and from other schemes

Transfer values represent the amounts received and paid during the year for members who have either joined or left the Fund during the financial year and are calculated in accordance with the LGPS Regulations. Individual transfers in/out are accounted for when received/paid, which is normally when the member liability is accepted or discharged.

Bulk (group) transfers are accounted for on an accruals basis in accordance with the terms of the transfer agreement.

(c) Investment Income

(i) Interest income

Interest income is recognised in the Fund account as it accrues. Income includes the amortisation of any discount or premium, transaction costs or other differences between the initial carrying amount of the instrument and its amount at maturity calculated on an effective interest rate basis.

(ii) Dividend income

Dividend income is recognised on the date the shares are quoted ex-dividend. Any amounts not received by the end of the reporting period are disclosed in the net assets statement as "current assets."

(iii) Distributions from pooled funds

Distributions from distributing share class pooled funds are recognised at the date of issue. Any amount not received by the end of the reporting period is disclosed in the net assets statement as a current financial asset. For accumulating share classes, the change in market value also includes income, net of withholding tax, which is re-invested in the fund.

(iv) Movement in the net market value of investments

The change in market value of investments during the year comprises all increases and decreases in the market value of investments held at any time during the year, including profits and losses realised on sales of investments.

PENSION FUND

Notes to the Accounts

3 Summary of Significant Accounting Policies continued

(d) Benefits payable

Where members can choose whether to take their benefits as a full pension or as a lump sum with reduced pension, retirement benefits are accounted for on an accruals basis on the later of the date of retirement and the date the option is exercised. Other benefits are accounted for on an accruals basis on the date of retirement, death or leaving the Fund, as appropriate.

(e) Taxation

The Fund is a registered public service scheme under the Finance Act 2004 and, as such, is exempt from UK income tax on interest received and from capital gains tax on the proceeds of investments sold. Income from overseas investments suffers withholding tax in the country of origin, unless exemption is permitted. Irrecoverable tax is accounted for as a Fund expense as it arises

(f) Management expenses

The fund discloses its pension fund management expenses in accordance with the CIPFA guidance "Accounting for Local Government Pension Scheme Management Expenses (2016)", as shown below. All items of expenditure are charged to the fund on an accruals basis as follows:

All staff costs of the pensions administration team are charged direct to the fund. Associated management, accommodation and other overheads are apportioned to this activity and charged as expenses to the fund.

All staff costs associated with governance and oversight are charged direct to the fund. Associated management, accommodation and other overheads are apportioned to this activity and charged as expenses to the fund.

Investment management expenses are charged directly to the fund as part of management expenses and are not included in, or netted off from, the reported return on investments. Where fees are netted off quarterly valuations by investment managers, these expenses are shown separately in Note 8 and grossed up to increase the change in value of investments. Fees of the external investment manager and custodian are agreed in the respective mandates governing their appointments. Broadly, these are based on the market value of the investments under their management and therefore increase or reduce as the value of these investments change.

(g) Investment management expenses

All investment management expenses are accounted for on an accruals basis and investment manager fees are agreed in the respective mandates governing their appointments. Broadly, these are based on a percentage of the total market value of investments under management and therefore increase or decrease as the total value of investments changes.

(h) Financial assets

Financial assets are included in the net assets statement on a fair value basis as at the reporting date. A financial asset is recognised in the net assets statement on the date the fund becomes party to the contractual acquisition of the asset. From this date any gains or losses arising from changes in the fair value of the asset are recognised in the fund account.

The values of investments as shown in the net assets statement have been determined at fair value in accordance with the requirements of the Code and IFRS9 (see Note 11).

PENSION FUND

Notes to the Accounts

3 Summary of Significant Accounting Policies continued

(i) Foreign currency transactions

Dividends, interest and purchases and sales of investments in foreign currencies have been accounted for at the spot market rates at the date of transaction. End-of-year spot market exchange rates are used to value cash balances held in foreign currency bank accounts, market values of overseas investments and purchases and sales outstanding at the end of the reporting period.

(j) Cash and cash equivalents

Cash comprises cash investments placed by the Fund managers and cash held internally by the Fund. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and that are subject to minimal risk of changes in value.

(k) Financial liabilities

The Fund recognises financial liabilities at fair value as at the reporting date. A financial liability is recognised in the net assets statement on the date the Fund becomes party to it. From this date any gains or losses arising from changes in the fair value of the liability are recognised by the Fund.

(l) Actuarial present value of promised retirement benefits

The actuarial present value of promised retirement benefits is assessed every three years by the scheme actuary in accordance with the requirements of IAS 19 and relevant actuarial standards. As is permitted under the Code, the Fund has opted to disclose the actuarial present value of promised retirement benefits by way of a note to the Net Assets Statement (see Note 16). A summary of the results of the last full actuarial valuation is shown in Note 15.

(m) Additional voluntary contributions (AVCs)

The Council provides an AVC scheme for its members, the assets of which are invested separately from those of the Pension Fund. AVCs are managed independently of the fund by specialist provider (Aviva and Equitable Life) and each contributor receives an annual statement showing the amount held in their account and the movements in the year. In accordance with the LGPS (Management and Investment of Funds) Regulations 2016, AVCs are not included in the Pension Fund accounts, but are disclosed in Note 17.

(n) Contingent Assets and Liabilities

A contingent asset or liability arises where an event has taken place giving rise to a possible asset or liability whose existence will only be confirmed or otherwise by the occurrence of future events. Contingent assets and liabilities are not recognised in the net assets statement but are disclosed by way of narrative in the notes.

(o) Events After the Reporting Period End

Events after the reporting period are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the Pension Fund accounts are authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the end of the reporting period
- the accounts are adjusted to reflect such events
- those that are indicative of conditions that arose after the reporting period – the accounts are not adjusted to reflect such events, but, where a category of events would have a material effect, disclosure is made of the nature of the events and their estimated financial effect.

PENSION FUND

Notes to the Accounts

3 Summary of Significant Accounting Policies continued

(p) Basis for Valuation

Investments are shown in the accounts at market value, which has been determined as follows

Level 1 – Baillie Gifford and MFS equities. The majority of listed investments are stated at closing bid price or where not available, the last traded price as at 31 March 2020.

Level 2 - Fidelity and Schroders fixed income, pooled property and multi asset funds (when not subject to a material uncertainty clause). Closing bid price where bid and offer prices are published or closing single price where single price is published

Level 3 - Fidelity pooled property assets subject to a material uncertainty clause. Market value as published in the audited chart of accounts.

PENSION FUND

Notes to the Accounts

4 *Critical Judgements in Applying Accounting Policies, Assumptions on the Future and Other Major Sources of Estimation Uncertainty*

The Pension Fund liability is calculated every three years by the scheme actuary, with annual updates in the intervening years. The methodology used is in line with accepted guidelines and in accordance with IAS 19. Assumptions underpinning the valuations are agreed with the actuary and are summarised in Note 15. The assumptions were determined after taking into account historical experience, current trends and other factors. This estimate is subject to significant variations based on changes to the underlying assumptions. Consequently, actual results may be materially different from estimates.

The actuarial present value of promised retirement benefits is included in Note 16. Estimation of the net liability to pay pensions and the judgements used are carried out by the scheme actuary. The significant judgements relate to the discount rate used, salary increase projections, inflation and demographic assumptions. As for the 31 March 2019 figures, the figure includes the potential impact of the McCloud judgement.

Due to the global economic impact of the lockdown measures put in place by the UK Government on 23rd March 2020 in response to the Covid 19 pandemic, there has been increased volatility in equity and credit markets. This caused a significant reduction in the value of pension fund assets as at 31st March and although equity markets have started to stabilise and recover since then, there remains considerable uncertainty on the financial impact in future years. On this basis, this matter has been treated as a non-adjusting event.

The pooled property investment fund managed by Fidelity is subject to a material uncertainty clause as at 31 March 2020, due to the impact of COVID 19, the property investment fund managed by Fidelity has a market value as per the audited Chart of Accounts. The total pooled property investment in the financial statements are £47 million, (2018/19: £48.6 million). There is a risk that this investment may be over- or under- stated in the accounts.

10 Investments

Following a review of the Fund's investment strategy in 2017, to help manage the projected cashflow negative position of the Fund, contracts were awarded for two income distributing Multi-Asset Income Funds (20% of the Fund) and a Property Fund (5% of the Fund) in December 2017, funded by the disinvestment of the two Diversified Growth Funds, and a reduction in the allocations to Global Equities and Fixed Income. The managers as at 31st March 2020 were as follows:

Global equities: Baillie Gifford and MFS.
Fixed income: Baillie Gifford and Fidelity.
Multi-Asset Income: Fidelity and Schroders.
Pooled Property: Fidelity.

In addition, the Fund has £150k of unlisted shares in the London LGPS CIV Ltd (London CIV), which was set up to manage/pool the investments of LGPS funds across London.

The bid value of the Fund as at 31st March 2019 and 2020 was divided between Fund managers as follows:

	31st March 2019		31st March 2020	
	£000	%	£000	%
Baillie Gifford - global equities	418,276	40.18%	406,544	41.02%
- fixed income	59,158	5.68%	60,968	6.09%
Fidelity - fixed income	78,671	7.56%	83,495	8.43%
- multi-asset income	78,784	7.57%	80,613	8.13%
- pooled property	48,573	4.67%	47,017	4.74%
MFS - global equities	230,226	22.11%	215,582	21.75%
Blackrock - global	11,444	1.10%	0	0.00%
Schroders - multi-asset income	115,821	11.12%	96,630	9.75%
London CIV	150	0.01%	150	0.02%
	<u>1,041,103</u>	<u>100.00%</u>	<u>990,999</u>	<u>100.00%</u>

The carrying amounts of financial assets held by Fund managers are held as fair value through profit and loss, with the exception of the London CIV investment which is held at cost. There is no impact from the adoption of IFRS 9 Financial Instruments.

Pooled investments shown in the Net Assets Statement include the following:

	31st March	31st March
	2019	2020
	£000	£000
Multi-Asset Income Fund (2)	194,605	177,243
Property Fund (1)	48,573	47,017
Global Equity Fund (1)	11,444	-
Sterling Bond Funds (2)	137,829	144,463

Investment income due	2,279				2,241
Amounts payable for purchases	-				-
Net investment assets	1,040,953			(49,699)	1,002,295

The change in market value (MV) of investments during the year comprises all increases and decreases in the value of investments held at any time during the year, including gains and losses realised on sales of investments and unrealised changes in market value. All gains and losses recognised arose from financial instruments valued at fair value through profit and loss.

Transaction costs, comprising costs charged directly to the scheme such as fees, commissions, stamp duty and other fees, are included in the cost of purchases and sale proceeds. Transaction costs incurred during the year totalled £82k (£144k in 2018/19). Indirect costs are also incurred through the bid-offer spread on investments within pooled investment vehicles, but amounts are not separately provided to the scheme.

The Code requires the Council to disclose any single investments exceeding either 5% of the net assets available for benefits or 5% of any class or type of security. Details are shown below.

	31st March 2019		31st March 2020

Schroders - Global Multi Asset Income	115,821	11.15	96,630	9.57

PENSION FUND

Notes to the Accounts

11 Fair Value Hierarchy

The valuation of investment assets has been classified into three levels, according to the quality and reliability of information used to determine fair values.

Level 1 - where fair values are derived from unadjusted quoted prices in active markets for identical assets or liabilities (quoted equities, quoted fixed securities and unit trusts).

Listed investments are shown at bid prices. The bid price is based on the market quotation of the relevant stock exchange. Valuation of the Fund's equities falls into this category.

Level 2 - where market prices are not available, for example where an instrument is traded in a market that is not considered to be active or where valuation techniques are used to determine fair value and where these techniques use inputs that are based significantly on observable market data.

