

## Policy M1 Monitoring

A The implementation of the London Plan will be kept under review using, in particular, the Key Performance Indicators set out in [Table 12.1](#) and the Annual Monitoring Report.

- 12.1.1 It is important to have a succinct set of **Key Performance Indicators (KPIs)** and measures against which to monitor the successful implementation of this Plan’s policies. The KPIs support key Mayoral commitments and priorities in a structured way. They seek to assess yearly progress and to build meaningful time series. The measure for each indicator shows the direction and scale of change that the London Plan policies are seeking to achieve. They do not themselves represent additional policy.
- 12.1.2 Performance against the KPIs will be reported in the statutory **Annual Monitoring Report (AMR)** to be published by the Mayor each Spring. The KPI figures will be accompanied by commentary that may also include additional corresponding performance figures. The AMR will also monitor a range of other data that is relevant to understanding the implementation of the Plan in the wider context, and to inform future reviews of the Plan.

**Table 12.1 - Key Performance Indicators and Measures**

Housing	
KPI	Supply of <b>new homes</b>
Measure	Increase in the supply of new homes over the period (monitored against housing completions and the net pipeline of approved homes), towards meeting the 66,000 net additional homes needed each year up to March 2029.
KPI	Supply of <b>affordable homes</b>
Measure	Positive trend in percentage of planning approvals for housing that are affordable housing (based on a rolling average).
