Westminster	85%	86%	82%

1. For the 2011 Census, a usual resident of the UK is anyone who, on census day 2011, was in the UK and had stayed or intended to stay in the UK for a period of 12 months or more, or had a permanent UK address and was outside the UK and intended to be outside the UK for less than 12 months.

For more information see <http://www.ons.gov.uk/census>.

2. The number of usual residents for whom individual details were provided on a returned questionnaire, divided by the estimated usually resident population.

3. The number of households (containing one or more usual residents) who returned a household questionnaire, divided by the estimated number of households containing usual residents.

4. The percentage of household questionnaires that were returned.