The valuation of the Fund's pooled investments fall into this category.

Level 3 - where at least one input that could have significant effect on the instrument's valuation is not based on observable market data. These types of valuation are common to the valuation of alternative investments. The investment in pooled property and the London CIV falls into this category.

The following table provides an analysis of the investment assets of the Fund grouped into the level at which fair value is observable.

Determination of the fair value of assets

All investment assets are held at fair value. The determination of the fair value can be complex depending on the investment and the complexity of measurement can be represented by the fair value hierarchy. The fair value hierarchy ranks fair values at levels between 1 and 3.

	<i>As at 31st March 2020</i>			
	Level 1	Level 2	Level 3	Total
	£000	£000	£000	£000
Baillie Gifford				
- Global Equities	406,544	-	-	-
- Fixed Income	-	60,968	-	-
Fidelity				
- Fixed Income	-	83,495	-	-
- Multi Asset Income	-	80,613	-	-
- Pooled Property	-	-	47,017	-
Schroders				
- Multi Asset Income	-	96,630	-	-
MFS				
- Global Equities	215,582	-	-	-
London CIV	-	-	150	-
Cash deposits held by investment managers	9,205	-	-	-
Investment income due	2,241	-	-	-
	<u>633,572</u>	<u>321,706</u>	<u>47,167</u>	<u>1,002,445</u>

Transfers between Level 2 and Level 3

The Pension Fund transfers the fair value hierarchy of pooled property fund that were previously held under Level 2 to Level 3. The decision was made as all of the property funds had a material uncertainty clause included in their valuations. The clause was included as a result of the significantly reduced property market activity stemming from the COVID-19 pandemic.

Notes to the Accounts

11 Fair Value Hierarchy continued

The valuation basis for each category of investment asset (Level 1, Level 2 and Level 3) is set out below:

Type of Investment Asset	Basis of Valuation	Observable & Unobservable Inputs	Key Sensitivities Affecting the Valuations Provided
Level 1			
Global equities	The published bid market price on the final day of the accounting period	Not required	Not required
Cash deposits held by Investment Managers	Carrying value is deemed to be fair value because of the short-term nature of these financial instruments	Not required	Not required
Investment income due	Carrying value is deemed to be fair value because of the short-term nature of these financial instruments	Not required	Not required
Level 2			
Fixed income and multi asset income	Closing bid price where bid and offer prices are published. Closing single prices where single price is published.	Not required	Not required
Level 3			
London CIV	Regulatory capital payment for pooling membership	Valued at book cost	Not required
Pooled property	Pooled property assets subject to a material uncertainty clause are valued at market value as published in the audited chart of accounts.	Valued by investment managers on a fair value basis each year	Not required

Sensitivity of Assets Valued at Level 3

The Fund has determined that the valuation methods described for Level 3 investments, are likely to be accurate within certain ranges. The Pension Funds' only Level 3 investment is the Fidelity Pooled Property investment, which is temporarily listed at Level 3 due to market uncertainty stemming from Covid 19. Please see **Note 19 - Other Price Risk Sensitivity Analysis**, which describes the value of each asset class at 31 March 2020, potential market movements (%), value on increase and decrease respectively.

<u>Long term debtors</u>	£000	£000
Repayment of Exit Agreement		1,771
Reimbursement of lifetime tax allowances	70	152
	<u>70</u>	<u>1,923</u>

15 Funding Arrangements

The Fund is valued triennially in accordance with the provisions of the Local Government Pension Scheme Regulations 2013.

The valuation of the Fund (as at 31st March 2016) calculated a solvency funding level of 91% and set a common employer contribution rate of 20.3% and total annual lump sum past-deficit contributions of £2.6m from 1st April 2017 until 31st March 2020 with the aim of recovering that deficit over 12 years. The most recent full valuation of the Fund (as at 31st March 2019) was carried out by the actuary during 2019/20. This calculated a new solvency funding level of 110%. For those employers where a shortfall exists, additional contributions will be required to correct this shortfall over an average recovery period of 12 years.

From 1st April 2020 until March 2023 the actuary has certified a Primary Contribution rate (i.e. the average contribution towards future service benefits across all employers) of 17.6% of pay. Secondary rate contributions of £0.1m plus 2.4% of pay per annum (totalling approximately £2.9m per annum on average across all employers) will also be payable to recover any shortfalls identified. The Secondary Rate payable also includes contributions towards the potential impact of the McCloud judgement as agreed with employers. For any schools adopting academy status from 1 April 2020, a contribution rate calculation will be carried out individually by the actuary.

The following assumptions were employed in the 2016 and 2019 valuations.

	2016	2019
<u>Economic assumptions</u>	<u>% p.a.</u>	<u>% p.a.</u>
Increases in earnings - long term	3.7	3.9
- short term (3 years)	n/a	n/a
General Inflation	2.2	2.4
Increases in pensions	2.2	2.4
Investment return - Overall discount rate	4.2	3.65
<u>Mortality assumptions</u>	<u>Years</u>	<u>Years</u>
Life expectancy - male aged 65 now	23.2	22.7
- at 65 for male aged 45 now	25.8	24.6
- female aged 65 now	25.9	25.1
- at 65 for female aged 45 now	28.2	27.1

Commutation assumption - It has been assumed that, on average, retiring members will take 80% of the maximum tax-free cash available at retirement. This is broadly equivalent to the assumption at the 2016 actuarial valuation.

PENSION FUND

Notes to the Accounts

16 Actuarial Present Value of Promised Retirement Benefits

The net liability of the London Borough of Bromley part of the Fund in relation to the actuarial promised retirement benefits and the net assets available to fund these benefits (both based on IAS 19 information available as at 31st March) is shown in detail in Note 44 to the main financial statements. The figures shown in the Net Assets Statement are in respect of the Whole Fund. The Fund is also required to disclose the actuarial present value of future benefits for the Fund as a whole. This was assessed by the Council's actuary under IAS 26 as £1,193m as at 31st March 2020 (£1,213m as at 31st March 2019).

When the LGPS benefit structure was reformed in 2014, transitional protections were applied to certain older members close to normal retirement age. The benefits accrued from 1 April 2014 by these members are subject to an 'underpin' which means that they cannot be lower than what they would have received under the previous benefit structure. The underpin ensures that these members do not lose out from the introduction of the new scheme, by effectively giving them the better of the benefits from the old and new schemes.

LGPS benefits accrued from 2014 may therefore need to be enhanced so that all members, regardless of age, will benefit from the underpin. Alternatively, restitution may be achieved in a different way, for example by paying compensation. In either case, the clear expectation is that many more members would see an enhanced benefit rather than just those currently subject to these protections. There will therefore be a retrospective increase to members' benefits, which in turn will give rise to a past service cost for the Fund employers.

Quantifying the impact of the judgement at this stage is very difficult because it will depend on the compensation awarded, members' future salary increases, length of service and retirement age, and whether (and when) members withdraw from active service. Salary increases in particular can vary significantly from year to year and from member to member depending on factors such as budget restraint, job performance and career progression. The Government Actuary's Department (GAD) has estimated that the impact for the LGPS as a whole could be to increase active member liabilities by 3.2%, based on a given set of actuarial assumptions. A full description of the data, methodology and assumptions underlying these estimates is given in GAD's paper, dated 10 June 2019.

The Fund's actuary has adjusted GAD's estimate to better reflect the London Borough of Bromley's Pension Fund local assumptions, particularly salary increases and withdrawal rates. The revised estimate is that total liabilities (i.e. the increase in active members' liabilities expressed in terms of the employer's total membership) could be 0.1% higher as at 31 March 2020, an increase of approximately £1.2m.

These numbers are high level estimates based on scheme level calculations and depend on several key assumptions.

The demographic assumptions used in the IAS 26 report were the same as those used for the 2019 full valuation (see Note 15) and the following financial assumptions were used:

	2019	2020
	% p.a.	% p.a.
Increases in earnings	3.7	3.6
Increases in pensions	2.3	2.2
Inflation	2.2	2.1
Investment return - Overall discount rate	2.4	2.4

17 Additional Voluntary Contributions

Contributing members have the right to make AVCs to enhance their pensions. In accordance with the LGPS (Management and Investment of Funds) Regulations 2016, AVCs are not included in the Pension Fund accounts. A summary of contributions made by members in 2018/19 and 2019/20 and the total value of AVC Funds as at 31st March 2019 and 2020 is shown below.

	2018/19	2019/20

- Utmost Life and Pensions	-	56
Total Market Value	927	707

18 Related Parties

One member of the Pensions Investment Committee during the year were in receipt of a pension, and one is a deferred pensioner.

A special responsibility allowance of £2,014 was paid to the Chairman of the Committee in 2019/20 (£1,970 in 2018/19). No other payments were made for meeting attendance.

The Council incurred costs of £672k (£662k in 2018/19) in relation to the administration of the fund and was subsequently reimbursed by the fund for these expenses.

Two key management personnel of the Fund (the Director of Corporate Services and the Director of Finance) are active members of the Fund. Their remuneration is set out below.

	2018/19	2019/20
	£000	£000
Short-term benefits	12	13
Post-employment benefits	2	2
	14	15

19 Nature and extent of risks arising from financial instruments

The Code of Practice on Local Authority Accounting in the United Kingdom 2019/20 requires disclosure of the nature and extent of risks arising from financial instruments. This requirement extends to the specific risks related to Pension Fund investments. Detailed disclosures concerning these risks are included in this note on the next two pages.

PENSION FUND

Notes to the Accounts

19 Nature and extent of risks arising from financial instruments continued

Risk and Risk Management

The Fund's primary long-term risk is that its assets will fall short of its liabilities (i.e. promised benefits payable to members). Therefore, the aim of investment risk management is to minimise the risk of an overall reduction in the value of the Fund and to maximise the opportunity for gains across the whole Fund portfolio. The Fund achieves this through asset diversification to reduce exposure to market risk, price risk, currency risk and credit risk to an acceptable level. In addition, the Fund manages its liquidity risk to ensure that there is sufficient liquidity to meet its forecast cash-flows. The Authority manages these investment risks as part of its overall Pension Fund risk management programme.

Market Risk

Market risk is the risk of loss from fluctuations in equity and commodity prices, interest and foreign exchange rates and credit spreads. The Fund is exposed to market risk from its investment activities, particularly through its equity holdings. The level of risk exposure depends on market conditions, expectations of future price and yield movements and the asset mix. The objective of the Fund's risk management strategy is to identify, manage and control market risk exposure within acceptable parameters, whilst optimising the return on risk.

In general, excessive volatility in market risk is managed through the diversification of the portfolio in terms of geographical and industry sector and individual securities. The Fund has an asset allocation rebalancing policy that ensures that diversification is maintained in the event that particular asset class values increase or decrease to an extent that rebalancing is required to retain diversification. These ranges are reviewed quarterly by the Director of Finance. Further details of current policy are included in the Fund's Statement of Investment Principles. To mitigate market risk, the Authority and the Fund's investment advisers undertake appropriate monitoring of market conditions and benchmark analysis.

Other price risk

Other price risk represents the risk that the value of the financial instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or foreign currency), whether those changes are caused by factors specific to the individual instrument or its issuer or factors affecting all such instruments in the market.

The Fund is exposed to share price risk. This arises from investments held by the Fund for which the future price is uncertain. All securities investments present a risk of loss of capital. Except for shares sold short, the maximum risk resulting from financial instruments is determined by the fair value of the financial instruments. Possible losses from shares sold short are unlimited.

The Fund's investment management agreements for non-pooled investments provide tolerances for investment manager deviation from market asset class returns expressed as the tracking error from benchmark returns. Fund officers review these metrics with Fund managers at each quarter.

The Fund's investment managers mitigate this price risk through diversification and the selection of securities and other financial instruments is monitored by the Authority to ensure it is within limits specified in the Fund's investment strategy.

In consultation with its investment advisors, the Fund has determined that the following movements in market price risk are reasonably possible for 2019/20, assuming that all other variables, in particular foreign exchange rates and interest rates remain the same.

Pooled property investments - OIECs	48,573	2.76%	49,914	47,232
Total	1,029,035	-	1,114,513	943,557

Currency Risk

Currency risk represents the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Fund is exposed to currency risk on financial instruments that are denominated in any currency other than the base currency of the Fund, i.e. £Sterling.

Many securities denominated in foreign currencies also gain significant proportions of their income and profits from jurisdictions outside of the market on which those securities are quoted. Over the long-term, currency rates reflect value in a particular territory and, to the extent that a particular security is exposed to currency risk in a particular territory, investment managers make decisions about this in their analysis of what securities to buy, sell or hold.

The Fund manages this risk by setting investment benchmarks and comparing overall outcomes against those benchmarks. These outcomes are reported to the Director of Finance and the Pensions Investment Committee every quarter.

The Fund considers the likely volatility associated with foreign exchange rate movements to be not more than 4%. A 4% strengthening/weakening of the pound against the various currencies in which the Fund holds investments would increase/decrease the net assets available to pay benefits as follows.

PENSION FUND

Notes to the Accounts

19 Nature and extent of risks arising from financial instruments continued

Currency Risk - Sensitivity Analysis

	Asset value as at 31.03.20	Potential market movement	Value on increase	Value on decrease

Overseas bonds	15,721	629	16,350	15,092
Overseas equities	611,604	24,464	636,068	587,140
Cash and cash equivalents	4,170	167	4,337	4,003
Total change in assets available to pay benefits	631,495	25,260	656,755	606,235

Credit Risk

Credit risk represents the risk that the counterparty to a transaction or a financial instrument will fail to discharge an obligation and cause the Fund to incur a financial loss. The market values of investments generally reflect an assessment of credit in their pricing and consequently the risk of loss is implicitly provided for in the carrying value of the Fund's financial assets and liabilities.

In essence, the Fund's entire investment portfolio is exposed to some form of credit risk. However, the selection of high quality counterparties, brokers and financial institutions minimises credit risk that may occur through the failure to settle a transaction in a timely manner.

Deposits are not made with banks and financial institutions unless they are rated independently and meet the Council's credit criteria. The Council has also set limits as to the maximum percentage of the deposits placed with any one bank or building society. In addition, the Council may invest in AAA-rated money market funds to provide diversification.

The Council believes it has managed its exposure to credit risk, and has had no experience of default or uncollectable deposits over the past five financial years. The Fund held £4.2m of Pension Fund cash under its treasury management arrangements at 31st March 2020 (£2.7m of temporary borrowing at 31st March 2019). In practice, the Pension Fund Revenue Account was broadly cash neutral for most of the year, and as a result, it was not considered viable to separate out Pension Fund cash from Council cash. The Council reviews exposure to different classes of credit ratings for fixed-interest securities and these results are reviewed quarterly by the Director of Finance.

PENSION FUND

Notes to the Accounts

19 Nature and extent of risks arising from financial instruments continued

Liquidity Risk

Liquidity risk represents the risk that the Fund will not be able to meet its financial obligations as they fall due. The Authority therefore takes steps to ensure that the Pension Fund has adequate cash resources to meet its commitments.

The Fund has immediate access to its cash holdings that are invested by the Authority, although, as is stated above, the level of cash held was not sufficient to warrant separate investment. The levels of cash held are reviewed by the Authority as part of the periodic cash-flow forecasting and form part of the Fund's investment strategy. The Fund's investment strategy ensures that around 95% of the Fund is invested in assets that can be sold at short notice to avoid any liquidity risk.

The Fund has illiquid assets through the Fidelity Property Fund, which had a value of £47.0m as at 31st March 2020, representing 4.70% of investment assets (£48.6m (4.67%) as at 31st March 2019).

Interest rate risk

The Fund invests in financial assets for the primary purpose of obtaining a return on investments. These investments are subject to interest rate risks, which represent the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Changes in interest rates principally affect investments held in cash or fixed interest securities.

Changes in interest rates, currencies and credit risk are all inter-related and affected by many influences including sovereign interest rates and factors affecting each individual investment. Investment managers manage these risks through the choice of their investments, by having benchmark outputs to attain and reporting variances from benchmark returns. The Fund reviews outcomes versus the assigned benchmark and the exposure to different classes of credit ratings and these results are reviewed quarterly by the Director of Finance.

The fund recognises that interest rates can vary and can affect both income to the fund and the carrying value of fund assets, both of which affect the value of net assets available to pay benefits. A 100 basis point (BPS) movement in interest rates is consistent with the level of sensitivity applied as part of the fund's risk management strategy. The fund's investment advisor has advised that long-term average rates are expected to move less than 100 basis points (1%) from one year to the next and experience suggests that such movements are likely.

Interest rate - risk sensitivity analysis

The analysis that follows assumes that all other variables, in particular exchange rates, remain constant and shows the effect in the year on the net assets available to pay benefits of a +/- 1% change in interest rates. The analysis demonstrates that a 1% increase in interest rates will not affect the interest received on fixed interest assets but will reduce their fair value, and visa versa. Changes in interest rates do not impact on the value of cash and cash equivalent balances but they will affect the interest income received on those balances.

PENSION FUND

Notes to the Accounts

19 Nature and extent of risks arising from financial instruments continued

Assets exposed to interest rate risk:

Exposure to interest rate risk	Asset value as at 31.03.20 £000	Impact of 1% decrease £000	Impact of 1% increase £000
Cash and cash equivalents	9,205	9,113	9,297
Fixed interest bonds	144,463	143,019	145,908
Total	153,668	152,131	155,205

Exposure to interest rate risk	Asset value as at 31.03.19 £000	Impact of 1% decrease £000	Impact of 1% increase £000
Cash and cash equivalents	9,652	9,555	9,749
Fixed interest bonds	137,822	136,444	139,200
Total	147,474	145,999	148,949

20 Contingent Assets

The Council is party to a joint venture (JV) arrangement, More Homes Bromley LLP. As part of the overall arrangement the Council has resolved that, on receipt of the property stock at the conclusion of the agreement, the properties will subsequently be 'gifted' to the Pension Fund with a view to reducing current pension contributions. The assets to be 'gifted' at the end of the arrangement will not exceed the value of the Council's Pension Fund deficit at that time. The eventual consideration may differ from the actuarial assumptions used due to the long term nature of the arrangement and the application of different professional standards. Whilst there is a constructive obligation to transfer the whole or part of the property stock this is subject to a number of caveats and there is not sufficient certainty for it to be recognised by the Pension Fund as an asset at this stage.

21 Events After the Reporting Period

Due to the global economic impact of the measures put in place by the UK and other Governments in March 2022 in response to the conflict in Ukraine, there has been increased volatility in equity and credit markets. The Fund has limited investments in Russia of less than £880k as at March 2022. This is less than 0.1% of the total fund value. There remains considerable uncertainty on the financial impact in future years. On this basis, and due to the low value of investments in Russia, this matter has been treated as a non-adjusting event.

1. Executive Summary

The Leader of the Council and Chief Executive recognise the importance of having appropriate processes and controls in place to run the Council and ensure its services are delivered effectively.

The Council is required to produce an Annual Governance Statement (AGS) which describes how its corporate governance arrangements have been working. The Council's Audit Sub-Committee review the production of the AGS and considers and scrutinises the content.

Bromley is a Member led, commissioning authority, delivering services through whoever is best placed to provide quality and value for money to its residents, who are supported to manage their lives with the minimum of intervention from the Council. 'Building a Better Bromley' contains the guiding principles for Bromley Council, our vision and links with key partner organisations to help deliver important outcomes for residents, businesses and visitors to Bromley

[Building a Better Bromley](#)

Bromley's governance framework comprises the systems and processes, culture and values, by which the authority is directed and controlled, and the activities through which it accounts to, engages with and leads its community. It enables the authority to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate services and value for money.

The system of internal control is a significant part of that framework and is designed to manage risk to a reasonable level. It cannot eliminate all risk of failure to achieve policies, aims and objectives and can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of Bromley's policies, aims and objectives; to evaluate the likelihood and potential impact of those risks being realised, and to manage them efficiently, effectively and economically.

The governance framework has been in place at Bromley for the year ended 31st March 2020 and up to the date of approval of the Leader's Foreword and Statement of Accounts.

The Council conducts an annual review of its governance arrangements, including the system of internal control. The purpose of the review is to provide assurance from a number of sources including Members, Chief Officers, internal and external audit, other review agencies and inspectorates that corporate governance arrangements are adequate and operating effectively; or where gaps are revealed, action is planned that will ensure effective governance in future.

With substantial additional savings to be made over the next four years, the financial situation continues to drive the future direction and work of the Council.

2. Significant Governance Issues

Overall, we can confirm that the Council has appropriate systems and processes in place to ensure that good governance is maintained in line with the 'Delivering Good Governance in Local Government Framework, 2016 Edition'. Whilst we are satisfied that these generally work and can be regarded as fit for purpose, we have identified a number of areas for improvement.

Progress made in dealing with the governance issues identified in the 2018/19 Annual Governance Statement is detailed on pages 19 to 22.

Three areas, detailed overleaf, have been identified as requiring further work during 2020/21:

Governance Issue	Action	Lead Officer
<p>Finance A potential balanced budget for next year has been achieved through identifying savings, generating income, an improved financial settlement from Government and continuing with prudent financial management, but there remains a “budget gap” of £0.8m in 2021/22 rising to £16.9m per annum in 2023/24. The projections from 2021/22 have to be treated with some caution, particularly as the Government’s next Spending Review, outcome of the Fair Funding Review and Business Rate Devolution is now expected to be implemented from 2021/22 – the outcome, including the impact on individual councils, is still awaited. The impact of the Covid 19 Pandemic is yet to be fully assessed but is expected to have a significant effect on Public Services, including the Council’s financial forecast projections.</p>	<p>In considering action required to address the medium term “budget gap”, the Council has taken significant action to reduce the cost base while protecting priority front line services and providing sustainable longer term solutions. Significant savings of around £100m were realised since 2011/12. Our council has to balance between the needs of service users and the burden of council tax on council tax payers. With the Government placing severe reductions in the level of grant support, the burden of financing increasing service demand falls primarily upon the level of council tax and business rate income. Further information can be found in:</p> <p>Draft 2020/21 Budget and update on the Council’s Financial Strategy 2021/22 to 2023/24</p>	<p>Director of Finance</p>
<p>Valuation of Fixed Assets Issues have been identified relating to the methodology used for the valuation of fixed assets for reporting in the Council’s 2018/19 Statement of Accounts. It is clear that a revised approach is necessary which will require significant work relating to a full re-valuation of the Council’s assets.</p>	<p>The agreed sample of assets for the 19/20 Valuation was undertaken by a new external valuation team – meeting the valuation deadline for 31 March 2020. Valuation methodology has been shared with the external auditors. Recommendations as to employ a Registered Valuer and to agree valuation methodology together with source data/record keeping for Asset Valuations have been made as part of the Transforming Property to a Corporate Landlord proposals which will see the Council recruiting a Registered Valuer, agreeing methodology statements and enhancing its data sets and source data/record keeping for Asset Valuations during 2020.</p>	<p>Assistant Director, Strategic Property</p>
<p>Impact of COVID-19 pandemic on service delivery The Covid-19 pandemic has had disruptive and unprecedented effects on individuals, businesses, governments and society. This pandemic is causing a</p>	<p>The Government has provided additional grant funding. To aid cash flow, the Government made up front payments of grants, including pre-COVID-19 business rates relief compensation and support grant. The Government announced that councils would also be allowed to defer business rates central share payments due to the Government over the next three months and</p>	<p>Chief Executive and Corporate Leadership Team</p>

significant impact on Local Government and the Council has had to adapt to this changing landscape.

There are risks to service delivery; from for example an increase in staff absence rates amongst employees and contractors. At the same time there have been increased workloads, in key defined critical services.

In common with many organisations the Council has shifted to employees working from home and adopted new operating models to continue business

It faces a possible reduction in Council funds through significant falls in income and additional costs. These bring the risk of an impact upon delivering statutory responsibilities, an impact on the delivery of the Council's Transformation Programme 2020/23, and its ability to close the Council's budget gap of £16.9m Million by 2023/24

social care grants would all be paid in April 2020 rather than monthly in April, May and June.

The Council is doing remarkable work to address the challenges brought by COVID-19.

Strategic and Tactical Coordination Groups have been established to mitigate the impact on the Council's services:

- Meeting and reporting structures are in place
- Decision making processes have been streamlined
- Action has been taken to mitigate surge in identified critical services
- Effective partnership working has taken place to collectively mitigate risks
- Overarching command and control structure for London Local authorities are in place
- Effective communications strategy and delivery are in place
- Mutual aid agreement is in place across the South East Boroughs
- Adoption of financial relief measures offered by Government
- HR processes refined and in place to support

The Council will development and implement a recovery strategy

3. What is Corporate Governance?

3.1 Definition

The CIPFA International Framework 'Good Governance in the Public Sector' defines governance as:-

'The arrangements put in place to ensure that the intended outcomes for stakeholders are defined and achieved'

It also states that:-

'To deliver good governance in the public sector, both governing bodies and individuals working for public sector entities must try to achieve their entity's objectives while acting in the public interest at all times'

'Acting in the public interest implies primary consideration of the benefits for society, which should result in positive outcomes for service users and other stakeholders'

Governance is about how local government bodies ensure that they are doing the right things, in the right way, for the right people, in a timely, inclusive, open, honest and accountable manner. It

comprises the systems and processes, cultures and values, by which local government bodies are directed and controlled and through which they account to, engage with and, where appropriate, provide leadership to their communities.

Effective corporate governance and the capacity to lead and manage change are essential to meet the ever increasing challenges for the public sector. Good governance is important to all involved in local government and a key responsibility of the Chief Executive, the Leader of the Council and other statutory governance Chief Officers.

Our governance framework comprises the culture, values, systems and processes by which the Council is directed and controlled. It brings together an underlying set of legislative and regulatory requirements, good practice principles and management practice.

Bromley Council recognises that:

- ▶ Good governance leads to good management, good performance, good stewardship of public money, good public engagement and, ultimately, good outcomes for residents and service users
- ▶ Good governance enables an authority to pursue its vision effectively, as well as underpinning that vision with appropriate mechanisms for control and management of risk
- ▶ All authorities should aim to meet the standards of the best and governance arrangements should not only be sound, but also be seen to be sound.

3.2 The Principles

Principle A – Behaving with integrity, demonstrating strong commitment to ethical values and respecting the rule of law
How we do this
<ul style="list-style-type: none"> • Having regard for the principles of selflessness, integrity, objectivity, accountability, openness, honesty and leadership
<ul style="list-style-type: none"> • Being accountable for decisions to the public and co-operating fully with whatever scrutiny is appropriate to one’s office
<ul style="list-style-type: none"> • Commitment to promoting an anti-fraud and corruption culture evidenced through a detailed anti-fraud and corruption policy and ensuring fraud and corruption are dealt with effectively
<ul style="list-style-type: none"> • Adherence to ethical values and respect for the rule of law
<ul style="list-style-type: none"> • Creating a culture where statutory officers and other key post holders are able to fulfil their responsibilities

Principle B – Ensuring openness and comprehensive stakeholder engagement
How we do this
<ul style="list-style-type: none"> • Ensuring transparency of decisions supported by an effective scrutiny and challenge process

- Consulting with residents during the budget setting process for 2020/21 and beyond
- Demonstrating engagement with all groups of stakeholders to determine the most appropriate course of action/effective intervention
- Ensuring a clear, evidence based, decision making path

Principle C – Defining outcomes in terms of sustainable, economic, social and environmental benefits

How we do this

- Having a clear vision and strategy, with key partner organisations through ‘Building a Better Bromley’
- Delivering defined, sustainable outcomes within the limits of resources and authority
- Balancing competing demands with finite resources when determining priorities; managing service users’ expectations effectively with regard to determining priorities and making the best use of the available resources
- Taking a longer term view with regard to decision making, taking account of potential conflicts between the organisation’s vision and short term factors such as financial constraints

Principle D – Determining the interventions necessary to optimise the achievement of the intended outcomes

How we do this

- Having a clear vision and strategy setting out our intended outcomes for citizens and service users
- Ensuring decision makers receive a robust best value option analysis detailing associated risks and outcomes to be achieved
- Considering stakeholder feedback and future impact when making decisions about service delivery, prioritising competing demands

Principle E – Developing capacity including the capability of leadership and individuals

How we do this

- Ensuring that the decision making process is clearly defined and supported by protocols to ensure a shared understanding of roles and objectives is maintained

- Ensuring Members and Officers have the appropriate skills, knowledge, resources and support to fulfil their roles and responsibilities, reflecting the structure and diversity of the community
- Evaluating, and supporting, staff performance through regular reviews which take into account training and development needs
- Supporting the workforce to maintain their health and wellbeing

Principle F – Managing risks and performance through robust internal control and strong public financial management

How we do this

- Regular review of Corporate and Departmental Risks and Risk Registers
- Integration of effective risk management arrangements into the decision making process
- Ensuring an effective scrutiny function which provides a constructive challenge and allows for debate at all stages of the decision making process
- Ensuring effective counter fraud and anti-corruption policies are in place and there is good staff awareness
- Having an effective Audit Sub-Committee whose remit incorporates financial delegation, fraud prevention, internal and external audit

Principle G – Implementing good practices in transparency, reporting and audit to deliver effective accountability

How we do this

- Publishing information on our activities and decisions
- Maintaining a rigorous, effective and transparent decision making and scrutiny process
- Ensuring that public reports are easily accessible and use a style appropriate to the intended audience
- Embracing peer challenge, reviews and inspections from regulatory bodies, implementing recommendations for corrective action as required
- Maintaining an effective internal and external audit service, with direct access to Members

4. The Council - How it Works

This Annual Governance Statement covers the period 1st April 2019 to 31st March 2020 but it should remain up to date until the accounts are approved and audited.

The Council is made up of 60 Councillors with the decision making structure divided between Executive and non-Executive matters. Executive duties are carried out by an Executive body of Councillors, which includes the Leader and six Councillors with specific Portfolio responsibilities. Non-Executive duties are performed mainly by the Development Control Committee and the General Purposes and Licensing Committee.

In response to the Covid 19 pandemic the Council considered as a matter of urgency a number of amendments to its governance processes in order to ensure that effective decision making could continue whilst democratic accountability was preserved during the coronavirus pandemic.

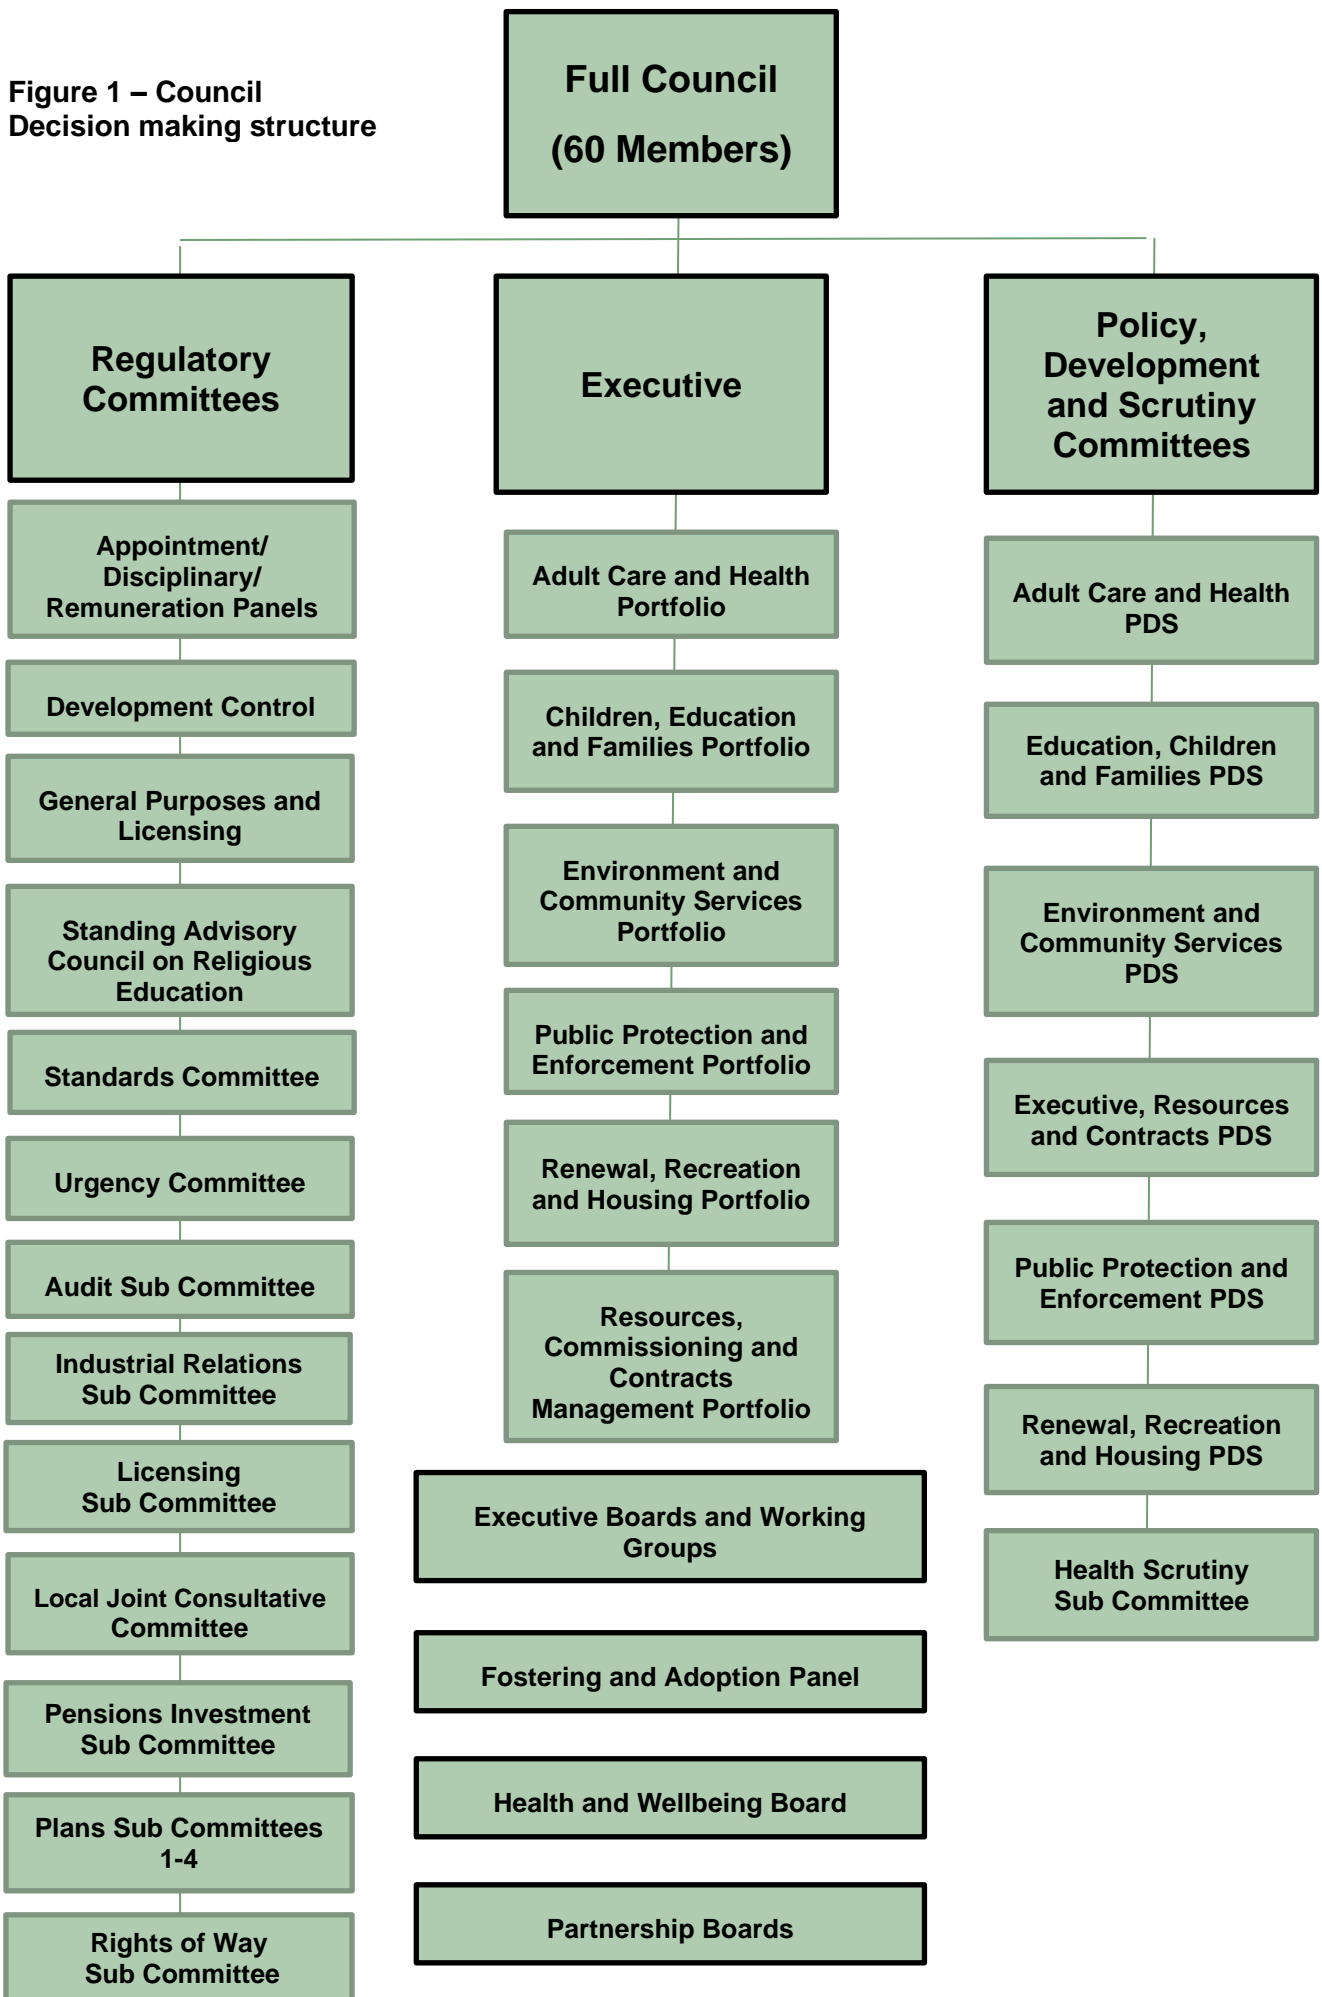

The measures were designed to help the Council redeploy its resources to deal with the pandemic and ensure essential business continued whilst upholding democratic principles and protecting the health and safety of Members, officers and the public in line with official public health guidance.

This included:

- ▶ The rules and protocols for virtual meetings
- ▶ The programme of meetings was suspended with the exception of Executive, Resources and Contracts PDS Committee, Development Control Committee, Planning Sub-Committees and Licensing Sub-Committee meetings.
- ▶ The Chief Executive with the agreement of the Mayor and the Leader was authorised to reinstate the meeting programme as soon as possible.
- ▶ During the period that the meeting programme was suspended the Mayor or the Chairman of a relevant committee or sub-committee can require that a meeting of Council or a relevant committee is called.
- ▶ Where a non-executive matter (save for a licensing or planning decision) was not reserved to Members the Chief Executive with the agreement of the Mayor or the relevant committee Chairman may make that decision.
- ▶ Attendance at a virtual meeting would count towards attendance under the 6 month rule.
- ▶ There would be a regular review of the arrangements as and when the advice/approach from the Government changes. In any event there should be a review of the arrangements no later than the end of June 2020.

The established decision making structure is depicted overleaf:

Figure 1 – Council Decision making structure

5. Outcomes and Value for Money

5.1 Building a Better Bromley

Bromley Council will continue to reduce bureaucratic burdens whilst meeting its role in providing key services. An environment will be created where individuals and communities can thrive and where people can lead healthier, more independent and self-reliant lifestyles. This means that the authority can focus on supporting the Borough's most vulnerable residents with services underpinned by the principles of early intervention and prevention.

Bromley aims to create an environment where children and young people can be successful: supporting people into work; offering advice and signposting to self-help solutions, and working with partners to minimise crime and antisocial behaviour.

Bromley recognises that this activity cannot be done in isolation, so will continue strong support for the voluntary sector as well as working closely with outside bodies in the private and public sector.

Despite the unprecedented financial challenge, Bromley will serve and advocate on behalf of its residents and aim to deliver cost-effective services. Working with strategic partners, it will also continue to ensure that it receives the fairest deal from the Government on issues that are important to Bromley residents.

Bromley's achievements over the past year and plans for the future are reported in the Leader's Foreword and Statement of Accounts.

5.2 Portfolio Plans

Portfolio Plans set out each Portfolio Holder's aims in the current year and the supporting performance targets, using a range of national and local indicators. Overseeing the successful delivery of each plan is the joint responsibility of the Portfolio Holder and the Members of the appropriate Policy Development and Scrutiny Committee (PDS). The Portfolios are aligned to the priorities identified in Building a Better Bromley. In addition, the Health and Wellbeing Board is a collaboration between Bromley Council and various partner agencies whose role is to understand their local community's needs, agree priorities and encourage commissioners to work in a more joined up way.

[Adult Care and Health Portfolio Plan 2018 to 2022 - 2019/20 refresh](#)

[Children, Education and Families Portfolio Plan 2018 to 2022 - 2019/20 refresh](#)

[Environment and Community Services Portfolio Plan 2019/20](#)

[Public Protection and Enforcement Portfolio Plan 2019/20](#)

[Housing, Regeneration and Planning Portfolio Plan, January 2020 refresh](#)

Updates on progress are reported to Members through the Policy, Development and Scrutiny process. Examples of this include:

[Renewal, Recreation and Housing Portfolio Plan 2019/20 - Quarter Three update on progress \(January 2020\)](#)

5.3 Managing our Resources (Value for Money)

The Accounts and Audit Regulations 2015 require the Statement of Accounts to be considered and approved by resolution of a Committee or Full Council. Following approval, the Statement of Accounts must be signed and dated by the person presiding at the meeting at which that approval was given. Before the Committee is able to approve, the Director of Finance must re-confirm on behalf of the authority that he is satisfied that the Statement of Accounts presents a true and fair view of the financial position of the authority at the end of the financial year and of the authority's income and expenditure for that year.

Prior to the Accounts and Audit (Coronavirus) (Amendment) Regulations 2020, in which statutory deadlines for 2019/20 accounts have been extended, with draft accounts requiring approval by 31st August 2020, the regulations stated that, following approval, but no later than 31st July, the authority must publish the Statement of Accounts together with any audit certificate or opinion, the Annual Governance Statement and the Narrative Statement. Where an audit of accounts has not been concluded before the 31st July the authority must publish a notice stating that it has not been able to publish the Statement of Accounts and its reasons for this. The Statement of Accounts must then be published "as soon as reasonably practicable after the receipt of any report from the auditor which contains the auditor's final findings from the audit".

2018/19 was the second year of the new accelerated accounts closure timetable implemented under the Accounts and Audit Regulations 2015. The draft accounts were approved by the Director of Finance on 31st May 2019 and were published on the Council's website. The audit commenced on 3rd June 2019.

The audit had not progressed as smoothly or quickly as planned and a 'Notice of Delayed Audit' was published on the Council's website on 31st July 2019.

Ernst & Young LLP (EY) have not yet been able to conclude their audit of the Council's main accounts due to issues relating to asset valuations. In all other respects the audit is now substantially complete. Officers discussed with the Valuation Contractor a timetable for this work to be completed to avoid any further impact which could, in turn, result in delays in producing the 2019/20 accounts.

The external auditors, EY, have issued their report on the main financial statements and accounts for 2018/19 and the pension fund accounts. These reports include the findings from the interim and final audits and recommendations for improvement. As the audit for the main accounts is not yet concluded, both the audit report and the management representation letter are in draft form at this stage. The auditors are required to report all uncorrected audit differences, other than those that they believe are clearly trivial, to those charged with governance. They are also required to report any material misstatements which have been corrected and which they believe should be communicated to the relevant Committee to assist in fulfilling governance responsibilities. A number of amendments will be required to correct for the material errors in the valuation of the Council's long term physical assets in both the current and previous year accounts. A number of other amendments have been made to the financial statements as a result of the audit work which the auditors do not consider to be significant. None of these matters have an impact on the Council's revenue accounts or general fund balance. There are no non-trivial audit differences which remain uncorrected on either the pension fund or the financial statements.

The auditors are required to inform the General Purposes and Licensing Committee of any significant findings from the audit and other matters if they are significant to their oversight of the Council's financial

reporting process. There are no matters that the auditors wished to draw to the attention of the Committee other than those highlighted in the auditor's report.

The auditor's report also reviews accounting systems and systems of internal control as part of an assessment of the control environment. They are required to report to this Committee any significant deficiencies in internal control. They have not identified any significant deficiencies in the design or operation of an internal control that might result in a material misstatement in the financial statements. They have, however, identified three areas where internal control should be improved. There are a further two recommendations arising from the valuation of land and buildings.

Value For Money (VFM) Conclusion

The Local Audit and Accountability Act 2014 requires auditors of local government bodies to be satisfied that the Authority 'has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources'. For 2018/19 this is based on the overall evaluation criterion "in all significant respects, the audited body had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people". At the planning stage, the auditors identified no significant risks relating to the Council's arrangements. As part of their year-end programme of work they have updated their understanding of the Council's arrangements including consideration of the financial outturn and remain satisfied that there are no significant risks. As a result they expect to issue a conclusion that they are satisfied the Council has put in place proper arrangements to secure economy, efficiency and effectiveness in its use of the resources for the year ended 31st March 2019.

The Council's Accounts and related records were made available for public inspection for 30 working days between 3rd June 2019 and 12th July 2019. This is a requirement of the Regulations and must take place prior to the completion of the audit.

An elector in the Bromley borough has raised an objection to the 2018/19 accounts. The objection was submitted on 6th July. The objections to the 2016/17, 2017/18 and 2018/19 accounts are from the same elector. As a result of these objections the audit for these years cannot be formally concluded and an audit certificate issued.

The detailed approach of the Council towards budgeting over the medium to longer term was reported to Executive on 15th January 2020. Forward financial planning and financial management is a key strength at Bromley and this has been recognised previously by our external auditors. This report continues to forecast the financial prospects for the next 4 years and includes the outcome of the Provisional Local Government Finance Settlement 2020/21. It is important to note that some caution is required in considering any projections for 2021/22 to 2023/24 as this depends on the outcome of the Government's next awaited Spending Review period as well as the awaited impact of the Fair Funding Review and Devolution of Business Rates. Since writing this the impact of the Covid 19 pandemic has begun to be felt and therefore along with all organisations this will have a significant impact on the Council's Financial Strategy which cannot be fully assessed at this stage

[Draft 2020/21 Budget and update on the Council's Financial Strategy 2021/22 to 2023/24](#)

This year we sought to collect views from residents through meetings with residents' associations and by requesting views through media and social media as the Council sets the budget for 2020-21.

Two round table meetings for representatives of the Borough's residents' associations were held at the Civic Centre. These meetings were attended by 44 people from 28 associations, out of the 161 associations invited from across the Borough. Background information was uploaded to the Council's website and distributed to the residents' association representatives. Residents were invited to get in touch through the Leader's mailbox and say what they think the Council is doing well, where they believe improvements could be made and a greater focus placed, and how we can work together more in order to maintain our Borough as the great place it is in which to live, work, do business, as well as relax.

Residents' comments will be considered as the Council prioritises key issues and as Councillors make decisions on the Council's services into the future. A bullet point summary of the observations made by

residents at the meetings can be found in Appendix 9 (page 116 onwards) of the Draft 2020/21 Budget and update on the Council's Financial Strategy 2021/22 to 2023/24.

[Draft 2020/21 Budget and update on the Council's Financial Strategy 2021/22 to 2023/24](#)

6. How do we know our arrangements are working?

6.1 The Role of Management

The senior officer forum is the Chief Officer's Executive (COE). Membership includes the Chief Executive and his senior leadership team:

- Chief Executive
- Director of Children's Services
- Director of Environment and Public Protection
- Director of Housing, Planning and Regeneration
- Director of Corporate Services
- Director of Adult Services
- Director of Public Health
- Director of Finance
- Director of Human Resources and Customer Services

The purpose of the Chief Officer's Executive (COE) is:

- ▶ High-level officer decision making: COE is the highest officer forum for high-level decision making to facilitate the effective working of the organisation.
- ▶ Discussion of governance issues / review of the Council's Forward Plan: COE is the officer forum for the discussion of any key governance issues and review's the Council's Forward Plan on a regular basis to ensure smooth and timely decision making
- ▶ Information sharing: an opportunity for Directors to provide high-level updates of activity in their respective service areas in an informal environment
- ▶ Review progress of COE sponsored working groups reporting to Corporate Leadership Team (CLT): CLT working groups will report into COE for advice and guidance prior to reporting back to CLT
- ▶ Overview of the delivery of the Transforming Bromley agenda: COE Transformation Board is an extension of COE and meets fortnightly to oversee the successful delivery of the Transformation Programme and the key principles of the Transforming Bromley Roadmap.

The Corporate Leadership Team is responsible for the Strategic Leadership of the organisation, with managers having day to day responsibility for the management and control of service delivery. Our managers set the 'tone from the top' and develop and implement policies, procedures, processes and controls. They ensure compliance.

The Corporate Risk Management Group (CRMG), chaired by the Director of Finance and including the Head of Audit & Assurance in its membership, oversees the Council's governance arrangements and delivery of the Annual Governance Statement.

Each Director retains responsibility for the Risks and Controls within their division, with Internal Audit coordinating the Risk Management process via the Corporate Risk Management Group and Audit Sub Committee.

Formal scrutiny of the Risk Registers was undertaken by the Corporate Risk Management Group on 30th January 2020 and the Gross 'High' (Red) rated risks for the respective areas falling under PDS Committee remit presented to their meetings.

The Standards Committee of 12 March 2020 considered the Monitoring Officer's General Report. This updated the Committee on a number of Standard issues including the revised Code of Conduct, Complaints, Dispensations granted by the Monitoring Officer and Members' Gifts and Hospitality Register entries.

[Monitoring Officer's General Report 12th March 2020](#)

[Appendix 1 \(Member/Officer Protocol\)](#)

[Appendix 2 \(Gifts and Hospitality Declarations\)](#)

[Appendix 3 \(Work Programme and Matters Outstanding\)](#)

[Appendix 4 \(Code of Conduct for Councillors and Co-opted Members\)](#)

The outcome of this is that we have adequate governance arrangements in place and relevant to the environment we work in.

6.2 The Role of the Audit Committee

The Council has appointed an Audit Sub-Committee which considers financial delegations, fraud prevention, internal and external audit. It is a sub-committee of the General Purposes and Licensing Committee and meets three times a year.

[Audit Sub Committee Meetings \(Agendas, Papers, Minutes\)](#)

The Audit Sub-Committee plays an important role in ensuring that the Council learns from Internal Audit findings and rectifies identified weaknesses in control. All Priority One recommendations from Internal Audit are tracked by the Committee until implemented.

6.3 Our Governance Framework

Key Policies/Processes/Posts/Functions in our Governance Framework include:

	Policy/Process
A	Annual Audit Letter
	Annual Governance Statement
	Anti-Bribery Policy and Procedures
	Anti-Fraud and Corruption Strategy
	Anti-Money Laundering Policy
	Audit Sub Committee
B	Building a Better Bromley
C	Capital Strategy
	Code of Conduct for Members
	Complaints System
	Constitution
	Contract Procedure Rules/Standing Orders
	Corporate Induction Process
	Corporate Leadership Team
	Corporate Operating Principles
	Customer Access Channel Strategy
	Customer Services Charter
D	DISCUSS Appraisal Scheme
E	Executive and Resources PDS Committee Annual Report
F	Financial Regulations
	Financial Strategy
	Forward Plan of Key Decisions
G	'Getting it Right' – Complaints, Compliments and Suggestions
	Gifts and Hospitality Code of Conduct
H	Head of Audit
	Head of Paid Service
I	Internal and External Audit Reports
	Internal Audit Opinion and Annual Report
	Internal Controls
	IT Governance
L	Leader's Foreword and Statement of Accounts
	Learning and Development
	Local Development Framework
M	Member/Officer Protocol
	Monitoring Officer (Director of Corporate Services)
P	Portfolio Plans
	Public Consultations/Meetings
R	'Raising Concerns' whistle blowing
	Register of Interests
	Risk Management Strategy
S	Scheme of Delegation
	Section 151 Officer (Director of Finance)
	Statement of Accounts
T	Treasury Management Strategy

6.4 Annual Governance Assurance Statement

Each member of the COE is required to confirm that:

'In meeting my responsibilities above, I have:

- ▶ Contributed to the review of Risk Registers and the outcomes
- ▶ Ensured that there are controls in place to mitigate the risks highlighted in the above exercise
- ▶ Considered relevant assessments of key service areas within the Department e.g. benchmarking, peer review
- ▶ Taken into account internal and external audit and inspection reports and results of follow ups regarding implementation of recommendations

I am satisfied that to the best of my knowledge, the following procedures are in place:

- ▶ The service is planned and managed in accordance with the Council's Corporate Operating Principles
- ▶ Business risks are identified, assessed and reported on a regular basis
- ▶ Key controls over systems and processes are in place to ensure the Council's assets are safeguarded
- ▶ Business Continuity Plans are maintained and reviewed as circumstances change
- ▶ The monthly Cumulative Spend Report has been reviewed and agreed as part of the Full Budget Monitoring System
- ▶ Key contract information is kept up to date in the Contracts Database to allow Contract Registers and other management information to be reported

Where unable to confirm all, or some of these, the areas for improvement and planned actions must be detailed'.

6.5 External Inspections/Peer Reviews

During the last year the Council has received the following assessments from other Inspectorates, agencies or Peer Reviews:

- Ofsted and the Care Quality Commission (CQC) joint local area SEND inspection in Bromley (16th – 20th September 2019)

[Joint Local SEND Inspection in Bromley \(Ofsted Letter 8th November 2019\)](#)

[Joint Local SEND Inspection in Bromley \(Press Release 23rd December 2019\)](#)

6.6 The Role of Internal Audit

Internal Audit provides independent and objective assurance to the Council through its Audit Sub-Committee, to support them in discharging their responsibilities under S151 of the Local Government Act 1972, relating to the proper administration of the Council's financial affairs, and is a key component of Corporate Governance within the Council.

An independent Internal Audit function will, through its risk-based approach to work, provide assurance to the Council's Audit Sub-Committee and senior management on the higher risk and more complex areas of the Council's business, allowing management to focus on providing coverage of routine operations.

Internal Audit's objectives include supporting a positive culture of internal control improvement, effective risk management and good governance. The purpose, authority and responsibility of the internal audit activity are formally defined in the Internal Audit Charter, which will be periodically reviewed and presented to senior management and the Audit Sub-Committee for approval. The latest updates to the Charter were approved by the Audit Sub Committee on the 26 February 2020.

6.7 The Role of the Head of Audit and Opinion on Governance Risk and Control

The Council is responsible for ensuring that it has a sound system of governance (incorporating the system of internal control).

The Head of Audit & Assurance is required to provide an independent opinion on the overall adequacy of the effectiveness of the Council's governance, risk and control framework. Their Annual Report and Opinion has been considered and any significant issues incorporated as a result.

From the work undertaken during 2019/20, reasonable assurance can be provided that there is generally a sound system of internal control, designed to meet the Council's objectives and that controls are applied consistently. Where weaknesses are identified, i.e. Limited Assurance reports and Priority One recommendations are made; these are tracked by the Corporate Leadership Team and the Audit Sub Committee until implemented or discharged. The work undertaken as part of reviewing the evidence for this statement further demonstrates that governance, risk and control systems meet the best practice framework.

The Covid-19 pandemic has had disruptive and unprecedented effects on Local Government and the Council has had to adapt to this changing landscape. There are risks to service delivery; from for example, an increase in staff absence rates amongst employees and contractors. At the same time there have been increased workloads, in key defined critical services. The Council adopted new operating models to continue its work and deliver new initiatives. It has approached this ensuring that appropriate, proportionate controls and financial stewardship have been considered and adopted where needed.

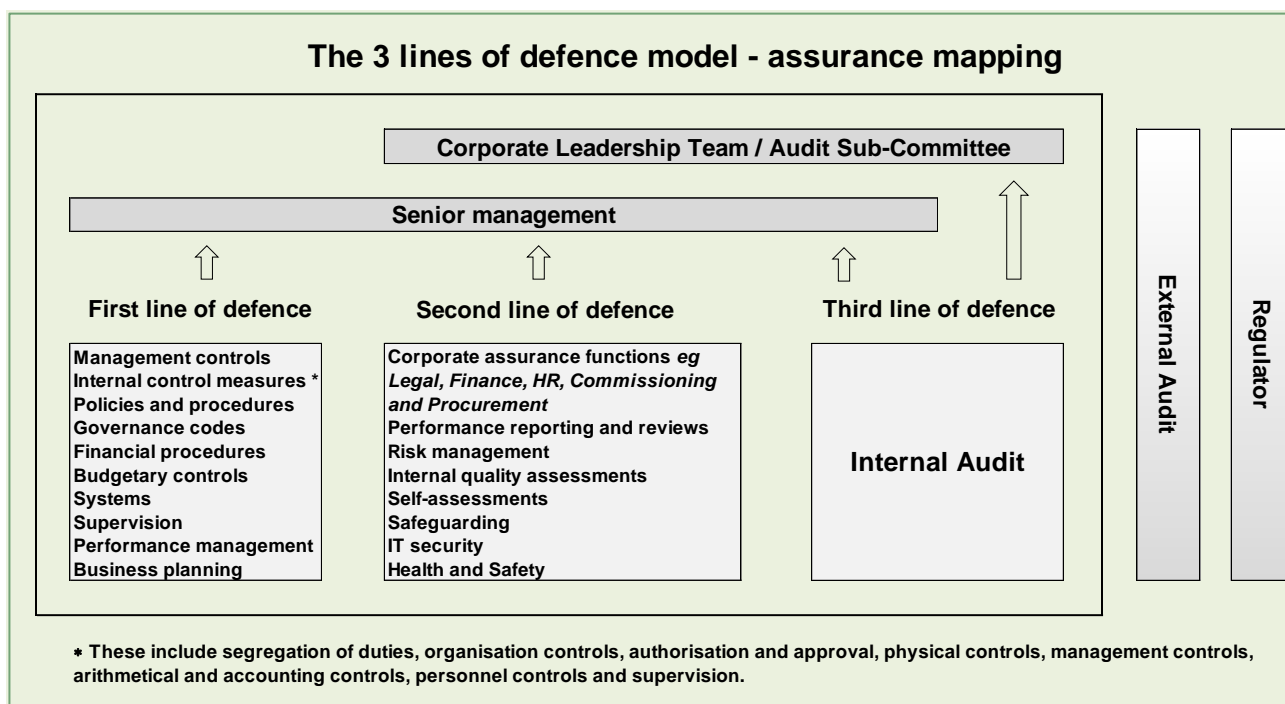

7. Our Strategic Risks

The Accounts and Audit Regulations require the Council to undertake an effective internal audit to evaluate the effectiveness of its risk management, control and governance processes, taking into account the Public Sector Internal Auditing Standards (PSIAS) or guidance. Internal audit is a key component of corporate governance within the Council. The three lines of defence model, as detailed below, provides a simple framework for understanding the role of internal audit in the overall risk management and internal control processes of an organisation.

- ▶ First line – operational management controls
- ▶ Second line – monitoring controls, e.g. the policy or system owner / sponsor
- ▶ Third line – independent assurance

The Council's third line of defence includes Internal Audit, who should provide independent assurance to senior management and the Audit Sub-Committee on how effectively the first and second lines of defence have been operating.

Figure 2 – 3 Lines of Defence Model

Risk management is an important element of the system of internal control at Bromley Council. It is based on a process designed to identify, prioritise and control the risks to achieving Bromley’s policies, aims and objectives.

The Corporate Risk Register is a key document in the Council’s approach to risk management; it captures the key strategic risks to the delivery of the corporate objectives as set out in the ‘Building a Better Bromley’ vision. It also provides a context through which high level risks are identified and is used to inform decision making about business planning and service delivery. Chief Officers assume the lead role for Strategic Risks affecting their own service areas with the Corporate Risk Register reviewed at least annually. The Corporate Risk Management Group takes the lead in championing and co-ordinating the Council’s approach to risk management, and ensures that effective risk management processes are fully embedded.

The published Corporate Risk Register can be viewed via following the link

[Corporate Risk Register](#)

8. Looking Back on 2019/20

Governance Issue	Action	Progress
<p>Finance Capacity to make further budget savings and maintain frontline services. The Council has set a balanced budget for 2019/20 without a detrimental impact on key services. There are significant mitigation options to partly offset growth/cost pressures being implemented for 2019/20. Significant challenges remain for 2020/21 and beyond.</p>	<p>Work is ongoing to explore options to address the future years' budget gap through the four year forward planning arrangements.</p> <p>Draft 2019/20 budget and update on Council's financial strategy 2020/21 to 2022/23 report to Executive on 16th January 2019 identified the 'One Council' approach and new arrangements for a Transformational Review and Core Statutory Minimum Requirements review to explore further budget choices.</p> <p>Draft 2019/20 Budget and update on Council's Financial Strategy 2020/21 to 2022/23</p>	<p>The Council has achieved a balanced budget in 2019/20 and a combination of an improved local government financial settlement in 2020/21 combined with identifying savings and income opportunities as well as continuing with prudent financial management has resulted in a balanced budget (pre Covid-19) in 2020/21 and there remains a "budget gap" of £0.8m in 2021/22 rising to £16.9m per annum in 2023/24. It is not clear whether the significant additional costs/loss of income from Covid 19 would be fully met from Government funding which could have an impact on the Council's finances in 2020/21 as well as potentially future years. The projections (pre Covid-19) from 2021/22 had to be treated with some caution, particularly as the Government's next Spending Review, outcome of the Fair Funding Review and Business Rate Devolution is now expected to be implemented from 2021/22 – the outcome, including the impact on individual councils, is still awaited.</p>
<p>Health and Safety/Fire Safety Compliance Strengthen the Health and Safety Management systems and processes across the Council ensuring compliance with good practice.</p>	<p>Health and Safety Risk Assessments Compile a full suite of comprehensive Health and Safety Risk Assessments, demonstrating that Health and Safety Risks have been established and action plans are in place to implement controls.</p> <p>Fire Safety Risk Assessments Action is being taken to address the site management issues identified in the Operational Property Estate Fire Risk Assessments:-</p> <ul style="list-style-type: none"> • A person responsible for fire safety is identified at each building • Contractors occupying buildings are carrying out fire safety properly, if their responsibility • Suitable training/guidance is delivered either in house or 	<p>Health and Safety Risk Assessments. Each department was asked to identify four risk areas within their departments and then were subsequently asked to carry out a risk assessment for each of them. Due to the current circumstances with COVID-19, there has been a delay in receiving some risk assessments, however Corporate Health and Safety are keeping a record of all risk assessments received and have been starting to follow up again to remind departments to carry out those that remain outstanding, whilst taking into the account the additional workload many departments are facing currently. As many departments identified lone working as one of their risks an external officer was commissioned</p>

	<p>externally, to ensure that responsible personnel are enabled to carry out their duties correctly and with confidence.</p>	<p>to carry out a risk assessment for lone working which has now been completed and sent out to all departments. Other risk assessments were also completed by an external officer for areas across the Council, such as the North Block Reception Area. Actions that need to be carried out by departments are specified in their risk assessments. Due to the current circumstances, there has been a delay in carrying out these action plans, however meetings regarding carrying the actions out should still be going ahead.</p> <p>Fire Safety Risk Assessments</p> <p>i) Corporate Health and Safety has received a list of fire responsible people for buildings that are overseen by Environment and Public Protection. HR is currently in the process of identifying who would be best placed to be the fire responsible people for all other buildings, and where required training will be commissioned. Additionally, the list of fire wardens has been updated with a view to ensuring that there are a sufficient number of fire wardens in the right places. The corporate health and safety group agreed to review the list twice a year to take account of staff movement and resignation in particular. The training record of fire wardens is also being updated and a refresher training is being commissioned by Workforce Development.</p> <p>ii) Amey holds copies of all fire risk assessments carried out on their Concept Database, which can be provided to LBB on request.</p> <p>iii) Research has been carried out regarding the virtual training options available. Training will be commissioned for all the people identified as requiring it.</p>
<p>Contract Management and Monitoring Strengthen control arrangements and effectiveness of Contract Management.</p>	<p>i) Clarify and communicate to all staff their roles and responsibilities in respect of the management of key contracts.</p> <p>ii) Monitor compliance against Contract Procedure Rules Contract Monitoring</p>	<p>i) Clarification and communication of roles and responsibilities</p> <ul style="list-style-type: none"> • Regular communications and Practice / Guidance notes to staff • Updating of Contract

	<p>requirements, identifying any issues for action to be taken through the Chief Officers' Executive/Corporate Leadership Team.</p> <p>iii) Via the Procurement Board, periodically review contract management and contract monitoring issues for key contracts, feeding back any issues/actions to the Chief Officers' Executive/Corporate Leadership Team.</p> <p>iv) Embed learning and best practice for contract management via Practice Notes on the Managers' Toolkit and through a quarterly Contract Owners Forum to ensure governance compliance and consistency.</p>	<p>Procedure Rules to improve clarity of roles and responsibilities</p> <ul style="list-style-type: none"> • Quarterly Contract Owners meeting in place, a workshop to discuss Procurement and Contract Management issues with key topics at each meeting <p>ii) Monitoring compliance against Contract Procedure Rules</p> <ul style="list-style-type: none"> • Regular review of Contracts Database • Improved engagement with Procurement team for advice and guidance • Feedback to CLT • Specific action taken in relation to guidance issued on Contract Monitoring requirements and reporting to Members <p>iii) Via the Procurement Board, periodically review contract management and contract monitoring issues for key contracts</p> <ul style="list-style-type: none"> • Procurement Board is in place, meets regularly and monitoring of key contracts is standard part of agenda <p>iv) Embed learning and best practice for contract management</p> <ul style="list-style-type: none"> • Practice Notes regularly issued as required • Quarterly Contracts Owners meeting in place <p>While there are no specific issues for which action is required, all these actions (and others) need to be repeatedly communicated and reviewed on an ongoing basis to ensure they remain embedded within the organisation.</p>
<p>Valuation of Fixed Assets Issues have been identified relating to the methodology used for the valuation of fixed assets for reporting in the Council's 2018/19 Statement of Accounts. It is clear that a revised approach is necessary which will require significant work relating to a full re-valuation of the Council's</p>	<p>The Council's Assistant Director, Strategic Property, is working with our external real estate property advisors/valuers to ensure that this work is completed within a timescale to allow restatement of the Council's accounts prior to the end of the current financial year.</p>	<p>A significant exercise was undertaken to ensure the Council's asset base was re-valued and reviewed prior to the end of the financial year using methodology agreed with by the external auditors real estate team. However, the external auditors have and continue to raise various queries as to the detail in how assets valuations have been</p>

assets.		<p>calculated, which have not impacted on the valuations themselves, but has taken the Council's external real estate property advisors/valuers time to answer. The availability of external auditor resource combined with the continued request for further clarifications from the Council's external real estate property advisors has meant that the restatement of the Council's assets was not delivered prior to the end of the financial year.</p> <p>The need for the Council to employ a Registered Valuer and to agree valuation methodology together with source data/record keeping for Asset Valuations was made clear during this exercise. The Assistant Director of Strategic Property will be making recommendations to rectify these issues.</p>
---------	--	--

To the best of our knowledge, the governance arrangements as defined above, have been operating effectively during the year and remain fit for purpose.

We propose to take steps over the coming year to address the Significant Governance Issue defined on pages 3 and 4 to further enhance our governance arrangements. We are satisfied that these steps will address the need for improvements that were identified in our review of effectiveness and will monitor their implementation and operation as part of our next annual review.

GLOSSARY OF TERMS

Accounting Policies

The specific principles, bases, conventions, rules and practices applied by the Council in preparing and presenting the financial statements.

Accruals

The concept that income and expenditure are recognised as they are earned or incurred, not as money is received or paid.

Actuary

An independent consultant who advises on the financial position of the Pension Fund.

Actuarial Gains and Losses

Changes in actuarial deficits or surpluses that arise because either actual experience or events have differed from the assumptions adopted at the previous valuation (experience gains or losses) or the actuarial assumptions have been changed.

Agent is where the Council is acting as an intermediary.

Balance Sheet

A statement showing the position of the Council's assets and liabilities as at 31st March in each year.

Billing Authority

A local authority empowered to set and collect council taxes, and manage the Collection Fund, on behalf of itself and local authorities in its areas. Bromley is a billing authority.

Budget

A forecast of the Council's planned expenditure. The level of the council tax is set by reference to detailed revenue budgets. Budgets are reviewed during the course of the financial year to take account of pay and price changes and other factors affecting the level or cost of services.

Capital Adjustment Account

This reserve includes amounts set aside from either revenue resources or capital receipts to fund the acquisition of fixed assets.

Capital Charges

A charge to service revenue accounts to reflect the cost of fixed assets used in the provision of services. The charge includes depreciation (intended to represent the cost of using the asset) and any impairment that may have occurred in the year of account.

Capital Expenditure

Expenditure on the acquisition of a fixed asset or expenditure which adds to and not merely maintains the value of an existing fixed asset.

Capital Receipt

The proceeds from the sale of a fixed asset.

Carrying amount

Is the amount at which an asset is recognised after deducting any accumulated depreciation and impairment losses.

Change in Accounting Estimate

Is an adjustment of the carrying amount of an asset or a liability, or the amount of the periodic consumption of an asset, that results from the assessment of the present status of, and expected future

benefits and obligations associated with, assets and liabilities. Changes in accounting estimates result from new information or new developments and, accordingly, are not correction of errors.

Collection Fund

Statutory account showing transactions in relation to collection of Council Tax, administration of National Non-Domestic Rates and contributions made to the General Fund of Bromley Council and the GLA.

Community Assets

Assets that the local authority intends to hold in perpetuity, that have no determinable useful life and that may have restrictions on their disposal. Examples of community assets are parks and historic buildings.

Consistency

The principle that the accounting treatment of like items within an accounting period and from one period to the next is the same.

Contingent

A condition which exists at the balance sheet date where the outcome will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the authority's control.

Corporate and Democratic Core

The corporate and democratic core comprises all activities which local authorities engage in specifically because they are elected multi-purpose authorities. The cost of these activities are thus over and above those which would be incurred by a series of independent, single purpose, nominated bodies managing the same services. There is therefore no logical basis for apportioning these costs to services.

Council Tax

A local charge (or charges set by the council and the GLA) in order to collect sufficient revenue to meet their demand on the collection fund. It replaced the community charge (poll tax) on 1 April 1993 and is based on the value of the property and the number of residents. The Valuation Office Agency assesses the properties in each district area and assigns each property to one of eight valuation bands; A to H. The tax is set on the basis of the number of Band D equivalent properties. Tax levels for dwellings in other bands are set relative to the Band D baseline.

Council Tax Support

The Council operates a national council tax benefit scheme which supports pensioners and working age people on low incomes to pay their council tax.

Creditors

Amounts owed by the Council for goods received or services provided before the end of the accounting period but for which payments have not been made by the end of that accounting period.

Current Asset

An asset that will be consumed or cease to have value within one year of the reporting date. Examples are inventories and debtors.

Current Expenditure

A general term for the direct running costs of local authority services, including employee costs and running expenses.

Current Liability

An amount which will become payable or could be called in within the next accounting period, examples are creditors and cash overdrawn.

Current Service Cost

The increase in the present value of a defined benefit obligation resulting from employee service in the current period.

Curtailments

Curtailments arise as a result of the early payment of accrued pensions on retirement on the grounds of efficiency, redundancy or where the Employer has allowed employees to retire on unreduced benefits before they would otherwise have been able to do so.

Debtors

Amounts due to the Council before the end of the accounting period but for which payments have not yet been received by the end of that accounting period.

Deferred Capital Receipts

These result mainly from loans to Housing Associations plus outstanding loans in respect of past sales of Council dwellings to tenants who were unable to obtain a building society loan or other external means of financing. Their indebtedness is reflected in the balance sheet under long-term debtors. This account shows the amount to be paid on deferred terms and is reduced each year by repayments made.

Demand on the Collection Fund

Represents the amount calculated by the council or the GLA to be transferable from the council's collection fund to its general fund.

Depreciation

The loss in value of a fixed asset due to age, wear and tear, deterioration or obsolescence.

Earmarked Reserves

Reserves set aside for a specific purpose or a particular service or type of expenditure.

Employee benefits

Are all forms of consideration given by an entity in exchange for service rendered by employees.

Events after the reporting period

Are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the financial statements are authorised for issue. Two types of events can be identified:

- a) those that provide evidence of conditions that existed at the end of the reporting period (adjusting events after the reporting period), and
- b) Those that are indicative of conditions that arose after the reporting period (non-adjusting events after the reporting period).

Fair Value

The amount for which an asset could be exchanged or a liability settled, between knowledgeable, willing parties in an arm's length transaction. In accounting terms, fair values are approximated by the present value of the cash flows that will take place over the remaining life of the financial instrument.

Fixed Assets

Tangible assets that yield benefit to the local authority and its services for a period of more than one year.

Formula Grant

The main channel of government funding which includes re-distributed Business Rates and Revenue Support Grant. There are no restrictions on what local authorities can spend it on.

Going Concern

The concept that the authority will remain in operational existence for the foreseeable future, in particular that the revenue accounts and balance sheet assume no intention to curtail significantly the scale of operations.

Greater London Authority

A strategic authority for London created on 3rd July 2000.

Historical Cost

Is deemed to be the carrying amount of an asset as at 1 April 2007 (i.e. b/f from 31 March 2007) or at the date of acquisition, whichever date is the later, and adjusted for subsequent depreciation or impairment (if applicable).

Housing Benefit

Financial help given to local authority or private tenants whose income falls below prescribed amounts.

Impairment

A reduction in the value of a fixed asset below its carrying amount on the balance sheet.

Infrastructure Assets

Fixed assets that are not able to be transferred or sold, expenditure on which is recoverable only by continued use of the asset created. Examples of infrastructure assets are highways, footpaths, bridges and sewers.

Intangible Assets

An intangible asset is an *identifiable* non-monetary asset without physical substance. It must be *controlled* by the authority as a result of past events, and *future economic or service benefits* must be expected to flow from the intangible asset to the authority. The most common class of intangible asset in local authorities is computer software.

Inventories

Are assets:

- a) in the form of materials or supplies to be consumed in the production process
- b) in the form of materials or supplies to be consumed or distributed in the rendering of services
- c) held for sale or distribution in the ordinary course of operations, or
- d) in the process of production for sale or distribution.

Investment Property

Is property (land or a building, or part of a building, or both) held solely to earn rentals or for capital appreciation or both, rather than for:

- a) use in the production or supply of goods or services or for administrative purposes, or
- b) sale in the ordinary course of operations.

Levies

A payment that a local authority is required to make to a particular body (a levying body) to meet London wide services. Levying bodies include the London Pensions Fund Authority, London Boroughs Grants Committee, Environment Agency and Lee Valley Regional Park.

Material

Material omissions or misstatements of items are material if they could, individually or collectively, influence the decisions or assessments of users made on the basis of the financial statements. Materiality depends on the nature or size of the omission or misstatement judged in the surrounding circumstances. The nature or size of the item, or a combination of both, could be the determining factor.

NNDR - National Non Domestic Rates

Non-Domestic Rates, or Business Rates, collected by local authorities are the way that those who occupy non-domestic property contribute towards the cost of local services. Under the business rates retention arrangements introduced on 1 April 2013, the Council keeps a proportion of the business rates paid locally.

Net Current Replacement Cost

The cost of replacing or recreating the particular asset in its existing condition and in its existing use, i.e. the cost of its replacement or of the nearest equivalent asset, adjusted to reflect the current condition of the existing asset.

Net Realisable Value

The open market value of the asset in its existing use (or open market value in the case of non-operational assets), less the expenses to be incurred in realising the asset.

Non-Distributable Costs

These include overheads for which no user benefits and should not be apportioned to services. Examples are spare computer capacity and empty offices. These also include pension costs in relation to scheme members' past service.

Non-Operational Assets

Fixed assets held but not directly occupied, used or consumed in the delivery of services. Examples of non-operational assets are investment properties and assets that are surplus to requirements, pending sale or redevelopment.

Operational Assets

Fixed assets held and occupied, used or consumed by the Authority in the direct delivery of services for which it has either a statutory or discretionary responsibility.

Past Service Cost

The increase in the present value of Pension Fund liabilities arising in the current year from previous years' service. Past service cost may be either positive (where benefits are introduced or improved) or negative (where existing benefits are reduced).

Pensions Interest Cost

The expected increase during a period in the present value of Pension Fund liabilities which arises because the benefits are due one year closer to settlement.

Post Balance Sheet Events

Those events, both favourable and unfavourable, which occur between the balance sheet date and the date on which the Statement of Accounts is signed by the responsible financial officer.

Post-Employment Benefits

Are employee benefits (other than termination benefits) which are payable after the completion of employment.

Present Value of a Defined Benefit Obligation

Is the present value, without deducting any plan assets, of expected future payments required to settle the obligation resulting from employee service in the current and prior periods.

Provision

An amount set aside in the accounts for liabilities or losses which are certain or very likely to occur but uncertain as to the amounts involved or the dates on which they will arise.

Prudence

The concept that revenue is not anticipated but is recognised only when realised in the form either of cash or other assets and full and proper allowance is made for all known and foreseeable losses and liabilities.

Recharges

The collective term for accounting entries representing transfers of (or to cover) costs initially debited elsewhere. They therefore comprise apportionments and charges.

Recoverable Amount

Of an asset is the higher of fair value less costs to sell (i.e. net selling price) and its value in use.

Related Parties

Two or more parties are related parties when at any time during the financial period:

- (i) one party has direct or indirect control of the other party; or
- (ii) the parties are subject to common control from the same source; or
- (iii) one party has influence over the financial and operational policies of the other party to an extent that the other party might be inhibited from pursuing at all times its own separate interests; or
- (iv) the parties, in entering a transaction, are subject to influence from the same source to such an extent that one of the parties to the transaction has subordinated its own separate interest.

Related Party Transaction

Is a transfer of resources or obligations between related parties, regardless of whether a price is charged. Related party transactions exclude transactions with any other entity that is a related party solely because of its economic dependence on the authority or the government of which it forms part.

Remuneration

All sums paid to or receivable by an employee and sums due by way of expense allowances (as far as those sums are chargeable to UK income tax) and the money value of any other benefits received other than in cash. Pension contributions payable by the employer are excluded.

Reserves

Sums set aside to finance future spending for purposes falling outside the definition of a provision. Reserves set aside for stated purposes are known as earmarked reserves. The remainder are unallocated reserves, often described as balances.

Residual Value

Of an asset is the estimated amount that an entity would currently obtain from disposal of the asset, after deducting the estimated costs of disposal, if the asset were already of the age and in the condition expected at the end of its useful life.

Revaluation Reserve

This reserve records accumulated gains on fixed assets arising from periodic asset revaluations.

Revenue Expenditure

The day to day running costs relating to the accounting period irrespective of whether or not the amounts due have been paid. Examples are salaries, wages, materials, supplies and services.

Revenue Expenditure Funded from Capital under Statute

Expenditure incurred that may be capitalised under statutory provisions but that does not add value to the Council's fixed assets.

Revenue Support Grant - RSG

A general grant which replaced rate support grant in 1990-91. Now distributed as part of the Formula Grant.

Ring-Fenced Grants

These grants fund particular services or initiatives considered a national priority, and must be spent on a particular service.

Sales, Fees and Charges

Charges made to the public for a variety of services such as the provision of school meals, meals-on-wheels, letting of school halls and the hire of sporting facilities, library fines and planning application fees.

Short-Term Employee Benefits

Are employee benefits (other than termination benefits) that fall due wholly within 12 months after the end of the period in which the employees render the related service.

Soft Loans

Loans made at less than the prevailing rate of interest and which consequently involve subsidisation of the borrower.

Specific Grants

These are grants paid by various government departments outside the main formula. They include ring-fenced grants and specific formula grants.

Statutory Revenue Provision

A prudent amount charged to the revenue account to provide for the repayment of debt.

Tangible Fixed Assets

Tangible assets that yield benefits to the Authority and the services it provides for a period of more than one year.

Tax Base

The number of Band D equivalent properties in a local authority's area. An authority's tax base is taken into account when it calculates its council tax, and when central government calculates entitlement to Formula Grant.

Usable Capital Receipts Reserve

This reserve records receipts from fixed asset disposals that are available to finance capital expenditure.

Useful Life

The period over which benefits will be derived from the use of a fixed asset.

VAT

Is an indirect tax levied on most business transactions and on many goods and some services.

- Input Tax is VAT charged on purchases.
- Output Tax is VAT charged in sales.
